Statement of Facts

The Following Facts support the intervening circumstances of a substantial and controlling effect as Motive for the Felony U.S. Mail Fraud/Forgery is established by way of U.S. Federal evidences.

- 1.) IN 2019 the Petitioner was Awarded Patent Pending from the United States Patent and Trademark Office on a Fuelless, Stand Alone, mechanical Method of Producing and Storing/Capturing Electricity/Renewable Energy Technologies. The 4 Patents Pending were For Homes No: 62/921,471; Cellphones or Laptop No: 62/921,555; Electric Vehicles No: 62/921,556; medical, Recreation, Emergency Devices No: 62/921,559.
 - 2.) From 2019 until the present the Petitioner has suffered electronic interferences with his accounts and mail evidentiary interceptions.
 - A.) USPTO "Motion to Withdrawal of Abandonment" Filed with the assistance of USPTO officials because the Formalities Letters were returned in the U.S. mail! This is Federally Verifiable.
 - B.) The Plaintiff made USPTO Reference Numbered calls explaining the Plaintiff's Phone Number was being blocked from calling the USPTO and the Complaint was made using another family member's cell phone.
 - C.) \$20 Million Dollars that was in the Petitioner's personal checking account at BDF Bank was stolen during transfer to his personal checking account at First Convenience Bank of Longview.
- Criminal Motive & Mail Fraud/Forgery/Theft Etc.
- D.) USPTO Pat. Pend. No: 62/921,471 Independent Energy Systems (I.E.S.) Free electricity
 - E.) U.S. Department of Energy (NREL) ARIES Project Advanced Research on (I.E.S.) ~~Infringement~~
- 3.) The Petitioner collected an overwhelming amount of evidence Filed the Lawsuit "Michael Sampson v. United States" case No: 6-22-cr-489 E.D. TX. TXler
 - A.) See: Court Docket No: 6-22-cr-489 ^{1st} "Motion to Submit evidence" ~~(Denied)~~
 - B.) See: Court Docket No: 6-22-cr-489 ^{2nd} "Motion to Submit evidence" ~~(Denied)~~
 - C.) See: Court Docket No: 6-22-cr-489 "Objection to the Report AND Recommendation" 42 Pages of Fact evidences Plus one Flashdrive with Audio/video evidence "Placed in Vault" This evidence is Fact that proves the Two Federal Judges made falsely Fact statements and attempted to cover up \$20 million Dollar theft and criminal conspiracy!

4.) The Petitioner would show that he was arrested the very next morning in his own front yard and is now two years later serving an illegal 8 years prison sentence for evading arrest in a motor vehicle that never ran any signs, happened entirely on private property and is a 100% fabricated lie meant to protect criminals that have falsified ARIES Funding/Government documents, stolen \$20 million dollars from my personal checking account and made false reports to cause a felony conviction in efforts to cause my international patent efforts to fail.

CONCLUSION

The Petitioner would show that he has went through great effort and personal sacrifice to strive to develop a new planetary safe method of producing electricity that is cost effective, cheap enough to help the poorest and needy of the world. So much so that I have made efforts to secretly avoid the continuous and relentless criminal acts being committed against me in efforts to thwart my patent research and development. As evidence of how much my life has been altered even unto now consider these facts: My company has been placed as power of attorney in my CEO's name MR. BEN JOHNSON of Hallsville, Texas. The company of Renewable Energy is Springtime Power Company LLC. and is my effort to replace and rename Independent Energy Systems I.E.S. I had to do this because all my social media accounts such as LinkedIn, Wikipedia etc. were being real time altered, hacked and erased. To catch the conspirators check LinkedIn accounts administration because they were very active. Further, my vehicles were registered in other peoples names, such as my Lincoln Aviator and my Harley Davidson and the insurances all in the name of MR. Coby Jones. I worked very secretly to progress the development and patents; so much so that I went into contracted partnership with Australian oil and gas leader and Aaron Energy of Australia MR. Michael McGowan and we have become patent pending in the Australia Patent Office via Patent TEC. This happened virtually right before my "Kangaroo Trial". I say that because I never considered that the interferences, mail frauds, impersonations, forgeries and scams have been non stop since 2019 when I was given my patent pending USPTO Federal documents! That's why nobody knows what the hell I'm talking about. These crooks hacked my accounts, no they hacked my life! Well I am relying on the honor of the Supreme Court to get it back! Because from all the legal filings these powerful criminals have caused me to write no one has ever even considered perjury charges. The police gave perjured testimony provable by video evidence and no court even cares to look. WTF. Perjury at my jury trial and the judges and police are fake and disgraceful in the eyes of God!! LIARS!!

PRAYER

Wherefore, Premises Considered, the Petitioner PRAYS the Supreme Court Find Just Cause Shown herein AND order LAW ENFORCEMENT to INVESTIGATE the CRIMINAL ACTS PROVEN herein, File FELONY PERJURY CHARGES AGAINST the PETITIONER should ANY FACT made in this Petition be Found FALSE or misleading in ANY MANNER AND in doing so GRANT the Relief entitled by LAW if Finding the Petition TRUE AND CORRECT.
