Mojave National Preserve Operating Hours & Seasons

NPS PHOTO

In general, visitors to Mojave should expect bright, clear skies, seasonally strong winds, and wide fluctuations in day-night temperatures.

Mojave National Preserve is always open. **Information centers** maintain regular hours of operation.

Mojave Desert experiences change with the seasons.

- Infrequent winter snows sparkle on the mountains.

- With enough moisture, **spring wildflowers** carpet the desert with vivid colors.

- Summers are hot, so adventurers head for the higher elevations such as Mid-Hills and the New York Mountains.

- The cooler temperatures of fall mark hunting season.

Mojave Temperatures: Average High / Low		
	Granite Mountain Elevation 4,260 feet	Zzyzx Elevation 830 feet
January	50°F / 36°F	61°F / 34°F
February	54°F / 38°F	69°F / 40°F
March	58°F / 41°F	74°F / 45°F
April	65°F / 48°F	83°F / 53°F
May	75°F / 54°F	93°F / 61°F
June	85°F / 63°F	103°F / 70°F
July	90°F / 67°F	108°F / 77°F
August	89°F / 65°F	107°F / 75°F
September	83°F / 61°F	100°F / 68°F
October	73°F / 52°F	77°F / 55°F
November	58°F / 41°F	73°F / 45°F
December	50°F / 34°F	62°F / 34°F
Average Annual Precipitation	8.5 inches	3.37 inches

Did You Know?

A kaleidoscope of colors envelops the Mojave Desert after a winter of steady rains. Over 250 types of annual wildflowers grow in the Mojave.
