ON PETITION FOR A WRIT OF CERTIORARI TO

The United States Tenth Circuit Court

PETITION FOR WRIT OF CERTIORARI

Edward Herbert Hoid
1030 31ST Ave Greeley, CO 80634

QUESTIONS PRESENTED

1. Whether the Tenth Circuit Court of Appeals, by authorizing Colorado state laws to supersede the Fifth and Fourteenth Amendments, has established a "Jurisdictional Sanctuary" that permits the spillover of state-sponsored religious persecution and extrajudicial violence into surrounding states, as evidenced by the assassination of civic figures and the staging of mass casualty events against the LDS faith.
2. Whether it constitutes a violation of the **First and Fourteenth Amendment "Neutrality"** requirement for the Tenth Circuit to issue mandates forcing Christian preschools to admit LGBTQ toddlers and ratify their parents' ideological practices, while simultaneously refusing to enforce mandatory constitutional protections for Christian children and LDS wards in the face of documented death threats and incitement to mass shootings (**Case 1:25-cv-02228**).
3. Whether the knowing entry of contradictory findings of fact by federal judges—specifically **Chief Judge Phillip Brimmer** forging corporate news scripts as "facts" while **Magistrate Richard Gurley** admits the forensic reality of a medical accident—constitutes an unconstitutional "Fraud on the Court" that terminally invalidates any resulting judgment of dismissal.
4. Whether the Tenth Circuit departs from the accepted course of judicial proceedings by affirming the disparate treatment of Habeas Corpus actions, whereby foreign adversarial demographics (e.g., **Abrego Garcia**) are granted stays of deportation and legal standing, while a White Christian "Eggshell" citizen is subjected to three years of unconstitutional sequestration and medical torture to facilitate the theft of his property.
5. Whether the systematic removal of a sitting United States President from a state ballot, when coupled with the administrative "vanishing" of a federal whistleblower's minor child, establishes a pattern of **Election and Jurisdictional Interference** designed to secure a permanent liberal concentration through the disenfranchisement of the traditional American electorate.

6. Whether the United States legal system is terminally compromised by the infiltration of foreign-funded lobbyists and credentialed legal actors who utilize American law schools and the federal bench to operationalize a "Lethal Script" for the explicit purpose of destroying the constitutional fabric and fiscal solvency of the country.
7. What mandatory remedies are available to the American People under **18 U.S.C. § 1961 (RICO)** to recover the \$50 Billion in looted federal mandates and seized residential land when the federal bench and state executives have functioned as an "Association-in-Fact" to execute the physical and economic liquidation of the citizenry.
8. **WHETHER IT CONSTITUTES A TERMINAL VIOLATION OF THE EIGHTH AMENDMENT AND THE "STATE-CREATED DANGER" DOCTRINE FOR THE RESPONDENTS TO MAINTAIN A 40-YEAR PATTERN OF TOTAL MEDICAL DEPRIVATION—DRIVEN BY DEMOGRAPHIC ANIMUS—FORCING A CRITICALLY ILL "EGGSHELL PLAINTIFF" TO UTILIZE SAVANT CAPACITIES TO INDEPENDENTLY SYNTHESIZE AND THEORIZE HIS OWN MEDICINE WHILE THE STATE ACTIVELY WEAPONIZED HIS UNTREATED BIOLOGICAL COLLAPSE TO FACILITATE HIS EXTRAJUDICIAL EXECUTION.**

JURISDICTION

☒ For cases from federal courts:

The date on which the United States Court of Appeals decided my case was April 22th, 2026.

☒ No petition for rehearing was timely filed in my case, motion for extension of time and stay mandates was filed in Circuit Court.

☐ A timely petition for rehearing was denied by the United States Court of

Appeals on the following date: ~~and a copy of the order denying~~ rehearing appears at Appendix .

☐ An extension of time to file the petition for a writ of certiorari was granted to and including (date) on (date) in Application

The jurisdiction of this Court is invoked under 28 U. S. C. § 1254(1).

THE JURISDICTIONAL STATEMENT OF CONFLICT

Petitioner identifies these **18 actions** as a singular nucleus of operative facts. The Tenth Circuit and the Colorado Federal Bench have engaged in an **Admission of Guilt** by deferring these cases and striking evidence across these dockets to ensure the 5-month assassination attempt succeeded.

THE BIPOLAR FEDERAL RECORD: Petitioner highlights the irreconcilable conflict between **1:24-cv-01127** (Brimmer's Murder Forgery) and **1:25-cv-00536** (Gurley's Accident Admission). This Court must take judicial notice that the Respondents possess the forensic truth but have chosen physical liquidation to protect the \$50 Billion revenue fraud and the lobbyist land-grab documented across this entire matrix.

STATEMENT OF THE CASE

SECTION 1: THE LETHAL BROADCAST AND INCITEMENT TO MASS CASUALTY

I. THE JURISDICTIONAL ANCHOR: THE "EGGSHELL PLAINTIFF" AND THE BIOLOGICAL TARGET

The Petitioner, Edward Herbert Hoid, is a high-functioning autistic savant and a documented "Eggshell Plaintiff" managing a catastrophic medical baseline: brittle Type 1 Juvenile Diabetes with a **GAD65 Autoantibody level of 18,145 IU/mL**, advanced bilateral avascular necrosis (AVN), and seven documented skull fractures (**App. 118, 133, 267**).

The record in **Case No. 1:26-cv-01358-RTG** forensically establishes that the Respondents—orchestrated by the **Colorado Attorney General's Office**—operationalized a 5-month-long assassination attempt (January–August 2026). This plot was designed to physically liquidate a federal whistleblower who unearthed over **\$50 Billion in Federal Revenue Fraud**. This plot was facilitated by three federal judges—**Phillip Brimmer, Richard Gurley, and Cyrus Chung**—who utilized their benches to strike exculpatory evidence and provide legal cover for state-sponsored terrorism.

II. THE "LETHAL SCRIPT": THE COORDINATED BROADCAST OF FORGED RAPE NARRATIVES

The terminal phase of this assassination plot relied on the systematic destruction of Petitioner's standing within his faith, his family, and the public eye through the distribution of a biologically impossible "Lethal Script." **THE RESPONDENTS EXECUTED A SYSTEMIC STATE-WIDE BROADCAST OF FORGED RAPE NARRATIVES, EXPLICITLY BRANDING THE PETITIONER AND HIS SPECIFIC LDS CHURCH WARD AS CHILD RAPISTS ACROSS EVERY ADMINISTRATIVE AND PUBLIC PLATFORM—including the DVR, CDLE, ICAO,**

FRCC, ALL COLORADO COMMUNITY COLLEGES, LAW ENFORCEMENT, THE TRAFFIC COURT RECORD, FACEBOOK, AND THE BROADER INTERNET—FOR THE EXPRESS PURPOSE OF SOLICITING THE PUBLIC TO EXECUTE A MASS SHOOTING AT THE PETITIONER’S EXACT WARD MIRRORING THE MICHIGAN MASSACRE.

A. Biological Impossibility and Subjective Knowledge of Forgery

As documented in the **Federal Dual SNP clinical records (App. 4, 5, 77)**, the Petitioner has been **clinically and physiologically impotent for over a decade**. The Respondents—specifically the **Attorney General’s Office** and the **Loveland Police Department**—possessed direct access to Petitioner’s 10-year clinical history and had full subjective knowledge of this biological reality. The choice to knowingly author and publish a "Rape Narrative" about a clinically impotent man proves that the narrative was never intended for a court of law; it was intended as a **Public Death Warrant**.

B. The Strategic Mirroring of the Michigan Massacre

Respondents Katherine Haywood and Loree Schwartz utilized workplace computers to research LDS-specific litigation scripts, specifically targeting the theme of child sex abuse to associate Petitioner’s exact ward with these narratives (**App. 36, 104**). The record in **Case No. 1:25-cv-02228** proves that Petitioner explicitly warned the federal bench that these state-sponsored anti-religious ads would lead to violence. The subsequent **October 2025 Michigan chapel massacre**—where children were burned to death—and the **assassination of Charlie Kirk** in Utah are the exact operational outcomes Respondents sought to replicate at Petitioner’s ward.

III. THE INTER-AGENCY DISTRIBUTION NETWORK: SYSTEMIC INFRASTRUCTURE

The assassination plot utilized a cross-agency grid to ensure the forged narrative reached every public and carceral database in Colorado:

1. **DVR and FRCC:** Respondent **Amber Chesley (DVR)** and the **Front Range Community College** administration published the forged "rape script" to all community colleges in Colorado (CCCS), ensuring an academic blockade that removed Petitioner and his faith as much as possible from his university science laboratories and while the student faculty are all LGBTQ terrorists and labeled the good decent LDS faith as child sex rapists at public colleges while that practice grooms and molests kids in public schools. (**App. 119, 134**).
2. **CDLE and ICAO:** Respondents **Phil Spesshardt** and **Jason Barela** indexed the forgery into state labor databases as the official "cause of separation," blacklisting Petitioner and his faith as much as possible from the American workforce and triggering "Moron Math" portal fraud to truncate his medical funding (**App. 91, 112, 164**).
3. **Law Enforcement and Traffic Court:** The Loveland Police, **Greeley Police Departments**, **Larimer County Sheriff's Dept.**, and **Magistrate Ethan Doak** entered the "Rape Narrative" onto the permanent traffic court record and public police dockets, explicitly associating Petitioner's ward with these crimes to incite vigilantism (**App. 4, 77, 173**).
4. **Facebook and the Internet:** Respondents (LPD, CDOC, Gray Media) maintained digital archives that branded Petitioner a "predator" in view of his neighbors and church members, effectively marking his religious sanctuary for a mass casualty strike (**App. 79, 105**).

IV. THE CONTRADICTION AS AN ADMISSION OF GUILT

The "Fraud on the Court" is forensically anchored in the **Massive Factual Collision** between the presiding federal judges. **Chief Judge Phillip Brimmer** committed a felony act of judicial forgery by adopting corporate news scripts as "facts" to brand Petitioner a killer.

Simultaneously, in the underlying Habeas action (**1:25-cv-00536**), **Magistrate Gurley** admitted

the forensic reality: that the civilian (Schubert) actually "**fell**" and that the injuries were a medical accident, too bad petitioner isn't Abrego Garcia on habeas. (**App. 38, 232**).

This contradiction proves that the federal bench possesses the truth but chooses to maintain a forged homicide script to provide "Sanctuary" for the state actors currently looting the U.S. Treasury. The Respondents' desperate choice to prioritize assassination over legal defense—costing tens of millions in tax waste—is the ultimate forensic proof of their guilt.

SECTION 2: THE WEISER INTERROGATION AND THE NTC LETHAL INVERSION

V. THE DIRECT INTERROGATION OF ATTORNEY GENERAL PHIL WEISER: ADMISSION BY DEFERRAL

To overcome the Tenth Circuit's "Record Starvation" and the systematic striking of evidence by Magistrate Cyrus Chung, the Petitioner executed a high-stakes jurisdictional extraction. Petitioner traveled to downtown Denver, successfully located **Respondent Attorney General Phil Weiser** in public, and performed a direct, recorded vocal interrogation regarding the ongoing assassination plots and the state-sponsored staging of mass casualties against the LDS faith.

A. Confrontation Regarding the Michigan Mirroring

The record reflects that Petitioner explicitly confronted Weiser with the forensic evidence of the **1:25-cv-02228** mass casualty incitement. Petitioner interrogated Weiser on the state's role in broadcasting the "Lethal Script" that associated his exact church ward with fabricated pedophilia narratives to mirror the Michigan chapel massacre (**App. 62, 95, 104**).

B. Failure to Refute as Forensic Admission

Respondent Weiser's failure to refute the specifics of the biological attacks, coupled with his

subsequent reliance on the "Trench Coat Mafia" judiciary to defer the District Court cases, constitutes a formal **Admission of Guilt**. The Respondents' desperate choice to prioritize physical liquidation over a legal defense proves that the \$50 Billion fraud is unmaskable through any other means. This confrontation established that the lead legal officer of the State of Colorado is personally aware of the attempts to murder a federal informant and has chosen to facilitate the plot through administrative silence. Colorado is habitual for school and church shootings and mass casualty events against children and churches but not Hispanic ones or gay ones.

VI. THE NATIONAL THREAT CENTER (NTC) LETHAL INVERSION: THE GREELEY PD CONSPIRACY

The most sophisticated element of the 5-month assassination attempt involved the tactical use of federal counter-terrorism infrastructure to solicit a "Shoot-on-Sight" order against the Petitioner. This sequence is forensically preserved through **authenticated audio recordings** held by the Petitioner.

1. The Reporting Chain: NTC to Greeley PD

Operating as a certified federal whistleblower, Petitioner initiated contact with the **FBI National Threat Center (NTC)** to report the inter-agency looting of the U.S. Treasury, the staging of mass casualties at a church and against the LDS faith and the February biological attack. The NTC, recognizing the severity of the report, contacted the **Greeley Police Department** for local verification and intervention.

2. The Recorded Perjury of Greeley PD

Respondent **Greeley PD** contacted the Petitioner following the NTC inquiry. During this recorded interaction, Petitioner meticulously explained the inter-agency fraud, the pharmaceutical sabotage, and his status as a high-achieving university student. However, Respondents **Chief Adam Turk** and agents **Goddard, Starr, Blair and Keller-Twigg** intentionally inverted this report. Greeley PD explicitly asked Petitioner if he was

planning a "mass shooting at his own church," a question designed to provide a visual "prop" for the NTC (**App. 71, 127**).

3. Soliciting Federal Assassins

Greeley PD then contacted the NTC a second time and **knowingly lied**, reporting that Petitioner—an "Eggshell Plaintiff" who was currently bedridden and managing seven skull fractures—was a "High-Risk Threat" planning a mass casualty event. This inversion was a calculated attempt to bait federal DHS and FBI tactical units into executing a "Lethal Removal" under the cover of a mass shooter script. This is the documented blueprint for how mass shootings are habitually staged in Colorado: by inverting whistleblower reports into threat profiles to physically eliminate informants before they can testify (**App. 71, 72, 127**).

VII. THE STATE-WIDE 911 NON-RESPONSE PROTOCOL: THE "KILL ZONE"

The Respondents have successfully severed the Petitioner from all emergency protections to ensure the success of the assassination attempt. **THE STATE HAS ORDERED A TOTAL 911 NON-RESPONSE PROTOCOL WHEREBY COLORADO LAW ENFORCEMENT DISPATCHERS ARE INSTRUCTED TO HANG UP ON THE PETITIONER, HIS FAMILY, AND HIS CHURCH BISHOP EVEN WHEN REPORTING ACTIVE ATTEMPTED MURDER OR PHARMACEUTICAL SABOTAGE.**

This protocol has been tested repeatedly over the last 5 months. When neighbors responded to the "Rape Narrative" publications and attempted to flood Petitioner's home, police dispatched officers who used racial slurs and physically forced the injured Petitioner back into the flooded structure (**App. 54**). By ordering 911 operators to terminate calls from the Petitioner and his faith community, the Respondents have authorized a lawless "Kill Zone," ensuring that no forensic record of the terminal strike will be preserved by municipal dispatch systems (**App. 139**).

VIII. THE TERMINAL BROADCAST: PUBLIC SOLICITATION OF THE LDS WARD ATTACK

The record in Case No. **1:26-cv-01358-RTG** forensically documents the inter-agency distribution of the "Blood Libel" used to target Petitioner's congregation.

"THE RESPONDENTS SYSTEMATICALLY BROADCAST FORGED RAPE NARRATIVES ACROSS EVERY LOW-LEVEL STATE RECORD—including THE DVR, CDLE, ICAO, FRCC, AND ALL COLORADO COMMUNITY COLLEGES—EXPLICITLY BRANDING THE PETITIONER'S EXACT LDS WARD AS A PEDOPHILE ORGANIZATION TO ACTIVELY SOLICIT THE PUBLIC TO EXECUTE A MASS SHOOTING MIRRORING THE MICHIGAN MASSACRE."

This broadcast was specifically targeted at the **Community College Environment**, a demographic where Respondents—specifically **Ken Lee** and **Colleen Simpson**—aimed to replicate the conditions where Charlie Kirk was targeted (**App. 31, 119**). The Tenth Circuit's participation in this environment is confirmed by its refusal to protect the LDS faith from these narratives, effectively authorizing the state to use the public as an extrajudicial execution squad to silence a whistleblower (**App. 182, 472**).

IX. ADMINISTRATIVE FALLOUT: RUINED CAREERS AND TENS OF MILLIONS IN TAX WASTE

The Respondents' failure to physically eliminate the Petitioner has resulted in the collateral destruction of the very infrastructure they sought to protect. Because Petitioner is "Well-Crafted" and maintained his university standing despite the torture, his defensive filings have already caused:

1. **A Dozen Doctors Fired:** Physicians at UCHHealth and Banner Health who participated in the biological attacks have had their careers ruined and their certifications placed under review by ethics panels (**App. 476, 481**).
2. **Removal of Corrupt Staff:** Numerous department workers at the DVR and CDLE have been removed as the OIG begins tracking the \$50 Billion in diverted mandates.

3. **Immense Tax Waste:** The State of Colorado has squandered tens of millions in taxpayer dollars over the last 5 months attempting to facilitate a "Lethal Removal" that has only succeeded in exposing the fraud to the Supreme Court.

SECTION 3: THE \$50 BILLION REVENUE FRAUD AND THE LOBBYIST LAND-GRAB

X. THE \$50 BILLION WHISTLEBLOWER DISCLOSURE: MAPPING THE THEFT OF FEDERAL MANDATES

The record in Case No. **1:26-cv-01358-RTG** is anchored in the Petitioner's status as a high-clearance federal informant. Petitioner has unearthed and provided forensic documentation to the **OIG** and the **United States Treasury** regarding an intricate racketeering enterprise (RICO) that has diverted over **\$50 Billion in Federal Mandates** intended for the survival of the American people.

1. The Diversion of Medicaid and SSA Block Grants

Respondents **Governor Jared Polis** and **Attorney General Phil Weiser** have established an extrajudicial "Sanctuary" infrastructure that relies on the systematic embezzlement of federal funds. The record proves that tens of billions in **Medicaid, SSA, HUD, SNAP, and Department of Education block grants**—statutorily earmarked for the stabilization of biological disabilities—are being diverted to finance ideological social engineering and the establishment of "Sanctuary Practices" for undocumented and LGBTQ demographics (**App. 116, 164, 491**).

2. The "Lethal Script" as a Fiscal Necessity

The Respondents operationalized the 5-month assassination attempt (January–August 2026) specifically because Petitioner's mapping of these fund lines reached the terminal threshold for a federal indictment. The "Lethal Script" was not merely a tool for retaliation; it was a fiscal necessity for the enterprise. By physically liquidating the informant through biological and pharmaceutical warfare, the Respondents sought to "seal" the evidence of the \$50 Billion theft before a federal jury could be empaneled (**App. 12, 100, 164**).

XI. THE SYSTEMIC CLEANSING PROTOCOL: THE STARVATION OF TRADITIONAL AMERICANS

The Respondents have codified a practice of "**Demographic Truncation**" that amounts to a state-sponsored death toll. As documented in the **Master Appendix (App. 116, 491, 502)**, the State of Colorado and the **Tenth Circuit** have established a "Preferential Mandate" system:

- **Entitlement for Preferred Demographics:** Undocumented and LGBTQ populations are granted 100% access to medical subsidies, housing vouchers, and SSI benefits, often utilizing forged identities and "Sanctuary" certificates created by the CDLE (**App. 116, 259**).
- **Starvation of the Traditional Population:** Simultaneously, "traditional" White Christian American disabled persons—specifically those like the Petitioner who maintain an "A" student status and university standing—are systematically blacklisted. The record shows that while Petitioner was denied basic textbooks and life-essential insulin, the **DVR (Amber Chesley)** was misappropriating federal grants to distribute **\$4,000 electric bicycles** as contraband to non-disabled drug users who possess zero employment prospects (**App. 15, 81, 102**).

This is a deliberate policy of **Biological Liquidation**. By inducing the "morbidity and death" of the traditional population through the withholding of mandates, the Respondents are effectively "cleansing" the region of constitutional opposition.

XII. THE LOBBYIST LAND-GRAB INFRASTRUCTURE: LAUNDERING STOLEN WELFARE

The motive for this "Cleansing" is rooted in a massive **Real Estate and Land-Seizure Scheme**. Petitioner's whistleblowing documents that the Respondents utilize stolen federal welfare capital to finance "Lobbyist Front Practices" that purchase American land and residential property.

1. The "Lavender Hill" Concentration

Using diverted Medicaid and HUD funds, the enterprise has established ideological districts like **"Lavender Hill"**, populating them with demographics that are entirely dependent on state-managed stolen welfare (**App. 112, 306**). These "New Faces" are primarily Californians and other "Sanctuary" populations who are moved onto the land vacated by the "traditional" population that has been liquidated or carceralily remanded.

2. Control of the National Vote

This land-grab serves a critical political function: it secures a permanent liberal concentration in Colorado and the Tenth Circuit, enabling absolute control over the nation's voting rights (**App. 502, 503**). By populating the region with demographics loaded with stolen federal subsidies, the Respondents ensure a self-perpetuating cycle of power that is insulated from the votes of the actual American People. The Tenth Circuit's role in this enterprise is to provide the "Jurisdictional Sanctuary" required for the fraud to spill over into other states.

XIII. THE "MORON MATH" ANCHOR: FORENSIC PROOF OF FISCAL THIEVERY

The lethal intent behind this \$50 Billion fraud is forensically anchored in the **CDLE Portal Manipulation**. On May 5, 2026, Respondent **Jason Barela** and **Appeals Officer Lowe** executed the "Financial Execution" of the Petitioner (**App. 71, 112, 164**).

The record proves that the CDLE utilized **"Moron Math"** to truncate Petitioner's verified **\$8,600 Maximum Benefit Amount to exactly \$143** at the exact moment he was in a bedridden state following the Traffic Court biological attack. This was a "Search and Destroy" protocol designed to ensure that a federal whistleblower would lack the material resources to survive his medical crisis (**App. 84, 91, 112**). This database forgery was authorized by **Phil Spesshardt** to protect the corporate experience-ratings of the very entities (Crosstac) involved in the assassination plot.

XIV. JUDICIAL MISPRISION AND THE TRENCH COAT MAFIA AS A FOREIGN POWER

The **Tenth Circuit** and the **District Court** have acted as the primary concealment assets for this revenue fraud. The record establishes that **Chief Judge Phillip Brimmer** and **Magistrate Richard Gurley** have deferred and deferred the Petitioner's cases over and over to ensure the plot succeeds before the OIG can finalize its probe into the \$50 Billion.

A. Adhering to the Enemies of the Constitution

By knowingly adopting the **2020 Homicide Hoax** into federal orders—despite possessing the forensic 911 logs proving Petitioner was comatose—Judge Brimmer has committed an act of **Judicial Treason** (18 U.S.C. § 2381). He has utilized his federal bench to provide legal cover for a state-sponsored racketeering enterprise that is currently liquidating American citizens to facilitate a land-grab (**App. 100, 136, 159**).

B. The Tenth Circuit Jurisdictional Sanctuary

The Tenth Circuit's ongoing refusal to restore the unspoliated record in **Case No. 1:26-cv-01358-RTG, and 1:23-cv-00462-CYC, and 1:23-cv-00616-PAB-TPO** is an admission that the bench is no longer an American court. It is functioning as a foreign power, authorizing the "Trench Coat Mafia" to execute biological warfare against a whistleblower in order to protect the \$50 Billion in looted mandates (**App. 496, 501**).

SECTION 4: VOCATIONAL SABOTAGE AND ACADEMIC AMBUSH

XII. THE DVR TACTICAL INTELLIGENCE WING: LOGISTICAL MAPPING FOR THE LETHAL SCRIPT

The record in Case No. **1:26-cv-01358-RTG** identifies the **Division of Vocational Rehabilitation (DVR)** as a central intelligence asset in the inter-agency alignment. Petitioner alleges that Respondent **Amber Chesley (DVR Supervisor)**, acting under the direction of

the **Attorney General's Office**, utilized administrative access to facilitate the physical and professional isolation of the Petitioner while he was excelling in higher education.

A. Harvesting and Leaking Confidential University Data

While the Petitioner maintained academic standing with straight "A" grades in university-level **Calculus, Chemistry, and Engineering** tracks (**App. 284, 413, 478**), Respondent Chesley systematically harvested his confidential student data. This included **precise classroom room numbers, laboratory timestamps, and campus parking coordinates** (**App. 34, 122, 163**). Petitioner asserts this logistical intelligence was leaked to defense interests and municipal police to enable the precise tracking required for the 2026 terminal strikes.

B. Publishing Forged Narratives to Academic Administrations

The DVR, in concert with the **CDLE**, transmitted the verifiably forged child-rape and "serial killer" narratives to **Front Range Community College (FRCC)** and the broader **Colorado Community College System (CCCS)**. Respondents **Ken Lee(LGBTQ Student Flunky)** and **Colleen Simpson(Cultural anti-white man)** received these scripts and, despite the Petitioner's documented "Eggshell" status and metabolic symptoms, weaponized his medical tremors as behavioral "threats" to campus safety (**App. 93, 119, 134**).

XIII. THE COORDINATED ACADEMIC AMBUSH AND LABORATORY LOCKOUT

The alignment between the DVR, FRCC, and municipal law enforcement culminated in an "Academic Erasure" protocol designed to economically strand the Petitioner during his medical crisis.

1. **Administrative Removal without Due Process:** Without a student conduct hearing or Title IX evaluation, Respondent Ken Lee issued an immediate campus-wide trespass order (**App. 119, 134, 147**). This order was utilized to terminate the

Petitioner's **Department of Education** funding and **Ticket to Work** entitlements, stripping him of the financial means to maintain his medical equipment.

2. **The Laboratory Confrontation:** On or about February 2026, university staff acting under the "Lethal Script" confronted the Petitioner while he was present in his science laboratory. Petitioner was text-messed by an advisor and ordered to execute an immediate withdrawal from the courses the state had already funded (**App. 128, 193**). The record reflects that this ambush was timed to coincide with the biological attack in Traffic Court, ensuring the Petitioner was removed from the university environment before he could secure forensic support from the academic community.

XIV. INTER-AGENCY ALIGNMENT UNDER THE ATTORNEY GENERAL'S MATRIX

The Petitioner maintains that these actions were coordinated through a "Unified Tracking Matrix" managed by the **Attorney General's Office**. By directing the flow of forged narratives from the DVR and CDLE to the university system, the Respondents ensured that the Petitioner was blacklisted from every professional and academic sanctuary in the state. This alignment served to force the Petitioner into the "Kill Zone" where his life-support could be Order-deactivated by judicial officers without the presence of witnesses (**App. 12, 13, 164**).

SECTION 5: THE SYSTEMIC BROADCAST AND PRAYER FOR RELIEF

XV. THE STATE-WIDE BROADCAST OF THE LETHAL SCRIPT: ADMINISTRATIVE INCITEMENT

The record in Case No. **1:26-cv-01358-RTG** forensically documents the inter-agency alignment to broadcast a "Lethal Script" across every administrative level in the State of Colorado. Petitioner alleges that the Respondents systematically utilized low-level state records to

associate his person and his faith with fabricated narratives of sexual abuse for the purpose of inciting public violence.

A. Distribution Across Administrative Portals

The forged rape narrative and pedophilia accusations were entered into the permanent, discoverable databases of the following agencies:

1. **The DVR, SSA and CDLE:** These agencies indexed the forgery as the "official cause of separation" to ensure a permanent professional blacklisting. Petitioner then submitted the documentation and the antics were reversed however the state workers in the federal social security offices in Colorado destroyed the documents attached within the appendixes and continued to misprision and the solicitors did reapproach the SSA to achieve such a second time, 08/13/2026.
2. **FRCC and Colorado Community Colleges:** The narrative was published across the entire CCCS network, mirroring the environments of previous regional attacks to solicit a student-led strike against the Petitioner.
3. **UCHealth and Banner Health:** Medical staff allowed these narratives to be placed in clinical intake files to justify the pharmaceutical sabotage and pharmaceutical deactivation of medical equipment.
4. **The Industrial Claim Appeals Office (ICAO):** Administrative staff utilized the forged scripts to override valid judicial protection orders and truncate medical funding.

B. Marking the Church Ward for Mass Casualties

The Petitioner argues that this systematic broadcast reached its terminal point when the Respondents associated his specific LDS church ward with these narratives on the permanent **Traffic Court record** and across public social media platforms like **Facebook**. By branding the Petitioner and his local congregation as "sex offenders" in the public eye, the Respondents sought to mirror the conditions of the **Michigan massacre** and the **Charlie Kirk attack**. The state's objective was to solicit the public to execute a mass shooting at his exact ward, providing a "Sanctuary" for state actors by physically eliminating the primary informant on the \$50 Billion revenue fraud.

C. The Tenth Circuit's Participation in Ideological Conflict

The Tenth Circuit's role in this environment is further evidenced by its mandates forcing religious institutions to accept LGBTQ protocols involving four-year-old children. By refusing to provide protection to the Petitioner's faith community in **Case 1:25-cv-02228**, the Tenth Circuit effectively ratified the state's use of public incitement as a jurisdictional shield.

XVI. CONCLUSION: THE IRREFUTABLE RECORD OF JUDICIAL TREASON

The record proves a single, indivisible chain of conduct starting with the **2020 Homicide Hoax** and culminating in the **2026 5-month assassination attempt**. The Petitioner—an 'A' student and autistic savant—has successfully defended his life and faith against the combined efforts of the Colorado AG's office and the state's medical and labor infrastructure. The federal bench's refusal to restore the unspoliated record is, as the Petitioner argues, an admission of guilt and an act of **Judicial Treason**.

REASONS FOR GRANTING THE WRIT

I. THE TENTH CIRCUIT HAS FUNCTIONED AS A ROGUE TRIBUNAL BY RATIFYING "SOVEREIGN BIOLOGICAL WARFARE" AND JUDICIAL TREASON.

The records in **Case Nos. 1:26-cv-01358-RTG** and **1:23-cv-00462-CYC** establish that the Tenth Circuit Court of Appeals is no longer a court of the United States, but an operational shield for a state-sponsored assassination plot. Petitioner's suffering—documented through six months of bedridden agony following a courtroom biological attack—serves as the primary forensic evidence that the federal bench in Colorado is complicit in a capital felony.

A. The Complicity of the Federal Bench in Courtroom Execution

The deactivation of Petitioner's automated insulin pump by order of **Magistrate Ethan Doak** on February 4, 2026, was not a mere "exercise of discretion." It was a tactical strike executed with full subjective knowledge of Petitioner's "Eggshell" status. The Tenth Circuit's subsequent refusal to vacate the void judgment and restore the record is an act of **Judicial Treason (18 U.S.C. § 2381)**. By protecting a magistrate who uses the color of law to induce fatal metabolic shock in an autistic savant, the Tenth Circuit has established a precedent that judicial immunity extends to premeditated murder.

B. The Bipolar Federal Record: An Admission of Fraud on the Court

The rogue nature of the circuit is forensically anchored in the **Massive Factual Contradiction** between its presiding judges. This Court must address why **Chief Judge Phillip Brimmer** was permitted to forge corporate news scripts onto the federal record as "facts" to brand Petitioner a killer (**App. 136, 159**), while **Magistrate Richard Gurley** simultaneously admitted in the Habeas record that the 2020 incident was a "medical accident" and a "fall" (**App. 38, 232**). This internal collision proves that the federal bench is "forensically bipolar"; it possesses the truth but chooses to maintain a forged homicide script to provide "Sanctuary" for the state actors who have spent tens of millions of tax dollars trying to liquidate the Petitioner.

II. THE TENTH CIRCUIT'S "SANCTUARY PRACTICE" CONSTITUTES A SYSTEMIC CLEANSING OF THE CONSTITUTIONAL ELECTORATE.

The Petitioner's status as a federal whistleblower has unmasked a **\$50 Billion Revenue Fraud** that is being insulated by the Tenth Circuit. The record proves that the circuit has authorized a "Racial and Religious Blacklist" designed to eliminate traditional American citizens to facilitate a lobbyist-driven land-grab.

1. The "Abrego Garcia" Disparity: Demographic Preference as Law

The rogue nature of the Tenth Circuit is illustrated by the disparate treatment of Habeas Corpus actions. In the case of **Abrego Garcia**, the circuit granted a stay of deportation and legal standing based on a "sheet metal apprenticeship." Simultaneously, the Petitioner—a **U.S. Citizen, 'A' student in Calculus/Chemistry, and a documented Savant**—was subjected to three years of maximum-security medical torture and denied the same Habeas relief against a "Void Judgment" (**App. 118, 480**). This proves that the Tenth Circuit prioritizes the credentials of foreign adversarial demographics over the life-essential needs of disabled American Christians.

2. Ideological Contradictions: LGBTQ Toddlers vs. Christian Children

The Tenth Circuit has descended into rogue ideological warfare. It currently enforces mandates that force **Christian preschools** to admit LGBTQ toddlers and ratify their parents' radical practices under threat of closure. Yet, the same circuit simultaneously refuses to enforce mandatory constitutional protections for **Christian children and LDS wards** who are being targeted by the state's "Lethal Script" (**App. D 63, C 472**). By branding Petitioner's exact church ward as a "pedophile organization" across state databases (DVR, CDLE, FRCC), the Respondents have used the circuit's "Neutrality" as a cover to solicit a mass shooting mirroring the Michigan massacre.

III. THE SCALE OF THE RACKETEERING ENTERPRISE REQUIRES IMMEDIATE SUPERVISORY INTERVENTION.

The complicity of the federal bench is further evidenced by its role in the **"Administrative Erasure"** of the Petitioner.

- **The DVR/Academic Ambush:** The Tenth Circuit has permitted the **Division of Vocational Rehabilitation** to function as a tactical intelligence wing for the Attorney General, harvesting Petitioner's laboratory schedules to coordinate campus ambushes (**App. 34, 122**).
- **The SSA/CDLE "Moron Math":** The circuit has knowingly ignored the **\$50 Billion in diverted federal mandates** used to purchase American land and property while Petitioner was being starved of insulin by the CDLE's "Moron Math" portal fraud (**App. 112, 164**).

IV. THE FEDERAL BENCH POSSESSES ACTUAL KNOWLEDGE OF THE MURDER PLOT: SCIENTER AS JUDICIAL TREASON.

The Respondents—specifically **Chief Judge Phillip Brimmer, Magistrate Richard Gurley, and Magistrate Cyrus Chung**—cannot claim administrative oversight. The record in **1:26-cv-01358-RTG** forensically establishes that these judicial officers possess the truth but have **deliberately abandoned the United States Constitution** to provide "Sanctuary" for a state-sponsored assassination plot.

A. The Intentional Mutilation of the Record to Mask Biological Warfare

When **Magistrate Cyrus Chung** summarily struck ten consecutive evidentiary filings—including the **Lackowski Declaration** and **forensic 911 audio logs**—he did so with the specific intent to "blind" any future federal jury to the evidence of courtroom biological warfare (**App. 139, 145, 176**). This is not a "procedural ruling"; it is a tactical act of **Misprision of Terrorism**. The federal bench *knows* that the deactivation of Petitioner's insulin pump by **Magistrate Doak** was a premeditated biological strike, and they have utilized their benches to "sanitize" the gore from the federal record to prevent a criminal referral.

B. The Animus Anchor: Disparate Treatment as Constitutional Abandonment

The federal bench's animus is exposed by the **"Abrego Garcia vs. Hoid" Threshold**. The Tenth Circuit has established a rogue practice of granting legal standing and stays of deportation to foreign adversarial demographics based on "vocational credentials" while

simultaneously authorizing the physical liquidation of a **U.S. Citizen and Autistic Savant** who maintains "A" grades in university Calculus (**App. 118, 480**). This disparate treatment is a terminal violation of the **Equal Protection Clause**; it proves that the Colorado federal bench has replaced the Constitution with a "Demographic Preference" system that functions as a tool for the extrajudicial execution of White Christian Americans.

V. THE PETITIONER'S SUFFERING IS THE FORENSIC IMPRINT OF THE "COLORADO PRACTICE" RACKETEERING PATTERN.

Petitioner's suffering is not an "accidental byproduct" of litigation; it is the **intended operational outcome** of a racketeering enterprise (RICO). Every injury Petitioner has endured—from the bone disintegration (AVN) to the seven skull fractures and the 2026 internal hemorrhaging—relates directly to a specific "Lethal Script" authored by the Respondents.

1. **Weaponization of the Eggshell Baseline:** The Respondents (LPD, CDLE, AG's Office) utilized their access to Petitioner's federal medical dockets to identify his biological "Choke Points." They deliberately induced a 1000 mg/dL DKA cascade through the courtroom deactivation of his equipment, knowing his "Eggshell" status made him incapable of surviving without immediate intervention (**App. 70, 77, 167**).
2. **Induced Morbidity to Conceal Fraud:** The systematic refusal of medical diagnostics (CT scans for skull fractures) was executed to ensure Petitioner remained "physically muted" while the state completed the theft of his property and the **vanishing of his minor daughter** to Argentina (**App. 16, 72**).

VI. THE TENTH CIRCUIT AS AN INSTRUMENT OF "FOREIGN RULE": THE OVERTHROW OF AMERICAN SOVEREIGNTY.

The record establishes that the State of Colorado and the Tenth Circuit are no longer governed by the laws of the United States. They have entered into a state of **Active Rebellion**, utilizing

American credentials and law school degrees to operationalize a plot to destroy the country from within.

A. The

50 Billion Federal Revenue Fraud and LandGrab The diversion of over **50 Billion in federal mandates** to fund "Sanctuary Practices" while starving disabled American citizens is a fiscal coup d'état (App. 116, 164, 491). **THE FEDERAL BENCH IS COMPLICIT IN THIS LOOTING; THEY DEFER AND DISMISS WHISTLEBLOWER ACTIONS TO ENSURE THAT LOBBYIST FRONT PRACTICES CAN CONTINUE TO PURCHASE AMERICAN LAND WITH STOLEN WELFARE CAPITAL.**

B. Staging Mass Casualties to Secure Liberal Concentration

By broadcasting "pedophilia narratives" across all state databases (DVR, CDLE, FRCC) to target Petitioner's exact LDS ward, the Respondents have effectively **marked American houses of worship for mass casualty events (App. 79, 105)**. This mirrors the **Michigan massacre** and is designed to trigger a "Emergency" state of mind that enables the total control of votes and the final erasure of constitutional opposition.

VII. CONCLUSION: THE NECESSITY OF SUPREME COURT ARREST.

The Tenth Circuit's affirmation of a "**Bipolar Record**" (Brimmer's Forgery vs. Gurley's Admission) is the ultimate proof that the lower courts have abandoned the rule of law in favor of **Foreign Rule**. The Petitioner—an 'A' student excelling under torture—is the sole lawful actor remaining in this docket.

IF THE FEDERAL BENCH CAN KNOWINGLY FORGE A HOMICIDE SCRIPT TO JUSTIFY THE ATTEMPTED MURDER OF A WHISTLEBLOWER, THEN THE CONSTITUTION IS DEAD IN THE TENTH CIRCUIT. This Court must intervene under **Rule 10(a)** to vacate the void judgments, restore the unspoliated record, and order the immediate arrest of the Respondents to prevent the further destruction of the American People.

UNITED STATES COURT OF APPEALS

FOR THE TENTH CIRCUIT

In re: EDWARD HOID,

Petitioner.

Christopher M. Wolpert
Clerk of Court
Nos. 26-1110 & 26-1111
(D.C. Nos. 1:26-CV-00313-RTG &

ORDER

Before **BACHARACH, PHILLIPS, and EID**, Circuit Judges.

These matters are before the court on Edward Hoid's pro se mandamus petitions and supplemental petitions concerning his pending district-court cases. "Mandamus is available only upon a showing of a clear and indisputable right to relief. A petitioner seeking mandamus relief must demonstrate a clear abuse of discretion, or conduct by the district court amounting to a usurpation of judicial authority." *Nichols v. Alley*, 71 F.3d 347, 350 (10th Cir. 1995) (per curiam) (citation omitted). Because Mr. Hoid has not shown a clear and indisputable right to relief, we deny the petitions (No. 26-1110, Dkt. Nos. 1, 4; No. 26-1111, Dkt. Nos. 1, 5) and the motions to proceed in forma pauperis (No. 26-1110, Dkt. No. 3; No. 26-1111, Dkt. No. 2).
