SUPREME COURT OF THE UNITED STATES

Kenneth Leslie Caldwell - PETITIONER,

v.

United States of America - RESPONDENT.

On Petition for a Writ of Certiorari
to the United States Court of Appeals
for the Federal Circuit

PETITION FOR A WRIT OF CERTIORARI

Kenneth Leslie Caldwell

The Joshua House, 1435 N 15th St, Council Bluffs, IA 51501

QUESTIONS PRESENTED

A. If a president/chief signs orders to change things, can this petition be used as a vessel to fix concerns, problems, and situations (identified)?

B. As the 25th Amendment (of the United States Constitution) is supposed to be a guideline for lawmakers/Congress/senate/house of representatives/etc., what must be done if people (acting under color of law) are identified in continued appearances as complicit with allowing of (highly) illegal and gravely unconstitutional activities, and identified as grossly unfit to hold title (of office)?

C. In what outreach of legislation can personnel in a government capacity pick and choose which (highly) illegal activities to allow, without due process?

LIST OF PARTIES

[X] All parties appear in the caption of the case on the cover page.

A list of all parties to the proceeding in the court whose judgment may (possibly) be affected by the outcome of this petition is as follows:

Kenneth Leslie Caldwell,

and,

United States (also professedly identified as 'United States of America').

There is an unknown number of entities/associations/person(s) and such that ostensibly may be affected but are not listed to avoid confusion/delay/complication.

RELATED PROCEEDINGS

All parties appear in the caption of the case on the cover page. Though there are possibilities someone could think of other cases as potentially "related", to avoid confusion I list just these cases as the (directly) related cases relevant.

IN THE SUPREME COURT OF THE UNITED STATES

PETITION FOR WRIT OF CERTIORARI

Petitioner Kenneth Leslie Caldwell petitions for a writ of certiorari to review the judgment(s) of the United States Court of Appeals for the Federal Circuit.

OPINIONS BELOW

It is unknown if the opinion of the United States Court of Appeals for the Federal Circuit is published or unpublished. I did not find documentation (there) that was issued as an “opinion” in name. I challenge/object to judgments and orders, including (but presumably not limited to) one(s) of interest, such as Appendix A, page 1a.

It is unknown if the opinion of the United States Court of Federal Claims is published or unpublished. I did not find documentation (there) that was issued as an “opinion” in name. The Appendix contains orders/judgments.

JURISDICTION

The court of appeals for the federal circuit issued judgment on March 2, 2026, denying rehearing and dismissing the REHEARING EN BANC.¹ This Court has jurisdiction pursuant to 28 United States Code § 1254(1). The appeals court issued judgment denying rehearing on 12/31/2025,² and issued a mandate 3/9/2026.³

CONSTITUTIONAL AND STATUTORY PROVISIONS PROVIDED

Underlined are laws from my Rehearing En Banc in the United States Court of Appeals for the Federal Circuit.

10 United States Codes §§ 251-254 in appearance for most relevant parts states "§ 251. Federal aid for State governments" - "Whenever there is an insurrection"⁷ or "unlawful obstructions, combinations, or assemblages, or rebellion" that make it "impracticable to enforce the laws",⁸ "The President, by using the militia or the armed forces, or both, or by any other means, shall" *take action* "if it—(1) so hinders the execution of the laws of that State, and of the United States within the State, that any part or class of its people is deprived of a right, privilege, immunity, or protection" ... "or impedes the course of justice under those laws". Insurgents(or 'insurrectionists') may "disperse and retire peaceably to their abodes within a limited time."⁹

The Victim and Witness Protection Act in appearance for most relevant parts states: "(2) All too often the victim of a serious crime is forced to suffer physical,¹⁰ psychological,¹¹ or financial hardship first"¹² ... "3) Although the majority of serious crimes falls under the jurisdiction of State and local law enforcement agencies, the Federal Government, and in particular the Attorney General, has an important leadership role to assume in ensuring that victims of crime, whether at the Federal, State, or local level, are given proper treatment" ... From a college website with discrepancies of what is written in mind (same code, 18 U.S.C. § 1512):¹³ "(d) **Whoever intentionally harasses another person and thereby hinders, delays, prevents, or dissuades any person**" ... "or attempts to do so, shall be fined under this title or imprisoned" ... From 18 United States Code § 1513, a part of the Victim and Witness Protection Act in appearance for most relevant parts states:¹⁵ "(e) Whoever knowingly, with the intent to retaliate,

Whistleblower Protection Act (as I was told to file a Whistleblower Form), in appearance for most relevant parts states, from 5 United States Code § 2302, a part of the Whistleblower Protection Act: "(b) Any employee who has authority to take, direct others to take, recommend, or approve any personnel action, *shall not*, with respect to such authority—" ... "(8) take or *fail to take*, or threaten to take or fail to take, a personnel action with respect to any employee or applicant for employment because of" ... "violation of any law, rule, or regulation, or (ii) gross mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety".¹⁷

Mandatory Victims Restitution Act in appearance for most relevant parts states "CRIME VICTIM FUND" - "In addition, the victim may at any time assign the victim's interest in restitution payments to the Crime Victim Fund in the Treasury without in any way impairing the obligation of the defendant to make such payments".¹⁸ "18 U.S. Code § 3663A - Mandatory restitution to victims of certain crimes" ... "(a)" " (2) For the purposes of this section, the term "victim" " "means a person directly and proximately harmed as a result of the commission of an offense for which restitution may be ordered including, in the case of an offense that involves as an element a scheme, conspiracy, or pattern of criminal activity, any person directly harmed by the defendant's criminal conduct in the course of the scheme, conspiracy, or pattern"¹⁹ ... Another notable read (regarding Mandatory Victims Restitution Act) states ' President Reagan said in 1982 that, "The plight of innocent citizens victimized by lawlessness deserves immediate national attention." ... The two primary goals of restitution are to prevent unjust enrichment and to promote rehabilitation '.²¹

STATEMENT OF THE CASE

I. Detestable brazen malicious activities of news companies depicted, involving defamation, go unhinged without punishment, fine, or consequence.²²

It's been observed nefarious people employed by news companies attacked me unprovoked, starting in 2011 in New York State, then 2012 in Idaho state,²³ and in 2016 in Idaho state,²⁴ with continuance of lying stories circulating being distributed across the internet after multiple front page appearances and news interviews.²⁵ I was advised by a law firm to press charges in 2016 about the 2016 lies and executive branches would not do anything.²⁶ I continued to try to press charges and eventually sued in 2018 unsuccessfully, 2019 unsuccessfully, 2021 unsuccessfully, 2022 unsuccessfully (after going through state district and supreme courts), 2023

unsuccessfully (after having Government waive right to respond),²⁷ and in 2024 not successfully yet.²⁸

A lot happened, but that's the summary (about news), with other notable activities being that I passed out information about scot-free news the same year a newspaper there dissolved reportedly with everyone gone but one person at a new news entity,²⁹ I was told to talk to the police chief but I had not and did not know about bad news until later and was never told/offered anything about receiving/restitution money, and, a "caricature" of me was distributed with edited hue/color/contrast/etc.³⁰

II. There is a fundamental problem of no "jurisdiction" for any court,³¹ calling for application of power from the Supreme Court of the United States or any other Court.³²

a. In the (afore mentioned) case of 2021 I demanded "perpetrators representing media companies get busted or be prosecuted",³³ yet it was dismissed with the State arguing for dismissal by "Rule 12(b)(1)" for lack of "jurisdiction".³⁴ The case was dismissed WITH PREJUDICE implying I can't bring suit about it ever again.³⁵ Seeing problems already with judiciary situations, I (in advance) left certain Defendants out for the second round in 2022. The 2022 case in Idaho was dismissed with prejudice,³⁶ for "reasons as stated on the record",³⁷

including “Rule 12(b)(1)” “lack of jurisdiction”.³⁸ I took that to the Supreme Court of Idaho,³⁹ docket # 49782-2022,⁴⁰ Caldwell v Judicial Administration of Idaho, East Idaho News, and Local News 8 with activity possibly also seen as being within “Idaho Court of Appeals” amid switching activity ordered from supreme court to appeals court. Anyway, that case I lost.⁴¹ It was “affirmed”,⁴² for that same thing “jurisdiction”. Soon before that opinion came out for the Supreme Court of Idaho (or appeals court, same docket #), I filed Complaint in the United States Court of Federal Claims anticipating that I’d be treated without dignity.⁴³ That case was dismissed for (lack of) “jurisdiction”.⁴⁴ It went to the United States Court of Appeals for the Federal Circuit and it was affirmed to be dismissed for lack of “jurisdiction”.⁴⁵ I filed a Petition for Writ of Certiorari,⁴⁶ to the Supreme Court of the United States,⁴⁷ Caldwell v USA,⁴⁸ and that case was dismissed,⁴⁹ even though Government waived “right to respond”.⁵⁰ One may also note the word “repugnant”.⁵¹

States) dismissal,⁵² trying to maintain promptness amid tremendous amounts of stress and duress. That Complaint of case 24-2074 in the United States Court of Federal Claims was never defended against by Defendant United States,⁵³ RCFC 12(h).⁵⁴ With that, it seems my complaint is not without merit as Marzulla Law (a prestigious law firm) implied.⁵⁵ I noticed judge Schwartz went back to a routine that may seem to occur often to pro se litigants, which is to refer back to a previous case and dwell on those past decisions.⁵⁶ Though I stated in my undefended Complaint that there was “no lack of” “jurisdiction” (including “subject-matter jurisdiction”),⁵⁷ my case was dismissed,⁵⁸ again for lack of “jurisdiction”.⁵⁹

c. I took it to the United States Court of Appeals for the Federal Circuit, case 25-2014, Caldwell v USA. There, the Defendant replied this time. “The appeal is dismissed”, “*frivolous*”,⁶⁰ I shall bear “costs” as stated in the ‘Order’.⁶¹ Yet how is my case frivolous if two or more barred/knowledgeable people of law both state they cannot help but the decision doesn’t “reflect” “on the merits” along with the fact Defendant United States didn’t defend against my complaint?⁶² My appeal was “dismissed” 12/10/2025.⁶³ I filed documentation initiating rehearing for that case 25-2014 that same day on 12/10/2025 and on 12/31/2025 the petition for

rehearing was denied.⁶⁴ On 1/27/2026 I filed for a Petition for Rehearing En Banc,⁶⁵ but that was dismissed 3/2/2026 without a show of major opinion or discussion in just 2 very brief pages,⁶⁶ before my 2/15/2026 motion to submit brief on the merits was decided upon.⁶⁷ That fact about deciding on my Rehearing En Banc without my brief on the merits and the fact that the Order disposing of my appeal on 12/31/2025 referred to a non-existent case "Caldwell v. United States, No. 2024-1102" (seemingly in error) are two technicalities that might signify a second chance possibly should exist for me and my case, considering my substantial rights at risk. I motioned to Recall the Mandate on 3/2/2026,⁶⁸ and on 3/3/2026 that motion was denied.⁶⁹ On 3/9/2026 a formal "mandate" was issued.⁷⁰

d. As disclosed and proclaimed time and time again, there is no court allowing "jurisdiction". Denying me relief in saying no "jurisdiction", the court in a sense confirms my status as some kind of representative/ambassador/minister/etc. of state I exist in; also if/since there is no jurisdiction, demands of my Complaint are not farfetched,⁷¹ as portrayal of me as a humiliated person/entity with no dignity nor equality when it comes to law continues,⁷² amid details of allowed complicity with crimes horrific in nature.⁷³ At minimum I'd be allowed my 'base' rights over land I own or acquire.⁷⁴

III. (Complicity with) Allowing perceived aggravated sexual abuse identified, such as the extraordinary/astonishing allowing of things perceived in my case, is an illustrated illegality that perceptive courts of a civil society *cannot* enforce without obloquy.

Regarding my complaint of case 24-2074 in the United States Court of Federal Claims that went **undefended**, I like to bring forth the certitude that I stated "because of the importance of stopping the lewd sexual encroachments people of the United States allows/allowed" in it,⁷⁵ which in observance signifies admittance that "United States allows/allowed" "lewd sexual encroachments". Sexual abuse is a bad thing, and a judicial branch applying law should not allow complicit actions/inactions by executive branch allowing it,⁷⁶ especially when there is power vested to the court to do something about it.⁷⁷ The Supreme Court of the United States had power to change things,⁷⁸ yet,⁷⁹ while it still appears maybe people "are complicit with highly illegal activities",⁸⁰ no court wants jurisdiction;⁸¹ the supreme court should in theory be unable to enforce an illegality though,⁸² especially perceived illegalities of allowing rude,⁸³ vile,⁸⁴ and downright evil things undoubtedly seamed to ideologies of sexual abuse.⁸⁵ Cruel oppressions I suffer are oppressions that cause me to be without "dignity" as public ridicule and

humiliation goes (against me) without consequence.⁸⁶ To *enforce* complicity of allowing illegal defamation and complicity of allowing illegal 'sexual abuse' is to enforce something delusive in nature and is damaging to the semblance of judiciary.⁸⁷

IV. With situations affecting my psychology,⁸⁸ I in theory lose massive amounts of income with the wanton/willing "lewd sexual encroachments" "United States allows/allowed",⁸⁹ as news companies appear to continue to defame me, unimpeded.⁹⁰

If I am not worth it to be offered payment, logic suggests news companies should *not* take advantage of my name and character with "preposterous moronic stories going far beyond the established norms" "that falsely claim" I "committed infamous/**felonious** crimes" as my (undefended) Complaint so worded.⁹¹ I was selected Honored Listee for a Biography book and was in theory denied hundreds of thousands of dollars a year if not millions because of activities of 'news' that stripped that status away.⁹² Is not that a claim for relief in and of itself when people are noticeably not holding true to their oaths of office in display of complicit allowing of calculated illegal activities when the allowing of such hypothesized/illustrated illegal activities not only harms me physically and mentally but in theory harms my earning potential?⁹³ I called for (other) ways to earn large sums of money regarding my one-of-a-kind world class skills including athletic showmanship skills such as pushing a firetruck,⁹⁴ crushing walnuts with one

V. This being the Supreme Court of the United States, new procedures or legislation are viable to fix things.

a. As far as I know, many people of the public still might remember me as the man at the center of the “bomb scare” with NBC logo used; audio only may be there now, appearing to intend to show it how I originally might have wanted, with no video.⁹⁷

The court accepted Government’s stance before regarding waiving right to respond in the Supreme Court,⁹⁸ and it seems there should be no difference now when approaching same circumstances yet now I even have more circumstances to have courts favor me; I’d argue someone is wrong if they said I am “frivolous” in my work.⁹⁹ There is a law in fact that states when “court finds that there is a want of jurisdiction, the court shall” ... “transfer such action or appeal to any other” “court”.¹⁰⁰ I want a jurisdiction so I can have my matters settled,¹⁰¹ and there’s an observed need for jurisdiction regarding perceived sexual “encroachments”,¹⁰² exhibits

b. Wrongful oppression still aggravates me without compensation, though it seems like I did many heroic types of things, like the hypothetical flipping of enough lawmakers during/after my trip to DC in October 2025 to (in November 2025) apply enough persuasion to have the Epstein Transparency Act signed.¹⁰⁶ On 1/27/2026 I filed my Rehearing En Banc in case 25-2014 explaining something about “unlawful activity output on a daily basis”,¹⁰⁷ and on 1/30/2026 the second wave of Epstein files was released giving rise to theories that my Rehearing En Banc somehow helped.¹⁰⁸ My Rehearing En Banc gave sagacious “presidential level solutions” yet I am patently treated like I should be overwrought with joy just to still be alive for a possible application to HUD,¹⁰⁹ food stamps, or an Obama phone or something, simply to allow news companies to in appearances without penalty say I pulled a knife,¹¹⁰ had “narcotics”,¹¹¹ “explosives”,¹¹² and was involved with a “bomb scare”,¹¹³ when no court of law has record of such.¹¹⁴ I don’t get restitution or compensation for the news stories. won't,¹¹⁷ and Black Lives Matter hasn't, so even though some places tout (on their site) about helping victims (including homosexuals) it seems they don't care about what's going on about my situation as a heterosexual (even though my situation is seemingly what they are supposedly supposed to advocate for). People have me giving out thousands of dollars in docket fees and other costs over the years, **while I am victim**, discoverer of monopoly, whistleblower, and helper (who did other things considered heroic like comment about pumps to save a soccer team during flood, email a fire chief about commercial ionizers before 90MPH winds, and comment about "ice" to cool waters about hurricane). Amid public reports of (government) (personnel's) worsening physical health, mental health, and cognitive decline,¹²³ usage of nuclear bomb(s) without Congressional approval was reportedly blocked,¹²⁴ by high-ranking U.S. military official(s),¹²⁵ so in essence/theory I helped save the planet from nuclear warfare also, since my Rehearing En Banc I shared called for a stop to "illegal operations by" ... happened with nuke(s).¹²⁶ It seems calls for impeachment (of personnel) grow,¹²⁷ and if my petition for writ of certiorari can be used as a vessel to do it by the “25th Amendment to the United States Constitution”,¹²⁸ okay. Also okay, perhaps it would be, if members of congress create a mentioned body that hasn’t been assigned reportedly available via the 25th Amendment.¹²⁹ If not, another avenue perceivably may be the “10 U.S.C. §§ 251-254” laws I brought up to solve problems, to allow for a saunter into retirement via agreed sign-off/retirement/quitting for reasons to include health/abilities/requests/etc.

Anyway, at this point it seems practical that a country should be able to accept a request for me to grant me dual citizenship rights to include a passport for me that does not have my holographic picture for religious purposes,¹³⁰ so I can in the abstract flee from oppressive situations of stalking and preserve my liberties as a refugee or hopefully/possibly as a title better than that, like an Olympian/talented-performer, some kind of freelance terror-monopoly-hunter/monopoly-hunter, or a diplomat/minister/ambassador/chief in hopes to win something someday and claim what is mine in America land (including rights). If courts/government personnel/politicians want to help me and have that arranged, okay.

c. Many settings seem to complement or accomplish right-affecting confusions. My Brief in Response to the order to show cause that was submitted on 1/13/2025 was not filed until 3/21/2025,¹³¹ for reasonings I cannot recall, and a document of 1/15/2025 was not filed until

3/21/2025 as well.¹³² My MOTION FOR ESTOPPEL BY SILENCE AND FOR EX PARTE JUDGMENT WITH RCFC 52.1(c)(2) AND RCFC 52.1(c)(3) APPLIED submitted 1/15/2025 was put in between those filings.¹³³ A Brief in Response, by the way, possibly could be a pretty significant document, too.

My Motion to include newly substantiated information which seemingly could have been significant was denied. I thought I clearly identified in my Original Complaint that I had “subject matter jurisdiction”,¹³⁴ yet the mere asking for clarification on that (again) seems to validly be an inconsiderate cause for confusion. Perhaps I forgot to mention something in my response to that order to show cause because of established confusion, and perhaps I overlooked the 2/11/2025 due date on the docket possibly mistakenly referring to the 1/3/2025 date as the due date not realizing it was a 2/11/2025 due date thereby causing more confusion amongst situations within judiciary. Also, the afore mentioned 24 - “1102” thing might have affected my case unrighteously; at least it is possible anyway.¹³⁵ In summary it seems confusing things affected my rights to the point I should be given another chance to win (about it). It seems to be an unnecessary burden to me to make me go back and find things when I, in (apparent) respects to court idiom, already presented the work. Also, I was disappointed to not see any opinion or any kind of major time or effort used to write the Order denying my Rehearing En Banc, which is a supposedly a very rare process especially for a Pro Se Litigant like me. Another note is that if AI was used, my Informal Brief of case 25-2014 doesn’t allow a copy paste of a large portion of what is written, so that in all likeliness wouldn’t even visualize to an AI program. I also note

REASONS FOR GRANTING THE PETITION

If my petition is granted:

¹⁴⁷ It was seen that “heterosexual for children” typed on a Google Images search on 4/28/2026 brought up a number of LGBTQ and gay topics, and a blurred “heterosexual porn” Google Images search for this example showed text indicating 2 of the top 5 results would have shown a user wanting to avoid homosexual topics images of homosexuality and lesbianism.

energy and possibly more) to China for allowing base rights for research at any one research base location; a peace treaty idea with Taiwan (in theory) could be negotiated, with the war reparations idea (regarding Iran), paid in energy.¹⁴⁸

I'd be able to maintain "unalienable Rights" which include "Life, Liberty and the pursuit of Happiness",¹⁴⁹ to expand with research 'bases' for good diplomacy representing for the person(s) of different straights,¹⁵⁰ and I'd be able to help educate people with advocacy for television programming bringing monetary incentives to teach viewers during the program and allow them to obtain questions to answer during commercials for better advertising efficiency.¹⁵¹

My petition if/when successfully used as a vessel to accomplish a **Peace Plan about the Iran War/conflict** will in theory have parties agree to mediated terms that: suggest non-aggression toward terrorist groups seems realistic if it is an omnilateral/multilateral agreement since allies of Israel in character won't/can't allow terrorists to attack Israel, agree continuation of Iran's control over the Strait of Hormuz supposedly may work as a negotiated term but supposedly only in the form of war reparations (for example a monthly flat rate, in lifted sanctions/energy/etc.), suggest scientific research to acquire renewable-resource energy from different sources might allow war reparations be issued in the form of energy sold/energy given back from research bases,¹⁵² and agree the need for finding safer sources of energy and for

¹⁵¹ (with Possible Patent rights as well please?)

¹⁵² (For an example: I conjured up a theory about reverse engineering characteristics possible when dealing with mushrooms/mushroom spores (which may seem alien like), and light. I theorize if one were to successfully reverse engineer a light particle (or something related) regarding space/travel alongside something to do with mushrooms/spores, we'd become a dominant species within our solar system for the galaxy and beyond with something I was thinking about involving instantaneous travel to where a light particle was calculated to be way back in the past. Also in a theory, is why an alien might probe, if they do, closer to the stomach for 'cleaner' fuel production regarding mushroom spores. I have other workings in the making such as automatic/synthetic photosynthesis and with that, in theory, astronauts could live longer in space with this theorized system of mine I've tested in minimal amounts; it seemed to work for breathing indoors.) See also: 'scalar waves'. I have ideas for clean (and safer) renewable energy (rather than energy from nuclear activity or fossil fuels).

finding a comprehensive Peace Plan outweigh needs of enriching uranium so a revert back to certain terms from the Obama era might be feasible (with bases in the region, for research purposes (only)).¹⁵³ That legit plan would work for environmentalists of America wanting to help prevent bad things for mankind anyway; with successful applications of such treaties/plans/theories the uranium situation would be mediated with no need for uranium, and the Strait of Hormuz would resume activity with a slight monthly toll for 'reparations' that would incentivize speeded research/production of energy from base(s) (for research/rights/etc.) in the region, to give the payout in energy produced instead money currency.

"We"/USA/America in such scenario would pay a little extra and must/might/may 'research' to stay in the region (with bases), and Iran in theory might have the apology/recognition they reportedly asked for. Even if a research base area was granted further away than speculated, transported energy first going to Allied regions in theory would still have obligation to be directed to/through/toward the region.

A quoted phrase from my petition that Government waived "right to respond" to,¹⁵⁴ is that there seems to be a sense of "terrorism" in "allowing sexual enticements of little children" by the apparent "monopoly" existing I want "credit for discovering".¹⁵⁵ 'Adult Zones' I (in theory) would advocate for (as long as lawful, of course) would fix things with proposed ideas of keeping homosexual pornographic images out of the minds of children and ideas of incentivizing intelligence with Adult Zones allowing rules of legal seed bearing plants for entertainment/research and new 'massage' laws if jurisdiction(s) allow, with granted entries only

¹⁵³ (the word 'research' proposed to possibly include preventative measures for opposing straggler/skirmish terrorist groups).

to elite smart people/journeymen of the community.¹⁵⁶ In principle, marriages would last longer, covert police operations I am sure exist would be able to use funds much more efficiently to protect women (and women issuing tickets who don't pay room tax) to still serve and protect without violating rights, people would be content with more freedom in their rights, government would earn (more) money while (still) employing safety mechanisms (for the people) in a more efficient desired manner, and less men (in theory with statistics) would be driven to murder.¹⁵⁷ Children would have incentives to want to be smart with religious fundamentals as they imagine what it would be like to be in an Adult Zone with a Bachelor Degree or higher or pro-test pass without (seeing) grotesque sexual images that people who lack fundamental religious beliefs allow children to see, thereby making the human race smarter/better/civil (again), at the same time (in such imagined scenario) creating an intrinsic strong defense against oppressive techniques Gay-Mob-Monopoly/Terror-Monopoly/Monopoly activities utilize if/when youngsters (young adults or minors) stick together longer after leaving school generally when they are 18 to 'protect' their women,¹⁵⁸ for example a defense against 'mumbler attacks' where the stalking victim hears different parties mumble the same phrases. Fundamental social life and sexual life activities to humans that these days humans lack thereby may/would be increased to increase livability and quality of life, for example if a widowed mother of 5 in her younger days lacks resources, a room tax system with timed key card could allow meet up (and exchange of contact information) after a number unique visits. Everybody could guard against being

¹⁵⁶ (Bachelor Degree and above for example); imagined to be with perks like gym, post services, free meal and concert tickets, etc. at a low monthly rate.

¹⁵⁸ 2 examples for showing the opposite (in picture) of what theorized Adult Zones would do:

physically/mentally/sexually oppressed(much easier). People would read, write, and work smarter, and clean themselves/others/environments more often.

I'd have money/power for advocating for a defense against a recognized subliminal attack upon democracy that seems to show faulty in the democracy law that allows just anybody who was voted in to be a policy leader, by advocating for a new requisite ability to pass a GED test, an I.Q. test for 85 I.Q. or higher(a low standard), and an SAT test with at least an 80 percentile score, before being deemed equipped with enough intelligence to be a policy leader/politician.

I'd have money/power to advocate for an International Secure Network Treaty (or other name) that imaginably would have participating countries to have disclaimers used that have entities associated with wireless networking state that transactions are not 100 percent trustworthy, that (at full efficiency of law) wireless communications are best for entertainment purposes only, that companies/countries may pledge to try to upload to an offline database (with no wireless hardware attached) at the end of the day (if unable to change methods for daily transactions), thereby in theory helping nations protect valuable information against thievery and against terrorists trying to fool systems that use biometric security features.¹⁵⁹

People in theory would have access to new and efficient marriage counseling, mental health counseling, and physical health counseling.

I'd have enough resources to retire and start a family with authoring ability available if/when beckoned, the things about news companies would have adequate disposition, and people acting under color of law in representation of government could (hypothetically) go home peaceably without fear being charged (in the 'hand over' or 'Operation Quit').

Other countries of the international community would be pleased to help grant me the 'base' rights I deserve as a human being in representation of myself as my own entity that the law system so far seemingly in all appearances forced me to become. I'd be able to have rights and resources for doing research of space/travel and for cleaning the air with commercial ionizers,¹⁶⁰ with America poised (in theory) to benefit from profitable situations.¹⁶¹ My rights (I want) to have dual citizenship (hopefully with a passport that does not have a hologram for religious purposes) and to have rental car money with plenty of gas money so I can avoid stalking would be (more of) a reality.

CONCLUSION

Wrong or right, this documentation really seems to fully define remediation of substantial situations. This Petition for a Writ of Certiorari should be granted.
