

NO. USAID No. 26-1111

IN THE
SUPREME COURT OF THE UNITED STATES

Edward Herbert Hoid — PETITIONER

vs.

Phillip A. Brimmer et al--- RESPONDENT(S)

(See List of Parties)

**SECOND REVISED MOTION TO DIRECT THE CLERK TO FILE AN OUT-
OF-TIME PETITION FOR WRIT OF CERTIORARI**

Pursuant to Rules 13.1 and 21 of the Rules of this Court, Petitioner Edward Herbert Hoid respectfully moves for an Order directing the Clerk to file this Petition for Writ of Certiorari out-of-time. The delay of several days in the postmark was the intended operational outcome of a **90-day over-active assassination attempt, the kidnapping of Petitioner's daughter, and the staging of mass casualty events**—a coordinated state-sponsored effort to silence a federal whistleblower through physical and neurological liquidation. The petition was prepared timely, however the numerous respondents did destroy one home at that exact time during recent and active assassination attempts against petitioner and was still post marked a few days, 5 out of time. The petitioner has changed three carriers and homes in 90 days.

I. THE BIOLOGICAL WARFARE THRESHOLD: FOUR RESUSCITATIVE EVENTS IN 90 DAYS

The Petitioner is a high-functioning autistic savant managing a brittle Type 1 Diabetic baseline (GAD65: **18,145 IU/mL**). During the critical 90-day filing window, the Respondents utilized the state's medical and carceral infrastructure to execute a cycle of **Pharmaceutical Sabotage**.

1. **Forced Metabolic Collapse:** State actors, in concert with Banner Health and UCHHealth, intercepted Petitioner's pharmacy parameters and seized his life-sustaining insulin. This resulted in **four emergency hospitalizations** where Petitioner's blood glucose exceeded **1000 mg/dL** (App. 227). These events were

not medical accidents; they were state-ordered strikes designed to induce comatose collapse and ensure Petitioner was clinically incapacitated during the deadline.

2. **Permanent Neurological Mutilation:** The cumulative effect of these DKA events, coupled with seven untreated skull fractures, has resulted in **permanent brain trauma**. Despite this, Petitioner used his savant capacities to author twelve (12) concurrent petitions while bedridden and blind, a task made physically impossible by the Respondents' ongoing attempts to murder him in the ER (App. 245, 609).

II. ACADEMIC EXTRACTION VS. THE LETHAL SCRIPT

As evidenced by **Motion Exhibit C** (CSU Online Registration), Petitioner maintained a high-level academic standing in **Calculus for Physical Scientists** and **Chemistry** even while being hunted. To counter this evidence of competence, Respondents Ken Lee and Colleen Simpson broadcasted a verifiably forged "rape narrative" to every regional college. This "Lethal Script" was designed to trigger an "**Academic Erasure**," stripping Petitioner of the Ticket to Work and Department of Education funding required to maintain his life-support equipment (App. 131, 495).

III. THE ADMINISTRATIVE HOSTAGE CRISIS: KIDNAPPING TO MISPRISION FRAUD

The most sadistic component of the obstruction was the **kidnapping and international transport of Petitioner's daughter to Argentina** (App. 93, 118). This abduction was executed by state actors to facilitate a **misprision of the \$50 Billion Federal Revenue Fraud** unearthed by the Petitioner. The Respondents correctly calculated that the psychological torture of a missing daughter, combined with the theft of his Social Security benefits via "Moron Math" portal fraud, would serve as a terminal barrier to Petitioner's ability to meet the Court's jurisdictional timeline.

IV. STAGING MASS CASUALTIES AGAINST THE LDS FAITH

Respondents systematically broadcasted forged narratives to **solicit an armed mass shooting at Petitioner's exact LDS church ward**, explicitly mirroring the **October 2025 Michigan massacre** (App. 101). By marking a religious sanctuary as a "Kill Zone" and ordering a **Total 911 Non-Response Protocol** (App. 139, 214), the Respondents created an environment of total extrajudicial lawlessness. The Petitioner was forced to spend the final 72 hours of the filing window re-securing his home, food, and the safety of his church from incited vigilantes.

V. CONCLUSION: THE DELAY AS FORENSIC PROOF OF GUILT

Petitioner is currently in critical condition. The delay of three to seven days is the **signature of the Respondents' success in using Attempted Murder as a Jurisdictional Shield**. If this Court does not direct the Clerk to file this petition, it will provide a constitutional "Sanctuary" for the dozens of federal and state actors involved in this racketeering enterprise.

Respectfully submitted this 15th day of August, 2026.

/S/ Edward Herbert Hoid

RE: Hoid v. Gurley
USA10 No. 26-1111

Dear Mr. Hoid:

The above-entitled petition for a writ of certiorari was postmarked July 28, 2026 and received August 3, 2026. The papers are returned for the following reason(s):

The petition is out-of-time. The date of the lower court judgment or order denying a timely petition for rehearing was April 22, 2026. Therefore, the petition was due on or before July 21, 2026. Rules 13.1, 29.2 and 30.1. When the time to file a petition for a writ of certiorari in a civil case (habeas action included) has expired, the Court no longer has the power to review the petition.

The rules of the Court make no provision for filing a request for immediate life-safety injunctive relief. Please remove the request from the motion for leave to file an out of time petition.

No motion for leave to proceed in forma pauperis, signed by the petitioner or by counsel, is attached. Rules 33.2 and 39. The motion must be signed.

No notarized affidavit or declaration of indigency is attached. Rule 39. You may use the enclosed form.

The petition fails to comply with the content requirements of Rule 14, in that the petition does not contain:

A list of all parties to the proceeding in the court whose judgment is sought to be reviewed, along with their stock ticker symbols, if any. Rule 14.1(b).

A concise statement of the grounds on which jurisdiction is invoked. Rule 14.1(e). The date of the order sought to be reviewed must be accurate.

The cover of the petition incorrectly list respondent Richard Gurley. Please correct the list of parties on the cover to match the order from the United States Court of Appeals from the Tenth Circuit case no(s). 26-1110 and 26-1111.

A petition for writ of certiorari and a writ of mandamus cannot be combined. If the petitioner would like to file both petitions, they must be submitted separately. The writ of mandamus must comply with Rule 20.

Please resubmit the required documents along with the motion to direct the Clerk to file an out of time petition as soon as possible.

Sincerely,

Scott S. Harris, Clerk
