IN THE SUPREME COURT OF THE UNITED STATES

PETITION FOR REHEARING

I, Petitioner Kenneth Leslie Caldwell, by Supreme Court Rule 44 Petition for Rehearing.

STATEMENT OF FACTS

People acting under color of law in representation of the United States government lie and accordingly cannot be trusted; there's been countless instances of provable wanton willingness to cooperate with activities of violating law, Constitution, and oaths of office by those people.

Congress and the system of government operated by the United States has failed the country of United States of America, and I know that because people acting under color of law continue to be employed by the United States when they should instead be impeached or fired by Congress for blatant open-court high-crimes/felonies/incompetence/derelections-of-duties.

Ignoramus activities of people acting under color of law for the current United States government are character traits that go all the way up to the role of President of the United States, as the Supreme Court of the United States is literally trying to agree with the United States Court of Appeals for the Federal Circuit that my case 25-2014 was "frivolous", even though (1) Government waived right to respond to my Petition for this 26-5239 case, (2) my Complaint in case 24-2074 of the United States Court of Federal Claims went undefended, and (3) I provide(d) testimony *with evidence* that executive branch(es) and judicial branch(es) unlawfully allow(ed) perpetrators to be scot-free of rape,¹ aggravated sexual assault, aggravated sexual assault upon minors under the age of 14,² malicious defamation/libel/slander by news

¹ Including state(s) court(s); all remedies exhausted.

² Pages 11-16 of Document 6 in my case 25-2014 of the United States Court of Appeals for the Federal Circuit, which shows multiple witness testimonies placing United States President Donald Trump at the scene of the crime involving sexual assault upon minor(s).

companies posing as reputable without any attempt to surrender restitution/compensation,³ aggravated assault(s), attempted murder, and accessory to murder⁴, **without due process**. The Supreme Court knows I filed Whistleblower Complaint(s) about monopoly/monopolies I discovered within the high dollar industry of search engines that gives homosexual advantage over heterosexual by unforgettable/monumental proportions that even direct it toward children to considered degrees of aggravated sexual stalking. There are very many solutions to problems in my petition to be addressed, ones that literally could save the lives of millions of people or more, especially since my solution(s) realistically may prevent nuclear war.

The United States government touts that court “may issue all writs necessary or appropriate in aid of their respective jurisdictions” in the All Writs Act, 28 United States Code § 1651, yet no court of the state(s) nor of the United States has the will/humanity/order to accept ‘jurisdiction’. Regulatory Takings is a Doctrine that grants jurisdiction;⁵ because of news company’s lies against me that have been unlawfully allowed, I’ve been penalized/stripped-of-status that otherwise could earn lots of money (for me) and/or could help me acquire a beautiful wife (a priceless, irreplaceable loss).

REQUESTS AND/OR SOLUTIONS

The money I want is \$1,000,000,000(One Billion Dollars, USD), ostensibly to be charged to USA in tariffs at discretion, should I need to take the route of beckoning to a jurisdiction/nation/state/city for citizenship with a non-holographic-pic-of-myself passport (for religious purposes) via refugee/ Cestui Que Vie Trust Fund/ Olympian/ diplomacy/ human

³ I did not pull a knife on the bartender, I did not have explosives, I did not have narcotics, I did not “bang on the window”, and no court of law has validation of such.

⁴ Christin Caldwell, having the same last name, was murdered 6 months after May 2016 lies in Idaho Falls, ID where murders are not frequent. <https://www.woodfuneralhome.com/obituaries/christin-caldwell>; explained already.

⁵ <https://www.law.cornell.edu/constitution-conan/amendment-5/regulatory-takings-general-doctrine>

rights/ science research/ reputable persons/ inventor Program(s) that may exist, if my petition is not granted.

If necessary I may want to use this documentation to beckon to jurisdictions, countries, states, and/or cities of the world to assist me for 'base rights' to see if a jurisdiction outside of United States wants to grant (1) \$1,000,000,000, (2) rights to consume/serve all-seed bearing plants perhaps to be meticulously defined later by the jurisdiction/state/country/city granting it, (3) rights to enforce penalty against anal rape as punishable by death and willful anal penetration as felony and/or (4) rights to allow oral massage rooms that toll usage fees in conjunction with time regulations/governance, so I may earn currency my enemies seem to not want me to have and/or adopt/utilize/adjust the United States Constitution/other-laws as enforceable law that currently seems to not be enforced by the United States in the country of USA.

SUMMARY

I asked "In what outreach of legislation can personnel in a government capacity pick and choose which (highly) illegal activities to allow, without due process?"; Supreme Court Rule 45 states all process of this Court issues in the name of the President of the United States, yet I identify that that supposed "President of the United States" is one of the people acting under color of law. By Supreme Court Rule 44, I request review to include a determination about "merits".

I hereby declare myself a Chief/ President/ Diplomat/ Ambassador/ Tribe-Leader / King/ Representative-of-Government-or-of-Jurisdiction-of-State-I-exist-in. Supreme Court Rule 43 addresses costs and fees, and given my testimony I should not need to endure more hardship; therefore, I should not be charged Costs or Fees in relation to this case, and the Equal Access to Justice Act / 28 United States Code § 2412 allows for the United States to pay costs/fees; in me

signing this Petition, I allow for the United States to be charged costs/fees in any court/jurisdiction that will recognize it. To me, it seems Supreme Court Rule 46 may allow for settlement, which, if allowed/necessary I allow for the case to be dismissed under terms I receive the exact amount of \$1,000,000,000(One Billion Dollars) of which I give \$500,000,000(Five Hundred Million Dollars) to Donald Trump/United States for Donald Trump's 'ball room' or for other purposes if such terms be agreed upon by the United States. I seek speedy closure.

If this petition is not granted and if the terms of settlement are not agreed upon, I intend/want to use this Petition for Rehearing as the start of a new Declaration, Decree, Declaration of Independence, Country, State, City, Government and/or Jurisdiction, amid activities detailed that may seem to be nothing short of an insurrection of United States government, that is the government that is supposed to uphold the law and Constitution of the United States for the United States of America, for establishment of my own 'rights' and 'laws',⁶ so I may (legally) earn currency with my newly formed rights/laws, within any country/state/city/jurisdiction that will recognize my status/situation.

⁶ Detailed in my undefended Complaint of case 24-2074 of the United States Court of Federal Claims.

CONCLUSION

THIS PETITION SHOULD BE GRANTED.

It is my intention to not state a single lie for the entirety of this document.

I declare under penalty of perjury that the foregoing is true and correct.
