

IN THE SUPREME COURT OF THE UNITED STATES

Walter Lawrence Kenney
Petitioner PRO SE

June 5, 2026

v.
MARK AGBADSI, Warden, et al.,
Respondents

Application No. 25A1227
Case No. 18 CR2932-10: DeKalb County
Ga. Supreme Court: S25H0995
Fed. District Court: 1:22-cv-0854; 1:25-cv-04529

EMERGENCY MOTION TO REQUEST ADDITIONAL EXTENSION

Petitioner was granted one extension of the deadline for 30 days in this case by the Honorable Justice Clarence Thomas on May 8, 2026, which he received on or about May 19, 2026, extending his deadline for filing an Petition for Certiorari up to and including June 17, 2026, and for which he is very grateful. He received notice of that extension on May 19, 2026, by which time he had already succeeded in getting some copies of his Exhibits made.

This extension had been requested due mainly to numerous "lockdowns" of Petitioner and others for no justifiable cause because of the transgressions of others which have been occurring in other locations sometimes far removed. However, Petitioner has now been locked down in a 3 man, triple bunk room now since May 21, 2026 for nothing he or anyone in his immediate vicinity has done, nor could they do anything to prevent. This is a lockdown 24/7 with no breaks for recreation or exercise, with no end in sight, as this dysfunctional administration keeps finding or causing new reasons to extend the lockdown longer. Consequently Petitioner has been since deprived of access to the courts except by arbitrary periodic mail pickups, and access to the law library has been not at all, and the tensions are at an all-time high.

So Petitioner is requesting not only for an additional 30 day extension, but also for an immediate transfer to a better managed location that doesn't just keep adding new busloads of violent gang members every day, and punishing the innocent for the predictable result. Petitioner doesn't know if such help is possible through this avenue, but he is also in fear of his life and well-being if this should be left to continue. He has already been attacked in his sleep once in 2023; which left him blind in one eye for 23 months until he succeeded in getting surgery; from being carelessly housed with a violent gang member, for which he was denied any remedy or recourse for in Fed Dist Ct. because he failed to meet the PLRA's requirement for filing an immediate grievance during the following period of emotional distress which he failed to do after the administration also allowed all his clothes to be stolen while he was at the hospital in Augusta, and he was mainly concerned with getting some more clothes while he was placed in another room w/a violent inmate who was a leader.

Petitioner is not a violent person and finds it strange that the Georgia DOC no longer follows the wisdom of the past from previous Commissioners such as Allen Ault who followed the practice of keeping violent prisoners separate from non-violent while providing as much education and vocational training as possible. So Petitioner is now seeking a new environment where protective custody is available, in addition to one or two man rooms where he has access to work space and law library time to work on his case along with a 30 day extension in addition to what he has now, (up to July 17, 2026). This is the only avenue available to Petitioner thru which to seek emergency relief.

Petitioner firmly believes his case is one that needs to be heard in an Article III court, and that it has the potential to establish important legal precedents, which will be especially important to future and present mixed race couples and indigent defendants, as well as anyone who believes in Constitutional principles and that those who enforce the law should not be allowed to break the law to do so.

He also believes it is wrong to punish one person for the crimes of another and that two wrongs do not make a "right," which is something that this corporate State seems to have forgotten in it's rush to please it's corporate banking cartel shareholders? Petitioner believes that Federal intervention may be needed, all well as required to save lives from an out of control prison system of human slavery that has apparently gone berserk and unaccountable to anybody!

There are people getting stabbed, beaten or killed in this so called Georgia Prison system everyday! And since I have other information to share with Federal authorities about the people who put me here and who are still presumably working for the state, who are also allied with drug cartels and other mob connections, I am asking to be put in touch with the FBI and transferred to someplace like Long State Prison which has protective custody and is also closer to my youngest daughter who is in the Navy and stationed at Jacksonville. If that is not workable, I prefer to go to Al Burrus in Forsyth, which is very close to my oldest daughter who lives in Barnesville with my grandkids.

If I'm unable to get any help in this regard I most likely will not be able to finish my Petition for Certiorari before the present deadline of June 17, as I heard someone say this morning that the Warden was talking about not letting us off lockdown until Friday of next week - but something else beyond our control is just as likely to happen before then, giving another excuse to extend it.

So please, please consider my requests here and at the very least allow me another month extension up to and including July 17, and to please put me in touch with the FBI as these are Federal crimes I'm talking about besides KIDNAPPING and EXTORTION, but also large scale drug trafficking by DFCS case worker who tried to recruit me. I also know about several murders and large scale arsons to facilitate insurance fraud, and I'm ready to help in return for help. Please consider, and respond.

Sincerely,
2. Walter Kenney "Without prejudice, per U.C.C. 308"
