About Public Activity

Your public activity on Amazon includes your contributions to Customer Reviews, Customer Ratings, Customer Questions & Answers. Additionally, Amazon Follow, Badges, participation in Customer Communities and your public Registries or Lists you've made public are considered public activity. Your browse and purchase history are never considered public activity.

Your public activity is associated with your public name and is visible on your [Profile page](#) and elsewhere on Amazon, such as the product detail page.

To change which public activity is visible to others on the public view of your Profile page, go to the **Edit privacy settings** page on your Profile and uncheck the box next to the activities you wish to remove from the public view of your Profile page. To change the privacy settings of your Registries and Lists, go to [Manage Your Lists](#).

Note: When you remove activities from the public view of your Profile page, they may still show elsewhere on Amazon with your public name and link back to your Profile page (for example on product detail pages).

For details, instructions and policy information related to editing your Profile, go to [Edit Your Profile](#).
