PETITION FOR WRIT OF CERTIORARI

QUESTIONS PRESENTED

1. **The Forgery of the Core Record:** Does the Fourteenth Amendment permit a federal court to uphold a "void judgment" when the face of the record demonstrates that the underlying state conviction was a post-facto forgery authored by state actors to justify an illegal multi-year sequestration?
2. **Judicial Adoption of Falsified Facts:** Is the "fair tribunal" requirement of the Due Process Clause violated when a Chief District Judge knowingly adopts corporate news scripts as "forensic facts" while a Magistrate in a parallel docket admits the event was a non-criminal medical accident?
3. **The Bipolar Federal Record:** Can the Tenth Circuit Court of Appeals constitutionally affirm a dismissal when the federal record is in a state of irreconcilable conflict—simultaneously documenting a "medical fall" in one docket and a "violent homicide" in another to maintain a "death warrant" against a petitioner?
4. **State-Sponsored Assassination via Incitement:** Does the Eighth Amendment's prohibition on Cruel and Unusual Punishment allow state and federal actors to operationalize a "Lethal Script" intended to incite public vigilantism and "extrajudicial execution" of a disabled whistleblower?
5. **Intentional Biological Liquidation:** Does the systematic deprivation of life-saving insulin from a documented "Eggshell Plaintiff," resulting in clinical death and permanent blindness, constitute a violation of 18 U.S.C. § 2340A when used as a tool of state-sponsored racketeering?
6. **The Attorney General's Complicity in Fraud:** What is the constitutional remedy when a State Attorney General's office is alleged to have impersonated court officials to forge plea entries and pre-sentence reports for crimes that never occurred?
7. **Record Spoliation and "Record Starvation":** Does a federal court commit "Judicial Treason" by systematically striking ten consecutive evidentiary filings, including 911 audio and hospital logs, to "blind" the court to the reality of a state-sponsored assassination plot?
8. **Misprision of Multi-Billion Dollar Fraud:** Does the Supreme Court's supervisory authority require an automatic review when lower federal courts function as an "operational shield" for state agencies engaged in \$50 Billion of federal revenue fraud and the "biological liquidation" of the reporting whistleblower?

THE JURISDICTIONAL STATEMENT OF CONFLICT AND INVOCATION OF AUTOMATIC REVIEW

The jurisdiction of this Court is invoked under **28 U.S.C. § 1254(1)**. Petitioner identifies these **18 actions** as a singular nucleus of operative facts. This is not a civil action; it is a challenge to an illegal, multi-year sequestration and state-sponsored torture campaign. The Tenth Circuit and the Colorado Federal Bench have engaged in an **Admission of Guilt** by deferring these cases and striking evidence across these dockets to ensure the 5-month assassination attempt succeeded. The respondents are deliberately causing mass loss of life through fraud. This case involves assassination, genocide, and blatant judicial treason for news and foreign countries plotting to destroy our nation through the Tenth Circuit Court's coverings. By staging mass shootings against the Christian faith, the Attorney General's Office and Federal officials have created a constitutional crisis that brings the lower courts under **automatic and mandatory review** by the Supreme Court of the United States.

THE BIPOLAR FEDERAL RECORD: Petitioner highlights the irreconcilable conflict between **1:24-cv-01127 (Brimmer's Murder Forgery)** and **1:25-cv-00536 (Gurley's Accident Admission)** on the face of the appendix first page. This Court must take judicial notice that the Respondents possess the forensic truth but have chosen physical liquidation to protect the \$50 Billion revenue fraud and the lobbyist land-grab documented across this entire matrix. Because the Tenth Circuit is prepared to supply this Supreme Honor and Court with a **non-existent conviction** based on the "Salamone Forgery," the Petitioner maintains that no valid conviction, formal charges, or warrants exist on the record. The total collapse of the federal judiciary's constitutional mandate in the lower courts necessitates immediate intervention to vacate the void judgment and halt the ongoing solicitation of murder.

STATEMENT OF THE CASE

I. THE BIOLOGICAL BASELINE: WEAPONIZATION OF THE "EGGSHELL PLAINTIFF"

The Petitioner, Edward Herbert Hoid, is a high-functioning autistic savant and a documented "Eggshell Plaintiff" managing a catastrophic and brittle medical profile. This baseline is forensically defined by a forty-year history of undiagnosed and untreated Type 1 Juvenile Diabetes Mellitus, characterized by a GAD65 Autoantibody presence of 18,145 IU/mL. This physiological state renders the Petitioner entirely dependent on exogenous insulin for cognitive function, physical mobility, and the maintenance of basic cellular homeostasis.

A. The 66-Month Precedent of Pretextual Criminalization

The record establishes that the State of Colorado utilized the Petitioner's metabolic emergencies as a mechanism for illegal carceral remand long before the current controversy. The Petitioner was previously sentenced to 66 months of imprisonment for "burglary"—an act that was, in forensic reality, a biological necessity. While in a state of acute Diabetic Ketoacidosis (DKA) and Hyperosmolar Hyperglycemic State (HHS), the Petitioner entered a facility solely to consume water to prevent imminent death from cellular dehydration.

B. State-Sanctioned Medical Torture under 18 U.S.C. § 2340A

During this initial 66-month term, the Colorado Department of Corrections (CDOC) maintained actual knowledge of the Petitioner's physical collapse, including the disintegration of his skeletal structure. Despite a diagnosis of Chronic Avascular Osteo Necrosis (AVN) in 2016, which eventually necessitated total bilateral hip and pelvic reconstruction, state actors withheld insulin. The CDOC and state-subsidized "behavioral health" contractors systematically replaced life-saving endocrinological care with opiate-addiction "therapies" for a condition the Petitioner did not have. This established a multi-decade pattern of using medical deprivation as a tool of state-sponsored torture to force submission and silence a citizen.

II. THE CHRONOLOGY OF THE NOVEMBER 5, 2020 "IMAGINARY HOMICIDE"

The current action arises from a coordinated multi-agency effort to manufacture a homicide narrative out of a series of unrelated medical events on November 5, 2020.

A. The Onset of Total Medical Incapacitation

On November 5, 2020, the Petitioner was in a state of total metabolic collapse (HHS/DKA). After parking his vehicle at a Midas in Longmont, CO, for repairs, the Petitioner attempted to travel to the residence of his then-girlfriend. During this transit, he suffered a total loss of vision and cognitive failure.

B. The Craig Stevens Encounter and the Racial Discrepancy (Discovery 20CR002138)

While the Petitioner was stumbling near the Longmont Museum in a state of disorientation, he was observed by a man named Craig Stevens. Stevens' statements to the Longmont Police Department (LPD) definitively establish the lack of criminal intent:

1. **Exculpatory Findings:** Stevens reported that the Petitioner stole nothing and made zero threats. Stevens subsequently returned a backpack to the Petitioner, noting its weight.
2. **Biological Impossibility:** Stevens initially described the suspect to dispatch as a 5'9" Black male. The Petitioner is a 6'1" White male.
3. **Deliberate Inversion:** The Longmont Police, under the supervision of Deputy Chief Jeff Satur, knowingly suppressed this biological divergence for weeks. They intentionally utilized this racial misidentification to bridge two separate incidents, forcing the White, comatose Petitioner into a criminal profile originally broadcast for a Black suspect.

III. THE FORENSIC REALITY OF THE RANDALL SHUBERT ACCIDENT

While the Petitioner lay face-down and incapacitated in a rugged field nearly a mile away—surrounded by sticks and spiders in a state of comatose disorientation—an independent medical accident occurred on a nearby bike path involving an elderly cyclist, Randall Shubert.

A. The Independent Fall and the Basketball Recovery

Forensic evidence, including 911 audio recordings and the witness observations of Jessica Barklay, establishes that Randall Shubert fell independently while riding his bicycle.

1. **The Cause of the Fall:** Shubert was riding with a basketball bungee-corded to his bike. The ball came loose and bounced past him. Shubert dismounted to retrieve the ball and tripped, striking the back of his head on the concrete path.
2. **The Immediate Post-Fall Activity:** Witness reports confirm that Shubert stood up, was walking under his own power, and was attempting to leave the scene before being crowded by bystanders.
3. **The Lack of Assailant:** 911 callers reported seeing the Petitioner in a different location, stumbling and singing nursery songs in a state of HHS. The record is void of any evidence placing the Petitioner in proximity to Shubert at the time of the fall.

B. Medical Malpractice and the Fatal Delay

Randall Shubert did not die as a result of a beating; he died eleven days later in a hospital due to a single brain swell (subdural hematoma). The Petitioner asserts that the death was caused by:

1. **Refusal of Care:** Police and family delayed a necessary craniotomy.
2. **The DNR Order:** A "Do Not Resuscitate" order was placed long after the initial refusal of surgical intervention.
3. **Institutional Liability:** The state and medical actors prioritized the "murder" narrative over Shubert's clinical stabilization to facilitate the "Lethal Script" against the Petitioner.

IV. FORENSIC FRAUD: THE STAGED INVESTIGATION AND CORPSE MUTILATION

To provide corporate media outlets with a fraudulent defense against future liability, the State of Colorado engaged in a comprehensive "Mutilation of the Record."

A. The Fabrication of the Robbery Narrative

Despite ER reports confirming only a single fall-related injury and the total absence of other trauma, Longmont Police Sgt. Jason Malterud and District Attorney Ryan Day reportedly overseen the forensic mutilation of Shubert's corpse. The body was dissected to give the public the impression of a "deadly beating" where none had occurred.

B. Modification of Property Logs

The Petitioner maintains that the Longmont Police Department intentionally altered property logs and press releases to match the media's fiction. Although witnesses reported a chrome-colored bicycle, police records were changed to allege a "green bicycle with black saddlebags" was stolen, a narrative then fed back to the news networks to justify the Petitioner's illegal sequestration.

V. THE MEDIA-DRIVEN "PUBLIC DEATH WARRANT" AND NATIONAL INCITEMENT

The Petitioner maintains that the State of Colorado, through the Longmont Police Department, operationalized a "Lethal Script" by outsourcing the manufacture of criminal allegations to private vigilantes and corporate media syndicates.

A. The Brian Derry and Jackie Shubert Feed

The Petitioner asserts that the "Homicide Hoax" was authored not by investigators, but by private citizen Brian Derry in coordination with Jackie Shubert.

1. **Supply of Fiction:** Derry habitually supplied "fake stories" to FOX-31 News, including the claim that an "unknown number of assailants" or "military-trained homeless groups" jumped, robbed, and beat Randall Shubert.
2. **Corporate Malice:** FOX-31, and subsequently CBS-4, NBC-9, and ABC-7, broadcast these unverified narratives for 15 consecutive days. These syndicates published the Petitioner's identity and residential information alongside claims that he had "beaten a senior to death for a bike."
3. **Financial Exploitation:** The Petitioner points to the GoFundMe published by the news defendants on November 8, 2020—prior to Shubert's death—which characterized a medical accident as a violent robbery to generate revenue through defamation.

B. The Jeff Satur Press Advisory: Distribution of the Hoax

Acting with actual malice and direct homicidal intent, Defendant Deputy Chief Jeff Satur issued an extrajudicial press advisory to law enforcement agencies and news affiliates in Nebraska, Ohio, Idaho, Utah, and Nevada.

1. **Official Falsification:** Satur disseminated the "Homicide Hoax" authored by FOX-31 as the official basis for a multi-state manhunt.
2. **"Armed and Dangerous" Branding:** Despite the Petitioner never having touched a firearm or engaged in a physical altercation in his life, the State branded him as an "armed and dangerous" fugitive. This designation was a tactical act of incitement, intended to solicit a "Shoot-on-Sight" response from the public and law enforcement.

VI. THE SYSTEMIC "BLOOD LIBEL" AND PERSECUTION OF THE HOID LINEAGE

The Respondents reportedly expanded the assassination plot to target the Petitioner's family members, individuals he had not seen or contacted in over twenty years, to ensure total social and legal isolation.

A. The Manufactured Discovery Accusations

The Longmont Police Department and Stanley Jerido (Division of Parole) reportedly lodged false rape and child-murder accusations into the Petitioner's discovery files.

1. **The Gang Solicitation:** These fabrications were intentionally placed in records destined for maximum-security prison, where gang "shot callers" for the Bloods, Crips, and Sureños perform "paper checks" to identify and murder child molesters.
2. **Sibling Impersonation:** The Petitioner asserts that vigilantes, supplied with pedigree credentials by the State, called police impersonating his sisters (Candyce, Amber, and Chelsea) to report that he was "trying to cut kids' throats." The Petitioner highlights that some of these siblings do not even have children, rendering the accusations a biological and logical impossibility.

B. The Evans, CO Foster Care Operation

Driven by the news broadcasts, Boulder County Sheriff's deputies executed a "cleansing" operation against the Petitioner's mother and sisters' children in Lyons, CO.

1. **Kidnapping under Color of Law:** Four children (ages 2–10) were forcibly removed from the home and separated into different foster care environments.

2. **Institutional Molestation:** During this period, the Petitioner's 10-year-old nephew was molested while in the custody of a Hispanic foster family in a trailer park in Evans, CO. The Petitioner's mother was groped and arrested during the initial raid, with all charges subsequently dismissed, proving the operation was a pretextual act of retaliation.

VII. THE NOVEMBER 27, 2020 ASSASSINATION ATTEMPT AND MECHANICAL STRIKE

The Petitioner maintains that on the night of November 27, 2020, the Longmont Police Department attempted his "extrajudicial execution" under the cover of a disturbance call.

A. The Mechanical Attack at Kerry's Convenience

After being warned by his girlfriend that the news had incited the public to murder him, the Petitioner attempted to surrender. The police pinged his phone and surrounded him near a pedestrian overpass.

1. **The Unmarked Explorer:** While two marked police vehicles racing away, an unmarked vehicle (an Explorer) accelerated directly toward the Petitioner.
2. **Skeletal Destruction:** The vehicle intentionally rammed the Petitioner against a concrete curb line, causing a severe, closed comminuted displaced fracture of his right calcaneus (heel) bone.
3. **Live-Fire Assassination Attempt:** The driver exited the vehicle and fired two live rounds at the Petitioner. A stain and concrete chip (Exhibit 25) remain as forensic evidence of this attempt to liquidate a federal whistleblower.

B. The Sam's Club Alarm Sequence

In a state of total metabolic shock (HHS) and fearing for his life, the Petitioner hobbled to a nearby Sam's Club. He threw stones through the glass doors to trigger the building's alarms, screaming for help to ensure the presence of witnesses and a security guard. The Petitioner asserts that he "broke that glass to save his life" from the police assassination squad.

VIII. INTERROGATION AND SEQUESTRATION WITHOUT CHARGES (2020–2022)

Following his capture, the State of Colorado initiated a two-year period of illegal detention and medical torture that the Petitioner identifies as "Judicial Treason."

A. Interrogation of the Comatose

The Petitioner was subjected to a four-hour interrogation while suffering from HHS and a broken foot. He was unable to recall the "museum" or the "bike path" due to cognitive failure. The Petitioner asserts that the State prosecuted him for "not knowing" the fabricated homicide narrative they were attempting to record.

B. Maximum Security without Warrants

The Petitioner was remanded directly to a maximum-security prison without warrants and without charges for an "imaginary high-profile homicide."

1. **Parole Hearing Admission:** Transcripts from December 28, 2020 (Exhibit 26) prove that Speaker 3 admitted on the record: "The public no formal charges have been... Filed yet because it's still under investigation."
2. **Administrative Purpose:** The Petitioner was held as a "suspect" for two years as a courtesy to the news defendants, ensuring that he could not report the media's offenses or the police's mechanical attack while the State worked to "sanitize" the record.

IX. THE ARCHITECTURE OF THE JUDICIAL FORGERY: THE SALAMONE SCRIPT

The Petitioner maintains that the judicial record in Case No. 2020CR2138 is not an error of procedure, but a "forged, false, and felonious" instrument authored by state actors in active concert with corporate news syndicates.

A. The Fictional Status of the Presiding Official

The Petitioner asserts that Magistrate Nancy W. Salamone was never a presiding judge over a legitimate trial, valid charges, or a constitutionally sound conviction.

1. **Authorship of the Homicide script:** Salamone's involvement was restricted to the authorship of a fraudulent administrative script designed to support the "Homicide Hoax" broadcast by FOX-31 and CBS-4.
2. **Fabrication of Criminal History:** Within this forged record, Salamone entered a narrative of a "homicide investigation" despite the absence of formal charges. She further falsified the Petitioner's biological history, claiming he consumed "5 grams of methamphetamine a day for 30 years"—a lethal impossibility intended to justify the state's policy of medical deprivation.
3. **Lack of Jurisdiction and Event:** The Petitioner maintains that the entire "Identity Theft" conviction is a post-facto fabrication. No plea was ever entered, no warrants existed, and the "events" described in the Salamone record never occurred.

B. The Suppression and Destruction of the McEwen Affidavit

To facilitate this forgery, the State utilized the Petitioner's court-appointed counsel to eliminate forensic proof of his innocence.

1. **Spoliation of Evidence:** Public defenders Nicole Collins and Jessica Hempstead received telephonic and written verification of an affidavit from Robert McEwen, which proved the Petitioner was handed a card while comatose and incapacitated.
2. **Professional Betrayal:** Collins reportedly destroyed this affidavit to preserve the Salamone script. She further conspired with Longmont detectives to "stage" the greenway bike path scene using a map she coerced the Petitioner to draw while he was in a state of Hyperosmolar Hyperglycemic State (HHS).

X. THE HABEAS CORPUS RACKETEERING LOOP: THE AG AND MAGISTRATE GURLEY

The Petitioner asserts that during his federal habeas corpus action (**1:25-cv-00536**), the Colorado Attorney General's Office and the federal bench engaged in an "Admission of Guilt by Deferral."

A. The Knowing Entry of a Non-Existent Conviction

The Colorado AG's office supplied the fraudulent Salamone disposition sheet to the Federal District

Court. The Petitioner maintains that Magistrate Richard Gurley possessed actual knowledge that this conviction was non-existent.

1. **The Forensic Collision:** Magistrate Gurley had analyzed the criminal discovery and was forced to publish the truth: that Randall Shubert "fell" independently and the incident was a "medical accident" (Exhibit 30).
2. **The Felony Act of Judicial Forgery:** Despite his own finding of an "accidental fall," Gurley knowingly adopted the fake Salamone conviction onto the Federal Record. The Petitioner identifies this as a tactical move to facilitate the misprision of the \$50 Billion revenue fraud and provide the state with a "parole weapon" for the Petitioner's future "extrajudicial execution."

XI. THE BIPOLAR FEDERAL RECORD: THE FRAUD ON THE COURT

The Petitioner highlights the "Bipolar" nature of the federal record as forensic proof of a conspiracy to murder a federal whistleblower.

A. Brimmer's Homicide Forgery vs. Gurley's Admission

The federal bench is split between two contradictory records:

1. **Gurley's Admission:** The Habeas record (1:25-cv-00536) admits Shubert crashed his bike and the Petitioner was a "singing" incapacitated bystander.
2. **Brimmer's Forgery:** Simultaneously, in Case No. 24-cv-01127, Chief Judge Phillip Brimmer—acting as a "legal cover" for the AG—forged corporate news scripts into federal orders as "facts." Brimmer asserted that Shubert was "assaulted and robbed," effectively maintaining a "Death Warrant" against the Petitioner in the public domain.
3. **The Motive for Falsification:** This "Bipolar Record" was maintained to ensure the Petitioner remained under an illegal sentence, preventing him from reporting the \$50 Billion theft to the OIG or the FBI before the state could "finalize" his death via insulin deprivation.

XII. TENTH CIRCUIT COMPLICITY AND THE MISPRISION OF TREASON

The Petitioner maintains that the United States Tenth Circuit Court of Appeals is no longer an American court but an operational shield for state-sponsored racketeering.

A. Affirmation of a Void Judgment

The Tenth Circuit Court knowingly affirmed the use of the "fake Salamone record" in Appeal No. 25-1258.

1. **Record Starvation:** The circuit utilized procedural barriers to "starve" the record of the forensic 911 audio and hospital trauma logs that prove the Petitioner's innocence.
2. **Judicial Treason (18 U.S.C. § 2381):** By adopting a non-existent conviction and a forged trial record, the Tenth Circuit participated in the "Biological Liquidation" of a U.S. Citizen. The Petitioner asserts the circuit chose to prioritize the \$50 Billion revenue fraud and news-defense interests over the enforcement of the Fifth and Fourteenth Amendments.

B. The Tenth Circuit Jurisdictional Sanctuary

The Petitioner contends the circuit has established a "Jurisdictional Sanctuary" for state actors currently looting the U.S. Treasury. This sanctuary permits the State of Colorado held the Petitioner under fourth successive sentences all defeated by petitioner, for a non-existent crime, while simultaneously inciting public vigilantism to achieve his "lethal removal" through the publication of the forged homicide scripts.

XIII. THE MEDICAL OBSTRUCTION OF RANDALL SHUBERT AND THE INDUCED FATALITY

The Petitioner maintains that the death of Randall Shubert was not the result of a criminal encounter, but a direct consequence of medical malpractice and administrative interference by the Longmont Police and the Shubert family.

A. The Standard of Care Disparity

As documented in the comparison between Randall Shubert and civilian trauma patient Jessica Barklay, Shubert was denied the standard of care required for a subdural hematoma.

1. **The Delayed Craniotomy:** Despite Shubert's immediate speech impairment and loss of consciousness following his independent fall, state actors and his family reportedly delayed a life-saving craniotomy for several days.
2. **The DNR Order:** The Petitioner asserts that the Shubert family and the police eventually placed a "Do Not Resuscitate" order long after the window for surgical intervention had been closed by their own negligence.
3. **Motive for Death:** The Petitioner maintains that Shubert was allowed to die in the hospital eleven days after the fall to provide the "murder" narrative required by the news defendants and to facilitate the collection of life insurance or GoFundMe proceeds.

XIV. THE GOFUNDME WIRE FRAUD AND COORDINATED MEDIA DEFAMATION

The Petitioner identifies a systemic pattern of wire fraud involving the Shubert family, Brian Derry, and corporate news outlets.

A. The Manufacture of the Robbery Narrative

On November 8, 2020—while Randall Shubert was still alive and the hospital record showed only a single fall-related brain swell—the news defendants (FOX-31, CBS, NBC, ABC) published a GoFundMe page.

1. **Fabricated Allegations:** The publication claimed Shubert was "jumped, robbed, and beaten" by the Petitioner. The Petitioner asserts this is an act of wire fraud intended to generate revenue from a medical accident.
2. **Derry's Role as a Proxy:** Brian Derry, acting as the primary source for FOX News, reportedly supplied these "fake stories" to incite public outrage. The Petitioner maintains that Derry is not law enforcement and had no factual basis for these accusations.

3. **Refusal to Rectify:** Even after the autopsy confirmed the lack of assault wounds, the news defendants continued to host these narratives, using them as a motivational engine for public vigilantism.

XV. THE ESCALATION OF PUBLIC VIOLENCE AND ASSASSINATION ATTEMPTS

The Petitioner asserts that the news broadcasts functioned as an official mandate for his extrajudicial execution.

A. Unprovoked Civilian Attacks

As a direct result of being branded a "beater of seniors" and a murderer on air, the public immediately engaged in violent strikes against the Petitioner.

1. **Vehicular Assaults:** The Petitioner was repeatedly run over by civilian vehicles in Longmont, CO.
2. **Live-Fire Incidents:** The Petitioner reports being shot at twice by members of the public who were incited by the FOX-31 and Denver Post publications.
3. **The Condition of the Victim:** During these attacks, the Petitioner was a "cripple" in a state of unmedicated HHS, unable to defend himself or understand why the public was attempting to murder him.

XVI. THE FORENSIC MUTILATION AND THE STAGED AUTOPSY

The Petitioner maintains that the Boulder County Coroner's Office and District Attorney Ryan Day engaged in the physical "mutilation" of Shubert's body to manufacture a criminal defense for the media.

A. The Staged Investigation

The news defendants identified Shubert by name on November 8, yet on November 16, they reported his identity would "only be released after an autopsy."

1. **The Investigative Prop:** The Petitioner asserts that the autopsy was not a forensic necessity, as the cause of death (the fall-related brain swell) was already known.
2. **Dicing the Decedent:** The body was reportedly "diced to pieces" and dissected to give the appearance of assessing a deadly beating. This was a tactical maneuver to generate "forged evidence" that the news could later use to claim they were reporting on an active criminal investigation.

XVII. THE SEAMLESS CONTINUITY OF STATE-SPONSORED PERSECUTION

The Petitioner highlights his academic and professional achievements as a direct counter-narrative to the "meth junkie" profile manufactured by Judge Salamone.

A. The Scientist Baseline

Despite the state's claims, the Petitioner has a history as a high-achieving student in Chemical Engineering and was working building multi-million dollar log homes at the time of the Shubert fall.

1. **Involuntary Intoxication:** The Petitioner maintains that his "peculiar" behavior was a symptom of 12-gallon water consumption necessitated by DKA, not illicit drugs.
2. **The 7-Eleven Timeline:** The Petitioner was observed at 7-Eleven singing nursery songs while incapacitated. He was handed a card by Robert McEwen and instructed by his ex-girlfriend to use it at Walmart. The Petitioner maintains he had no criminal intent and no knowledge of Randall Shubert's existence.

XVIII. THE DESTRUCTION OF THE FAMILY UNIT AS A "CLEANSING" OPERATION

The Petitioner asserts that the Respondents used the "Homicide Hoax" to justify the total removal of his lineage from the region.

1. **The Foster Care Molestation:** Due to the news broadcasts, the state seized four children from the Petitioner's mother's home. The 10-year-old nephew was subsequently molested in a foster home trailer in Evans, CO.

2. **The Motive of Terror:** This operation was intended to ensure the Petitioner remained "physically muted" in maximum security while the state completed the theft of his property and his parents' dream retirement home.

XIX. THE WEAPONIZATION OF THE FEDERAL BENCH: GURLEY, CHUNG, AND BRIMMER AS CO-CONSPIRATORS

The Petitioner maintains that the United States District Court for the District of Colorado and the Tenth Circuit Court of Appeals have abandoned their constitutional mandates to function as the operational shield for the Colorado Attorney General's Office.

A. The Knowing Entry of the Non-Existent Conviction

The Petitioner asserts that Magistrate Richard Gurley and the Tenth Circuit Court of Appeals acted with *scienter* (actual knowledge) to falsify the Federal Record.

1. **Forensic Knowledge:** Magistrate Gurley, having analyzed the 911 forensic logs and criminal discovery, admitted on the record that Randall Shubert "fell" and that the incident was a medical accident.
2. **The Felonious Entry:** Despite this knowledge, the Petitioner maintains that Gurley knowingly entered a "fake, non-existent conviction" onto the federal record. This record was supplied by the Colorado AG's office to provide a post-facto legal justification for the Petitioner's illegal two-year sequestration.
3. **Appellate Complicity:** The Petitioner asserts that the Tenth Circuit Court of Appeals adopted this non-existent conviction verbatim, utilizing it to dismiss the Petitioner's civil rights actions and ensure he remained under a "void judgment."

B. The Brimmer and Chung Conspiracy to Maintain Public Incitement

The Petitioner alleges that Chief Judge Phillip Brimmer and Magistrate Cyrus Chung conspired with the news defendants and their counsel (Ballard Spahr) to ensure the success of the assassination plot.

1. **Adoption of News Scripts:** Judge Brimmer reportedly forged corporate news scripts into federal orders as "facts," continuing to brand the Petitioner as an assailant long after the forensic evidence of a fall was preserved.
2. **Mutilation of the Federal Record:** Magistrate Cyrus Chung is accused of "Record Starvation," systematically striking ten consecutive evidentiary filings—including forensic medical logs—to "blind" any future federal jury to the reality of the Petitioner's medical torture.
3. **Alienation from Society:** This judicial conduct was designed to keep the Petitioner "socially executed," maintaining the public incitement and vigilantism that led to the Petitioner being shot and rammed by police vehicles.

XX. THE WEAPONIZATION OF THE DIVISION OF PAROLE AS A LETHAL RESTRAINT

The Petitioner identifies the Colorado Division of Parole as the primary weapon used by the AG's office to execute the "Lethal Script" against a U.S. Citizen.

A. The Restraint of Medical Charts and Insulin

The Petitioner maintains that the federal bench utilized its authority to keep his medical charts and life-saving medicine (insulin) restrained.

1. **Cover for Torture:** By upholding a void conviction, the federal bench provided "legal cover" for the CDOC to continue the medical deprivation of a Type 1 Diabetic.
2. **Biological Sabotage:** The Petitioner asserts that this was an intentional act to cause his physical frame to collapse, ensuring he would either die in custody or remain too incapacitated to prosecute the \$50 Billion revenue fraud.

B. Successive Illegal Sentences

The Petitioner maintains that he has no valid conviction, no formal charges, and no warrants on record.

1. **The Fourth Successive Sentence:** The State reportedly uses the Division of Parole to enforce a "fourth successive sentence" for a medical accident (the Shubert fall) that never involved a criminal act.

2. **Operational Intent:** This weaponized restraint is intended to keep the Petitioner in the "Kill Zone," where state actors can continue to coordinate with vigilantes while claiming the Petitioner is a "dangerous fugitive" under parole supervision.

XXI. THE NECESSITY OF SUPREME COURT INTERVENTION

The record in Case No. 25-1258 forensically documents a state-sponsored assassination plot facilitated by a corrupt federal bench. The Petitioner, an autistic savant excelling under conditions of torture, is the sole lawful actor remaining in this docket.

THE CONSTITUTION IS DEAD IN THE TENTH CIRCUIT IF THE FEDERAL BENCH CAN KNOWINGLY FORGE A HOMICIDE SCRIPT TO JUSTIFY THE EXECUTION OF A WHISTLEBLOWER. This Court is the last line of defense against the "Biological Liquidation" of American Citizens by state and corporate actors.

SUMMARY STATEMENT

The Petitioner maintains that on November 5, 2020, he was in a state of total medical incapacitation due to untreated Type 1 Juvenile Diabetes. While the Petitioner lay face-down and dying in a field nearly a mile away, a 71-year-old man fell independently from his bicycle. The Petitioner asserts that the State of Colorado, in collusion with corporate media, utilized this medical accident to operationalize a "Lethal Script" designed to execute a disabled U.S. Citizen and Christian whistleblower through the weaponization of false narratives.

The record forensically establishes that the Petitioner was held for over two years in maximum-security prison without formal charges, without warrants, and without any legal cause. During this sequestration, the Petitioner was subjected to systematic medical torture via the deprivation of insulin, resulting in his clinical death and subsequent revival, alongside permanent physical destruction and blindness.

Simultaneously, the Petitioner's family and minor children were hunted across five states by vigilantes and state actors incited by the news broadcasts, leading to the abduction and molestation of his 10-year-old nephew. The Petitioner maintains that these actions were facilitated by a corrupt federal bench—specifically Judges Gurley, Chung, and Brimmer—who knowingly adopted a "fake, non-existent conviction" onto the federal record to protect a \$50 Billion revenue fraud operation for foreign interests.

The Petitioner alerts this Court that the **Master Appendix** is critical for an immediate review. He asserts that the evidence of corpse mutilation, record spoliation, and judicial treason documented therein is vital to stopping what he identifies as a state-sponsored campaign to destroy the constitutional fabric of America and eliminate the high-achieving, traditional citizenry and their children.

XXII. THE ROGUE TERRORIST FEDERAL BENCH, SANCTUARY DISPARITIES, AND THE ABRÉGO GARCÍA COMPARISON (CASE NOS. 26-1111, 1:26-CV-01358, AND 25-1258)

The identical federal actors who forged and entered the fake conviction onto the federal record—specifically Magistrate Richard Gurley, Chief Judge Phillip Brimmer, Judge Chung, and the Tenth Circuit panel—acted in direct, premeditated concert with the Colorado Attorney General's Office, parole boards, and defense attorneys. This orchestration proves beyond any doubt that the federal bench operates as a rogue, corrupt, and terrorist apparatus. The Petitioner was unlawfully held without charges for an imaginary high-profile homicide and subjected to systematic torture, while individuals like Abrégo García were granted immediate relief and release from deportation under parallel habeas actions. This stark disparity reveals that the federal bench actively maintains selective, protected sanctuary conditions to shelter state criminality while weaponizing a lethal death warrant against the Petitioner.

A. Staged Removal and the Misprision of Terrorism

The federal bench and the Tenth Circuit deliberately falsified the federal record during habeas corpus proceedings to stage the Petitioner's later removal and to commit misprision of their own domestic terrorism. This was executed by reason of faith, culture, race, and an overarching treasonous plot to subvert constitutional governance and undermine the United States from within.

B. Admission of Guilt and Systemic Impotence

The complete legal and factual collapse of the federal record serves as an absolute admission of guilt. The impotence of their fabricated narratives, when contrasted with actual forensic reality and the preferential relief granted to others such as Abrégo García, exposes the entire habeas mechanism (Case Nos. 1:25-cv-00536, 24-cv-01127, and Appeal No. 25-1258) as a sham enterprise engineered to cover up unlawful imprisonment, physical torture, and state-sponsored racketeering.

XXIII. THE ARCHITECTURAL NEXUS BETWEEN UPLOAD 26-1111 AND THE CASE NO. 1:26-CV-01358 OBJECTIONS TO MAGISTRATE GURLEY

A. The Fabrication of Record as Premeditated State Action

Magistrate Richard Gurley, Chief Judge Phillip Brimmer, Judge Chung, and the Tenth Circuit panel deliberately engineered, accepted, and upheld fraudulent state conviction records during federal habeas corpus proceedings (Case Nos. 1:25-cv-00536 and Appeal No. 25-1258) for the explicit purpose of establishing a legal framework for retaliation, silencing, and forced removal.

B. The Orchestration of Staged Terror and Church Attacks

As detailed in both upload 26-1111 and the Case No. 1:26-cv-01358 objections, the fraudulent record upheld by Gurley directly caused and sheltered subsequent localized terror operations—specifically including the staging of mass shooting threats and coordinated attacks directed at the Petitioner's place of worship, executed as instruments of psychological torture and intimidation.

C. The Treasonous Subversion and Sanctuary Disparity

The comparison between the Petitioner's unlawful incarceration without charges for an imaginary homicide and the immediate deportation relief granted to individuals such as Abrégo García under parallel habeas actions exposes an active, treasonous conspiracy by federal actors and the Colorado

Attorney General's Office to subvert constitutional protections, misprison domestic terrorism, and undermine the United States.

XXIV. THE COMPREHENSIVE NUCLEUS OF OPERATIVE FACTS AND CONCERTED RETALIATION (CASE NO. 26-1111)

1. The Jurisdictional Anchor and the "Eggshell Plaintiff" Baseline

- The Petitioner, Edward Herbert Hoid, is a high-functioning autistic savant and a documented "Eggshell Plaintiff" managing brittle Type 1 Juvenile Diabetes (with a GAD65 Autoantibody level of 18,145 IU/mL), advanced bilateral avascular necrosis (AVN), and seven documented skull fractures.
- The record forensically establishes that the respondents—orchestrated by the Colorado Attorney General's Office—operationalized a 5-month assassination attempt between January and August 2026 to physically liquidate a federal whistleblower who uncovered over \$50 Billion in federal revenue fraud.
- Three federal judges—Phillip Brimmer, Richard Gurley, and Cyrus Chung—utilized their judicial benches to strike exculpatory evidence and provide legal cover for state-sponsored terrorism.

2. The "Lethal Script" and the Broadcast of Forged Rape Narratives

- The respondents executed a systemic state-wide broadcast of forged rape narratives, explicitly branding the Petitioner and his specific LDS church ward as child rapists across every administrative and public platform—including the DVR, CDLE, ICAO, FRCC, all Colorado community colleges, law enforcement, the traffic court record, and Facebook.

- This campaign was designed to solicit the public to execute a mass shooting at the Petitioner's exact ward, mirroring the Michigan chapel massacre.
- The respondents possessed direct knowledge of the Petitioner's clinical and physiological impotence for over a decade (documented in Federal Dual SNP clinical records), proving the narrative was authored not for court, but as a public death warrant.

3. The Inter-Agency Distribution and Vocational Sabotage Network

- **DVR and FRCC:** Respondent Amber Chesley (DVR) and Front Range Community College administration published the forged script across Colorado community colleges, establishing an academic blockade and weaponizing his medical tremors as campus safety "threats".
- **CDLE and ICAO:** Respondents Phil Spesshardt and Jason Barela indexed the forgery into state labor databases as the "official cause of separation," triggering "Moron Math" portal fraud to truncate his medical funding and maximum benefit amount from \$8,600 to \$143.
- **Law Enforcement & Traffic Court:** The Loveland and Greeley Police Departments, Larimer County Sheriff's Department, and Magistrate Ethan Doak entered the narrative onto permanent traffic records and police dockets to incite vigilantism.

4. The National Threat Center (NTC) Lethal Inversion

- Petitioner contacted the FBI National Threat Center (NTC) as a federal whistleblower to report the inter-agency looting of the U.S. Treasury, church mass casualty staging, and biological attacks.
- Respondent Greeley Police Department (Chief Adam Turk, agents Goddard, Starr, Blair, and Keller-Twigg) inverted this report by asking Petitioner if he was planning a mass shooting at his own church, and subsequently reported to the NTC that a bedridden, skull-fractured Petitioner was a "High-Risk Threat" to bait a federal "Lethal Removal" tactical strike.

5. The State-Wide 911 Non-Response Protocol ("Kill Zone")

- The state ordered a total 911 non-response protocol instructing dispatchers to hang up on the Petitioner, his family, and his church bishop even during active attempted murder or

pharmaceutical sabotage, establishing a lawless "Kill Zone" with no municipal dispatch records.

6. The \$50 Billion Revenue Fraud and Lobbyist Land-Grab

- The assassination attempt was driven by the Petitioner's unmasking of an intricate RICO enterprise where over \$50 Billion in federal block grants (Medicaid, SSA, HUD, SNAP, Dept. of Education) were diverted to fund ideological social engineering, sanctuary practices, and lobbyist-driven real estate acquisitions like "Lavender Hill".
- The state implemented a policy of "Demographic Truncation," denying basic survival items and insulin to traditional White Christian American disabled persons while subsidizing preferred demographics.

7. The Bipolar Federal Record and Judicial Treason (Case Nos. 25-1258, 26-1111, and 1:26-CV-01358)

- Chief Judge Phillip Brimmer committed judicial felony forgery by adopting corporate news scripts as "facts" in Case No. 1:24-cv-01127, while Magistrate Richard Gurley admitted in habeas action 1:25-cv-00536 that the civilian actually "fell" as a medical accident.
- Magistrate Cyrus Chung struck ten consecutive evidentiary filings (including the Lackowski Declaration and 911 audio logs) to blind federal juries to courtroom biological warfare.
- The Tenth Circuit and District Court benches have functioned as an operational shield for this racketeering enterprise, maintaining a "Jurisdictional Sanctuary" and committing judicial treason (18 U.S.C. § 2381) by refusing to restore the unspoliated record.

REASONS FOR GRANTING THE WRIT

I. THE TENTH CIRCUIT IS PREPARED TO SUPPLY THIS SUPREME COURT WITH A NON-EXISTENT CONVICTION.

The record in this matter is not merely erroneous; it is a post-facto fabrication. The Petitioner never entered a plea, was never served with valid warrants, and was never the subject of a legitimate criminal tribunal for the events of November 5, 2020. The Tenth Circuit Court of Appeals has knowingly adopted a "Salamone Script"—a forged disposition sheet—to provide legal cover for a multi-year sequestration. This Court must intervene to prevent the highest court in the land from being used as a repository for state-sponsored forgeries.

II. THE BIPOLAR FEDERAL RECORD PROVES JUDICIAL COMPLICITY IN AN ASSASSINATION PLOT.

The federal record is in a state of irreconcilable, "bipolar" conflict that defies the Due Process Clause. In Case No. 24-cv-01127, Chief Judge Phillip Brimmer entered orders adopting corporate news fiction as "forensic fact," branding the Petitioner a murderer. Simultaneously, in Case No. 1:25-cv-00536, Magistrate Richard Gurley admitted the truth: that the decedent fell independently and the event was a medical accident. This contradiction is not a procedural oversight; it is a tactical "Kill Zone" maintained by the federal bench to ensure the Petitioner's "biological liquidation" through insulin deprivation.

III. THIS IS A HABEAS CORPUS ACTION ARISING FROM STATE-SPONSORED TERRORISM, NOT A CIVIL MATTER.

The lower courts have attempted to recharacterize this action to shield the Respondents from the consequences of 18 U.S.C. § 2340A (Torture) and 18 U.S.C. § 2381 (Treason). The Petitioner was held for years in maximum security without charges to misprison news incitement. The public is now suffering the consequences of this cycle, as the Respondents have expanded their operations to include the sabotage of hospital networks and the solicitation of mass shootings at the Petitioner's place of worship to provide cover for judicial offenses.

IV. THE RESPONDENTS HAVE SOLICITED THE ABDUCTION AND REMOVAL OF THE PETITIONER'S DAUGHTER.

In the most brutal escalation of this racketeering enterprise, the Respondents have solicited the abduction and removal of the Petitioner's minor daughter from the State of Utah, likely transporting her outside of the country. This coordinated kidnapping was executed to ensure the Petitioner remained "physically muted" and to prevent the discovery of the underlying \$50 Billion revenue fraud. The use of a child as a tactical pawn in a state-sponsored assassination plot requires the immediate exercise of this Court's supervisory authority

CONCLUSION

The record before this Court documents the total subversion of the American legal system. The Petitioner—a documented "Eggshell Plaintiff"—has survived clinical death, permanent blindness, and systematic skeletal destruction at the hands of state and federal actors who prioritized corporate news revenue over the Constitution.

The Tenth Circuit and the Colorado Federal Bench have abandoned their roles as neutral arbiters to function as an operational shield for a \$50 Billion racketeering enterprise. They have watched in silence as the Petitioner was shot, rammed by vehicles, and deprived of life-saving medicine. They now stand ready to present this Court with a fraudulent conviction to finalize a six-year assassination plot.

If the "Salamone Forgery" is allowed to stand, and if the state is permitted to vanish children and stage mass shootings to silence whistleblowers, then the Constitution is not merely under threat—it is dead. The Petitioner respectfully prays that this Writ of Certiorari be granted, the void judgment vacated, and the conspirators held to account before the law.
