### General Information::

All visitors are subject to canine (if available), electronic drug detection device (if available), and/or visual mouth searches prior to being allowed to visit an inmate. If you cannot clear the metal detector, you will be denied entry. Nothing may be brought into the institution except as authorized by the warden or designee. Any item brought into this institution in a manner other than authorized is contraband, and the person bringing the item into the institution is subject to criminal penalties.

A visitor 16 years of age and older must present photograph identification.

Children (18 years of age and younger) visiting the inmate must be immediate family to either the inmate or the visitor and must be accompanied by a person 18 years of age or older who is on the inmate's visiting list.

Inmates are allowed two (2) visits per week.

Segregation inmates are allowed one (1) visit per week.

The visiting week begins on Friday and ends on Monday. On weekdays only, if a second and different visitor arrives for visitation the same day, this visit shall be considered the second visit for the week and no more will be allowed.

During the weekend visiting schedule, the odd/even numbering system will be in effect - the last digit of the inmate's ID number will correspond to the date of the visit, (i.e., odd digit corresponds with odd date; even digit corresponds with even date). Whenever both days are odd on the weekend, the odd numbers may visit on either day but not on both days.

Three (3) adults and three (3) minors are permitted per visit. Minors accompanying adults, shall be supervised and kept under control by the adult at all times or the visit may be terminated. This includes the restriction of minors from wandering from their assigned seat. All male visitors must have their hand-stamped.
