Only game that doesn’t deserve to be up there is Black Ops. Other than that, pretty good list of nominations. Replace Black Ops with SMG2, and it would be a great list.

Well call of duty has won it two times...but please, not this time...out of those games, I say its going to be Mass Effect 2 or Halo: Reach...I say Mass Effect 2

Did anyone else notices the difference in graphics when Halo came on screen? Lol

I think Halo Reach deserves to be up there and I dont understand all the Halo hate is getting here but it was a good game but black ops needs to leave and go castrate itself

But where is Starcraft 2?

Silly Rabbit, SC2 is for PC! GT would never pick a PC game for GOTY... I'm pretty much happy with all of these games, except for Call Of Duty: Black Ops... If anything it was quite sub-par from MW2... Not saying that MW2 was a great game, it definitely didn't deserve to win every freaking category like it did last year... I'd really like God Of War to win this year my second choice would be Mass Effect 2....
