1 PROCEEDINGS 2 (11:06 a.m.) 3 CHIEF JUSTICE ROBERTS: We'll hear argument next in Case 15-1808, the Commonwealth of Puerto Rico v. 4 5 Valle. 6 Mr. Landau. 7 ORAL ARGUMENT OF CHRISTOPHER LANDAU ON BEHALF OF THE PETITIONER 8 9 MR. LANDAU: Thank you, Mr. Chief Justice, 10 and may it please the Court: 11 This case turns on the straightforward point 12 that the people of Puerto Rico are the source of 13 authority for the laws of Puerto Rico. That means that 14 a prior Federal conviction has no Double Jeopardy implications for the enforcement of the Commonwealth's 15 criminal laws because Commonwealth law and Federal law 16 emanate from different sources of authority: The people 17 18 of Puerto Rico on the one hand and Congress on the 19 other. 20 JUSTICE GINSBURG: Mr. Landau, could Congress amend 48 U.S.C. 1704, which covers Guam, the 21 Virgin Islands, American Samoa? Could it amend that 22 23 statute and put Puerto Rico in there as well? 24 MR. LANDAU: It could certainly amend that statute, Your Honor, with respect to Federal 25

Alderson Reporting Company

prosecutions in Puerto Rico pursuant to its authority 1 2 over Federal prosecutors. 3 Your question, Your Honor, raises a very 4 intricate question with -- with --5 JUSTICE GINSBURG: In -- in the statute 6 is -- it works both ways. 7 MR. LANDAU: In the statute, Your Honor, it does because there's no question Puerto Rico is in a 8 9 unique status different than Guam, the Virgin Islands, 10 and American Samoa precisely because those are all territories governed, as traditionally, by organic acts 11 12 of Congress. 13 JUSTICE GINSBURG: But is there -- is 14 there --15 JUSTICE KENNEDY: What -- what about the 16 Northern Marianas? 17 MR. LANDAU: Your Honor, they are in an interesting position that is generally more analogous to 18 Puerto Rico in the sense that they are a Commonwealth of 19 20 the Northern Marianas with a compact of their own that 21 was very much modeled on Puerto Rico, although it's 22 somewhat different than the Puerto Rico model. But 23 there's a profound distinction that goes to the heart of 24 this case between the home rule territories, were Congress, to be sure, has delegated a measure of 25

Alderson Reporting Company

2

3

4

self-government to those particular territories, but each of them, Guam, the Virgin Islands, and American Samoa are still governed by organic acts of Congress, as was Puerto Rico prior to 1952.

5 JUSTICE GINSBURG: Mr. Landau, could you 6 finish your answer to my question? You said yes, as far 7 as what the federal Congress can deal with, what the 8 federal prosecutors do, but the statute works both ways. 9 Are you saying it couldn't -- Congress has 10 no power to do that with respect to Puerto Rico? 11 MR. LANDAU: I would say, Your Honor, that 12 that raises a very interesting and tricky issue with 13 respect to the compact that the 1950 Public Law 600 14 offered the people of Puerto Rico that was accepted. As this Court said in the Flores de Otero case in the 15 1970s --16 17 JUSTICE GINSBURG: You're saying it's a hard

18 question, but you haven't given me --

MR. LANDAU: Well, I -- I -- I think the answer is probably not, insofar as this Court said -and I'm not saying this myself. I'm quoting this Court. Congress relinquished control over the organization of the internal affairs of the Island.

Now, one point to make very, very clear:
Our position today on the double jeopardy issue does not

Alderson Reporting Company

1	turn on that relinquishing issue. But to answer your
2	hypothetical specifically, if Congress started to tell
3	the Puerto Rico prosecutors what cases they may
4	prosecute, that might raise some serious questions
5	under
6	JUSTICE GINSBURG: Just take the statute as
7	it is. Just add Puerto Rico
8	MR. LANDAU: Right
9	JUSTICE GINSBURG: not telling
10	prosecutors what to do in a particular case.
11	MR. LANDAU: Well, and and, again, Your
12	Honor, I think the critical point here, and I think what
13	is most telling going back to some of the colloquy that
14	just happened in the other case, Congress since 1952 has
15	never attempted to do anything like that, to tell the
16	people to exercise control over what the government
17	officials in Puerto Rico
18	JUSTICE SCALIA: That doesn't mean it
19	couldn't. That doesn't mean it couldn't change the law.
20	Is it essential to your case that we
21	recognize Puerto Rico as a sovereign?
22	MR. LANDAU: It is not essential that you
23	recognize Puerto Rico as a sovereign with a capital "S,"
24	because if you get 12 political
25	JUSTICE SCALIA: That's our usual double

Alderson Reporting Company

1 jeopardy law, isn't it? 2 MR. LANDAU: It -- it is --3 JUSTICE SCALIA: -- two sovereigns, it's a 4 different matter. 5 MR. LANDAU: It is the shorthand that this 6 Court has typically used, the dual sovereignty doctrine. 7 But the court made clear this is the lesson of the Wheeler case where the court was -- the Ninth Circuit 8 9 said, gee, these Indian tribes don't look like 10 sovereigns to us, because they are subject to the plenary control of Congress. That's not what we 11 12 typically think of as sovereigns. 13 And this Court says you're missing the 14 point, Ninth Circuit. What we mean in the context of 15 double jeopardy, the language we are construing is the same offense. Laws -- offences created by two different 16 entities are not the same offense if they flow from 17 18 different sources of court. 19 JUSTICE KAGAN: Well, I don't understand how 20 that helps you, Mr. Landau. You're saying that the test is what the source of authority is, and you're saying 21 22 that the source of authority here is the Puerto Rican 23 people. 24 MR. LANDAU: Correct. 25 JUSTICE KAGAN: But that seems to be just --

you're not taking another step back. What's the source of authority of Puerto Rican people? The source of authority of Puerto Rican people was a Congressional act. If you go back, the ultimate source of authority is Congress.

6 MR. LANDAU: That, Your Honor, is the crux 7 of the case. And with all respect, I disagree with the 8 suggestion that the ultimate source here is Congress. 9 Congress could be -- what Your Honor just described is 10 very much like a home rule jurisdiction, where, let's 11 say, you have the Virgin Islands legislature that passes 12 a Virgin Islands law. But that government of the Virgin 13 Islands is itself a creature of Congress, as was the 14 government of the Philippines in the early 1900s, and Puerto Rico in '30s at the time of the Shell case. 15 16 What made all the difference in the world, 17 Your Honor, was in 1950 to '52 Congress said, we recognize and fully endorse the government -- the 18

19 concept of government by consent. So we are not 20 delegating authority to --

JUSTICE KAGAN: Well, but Congress today, if it felt like it -- and of course it won't. But if it felt like it, could Congress go back on that decision? MR. LANDAU: Well, this then goes to the relinquishment issue, Your Honor, in terms of what is

Alderson Reporting Company

1	the nature of the compact. This has been a very
2	emotional and hot-button issue in Puerto Rico. As Chief
3	Judge McGruder noted in his article in 1953 already,
4	there were divergent views at the time from the very
5	outset on whether
6	JUSTICE KENNEDY: Well, suppose we assume
7	that Congress could rescind the existing compact.
8	MR. LANDAU: Right.
9	JUSTICE KENNEDY: Do you then lose your
10	case?
11	MR. LANDAU: Absolutely not, Your Honor. And
12	that is
13	JUSTICE KENNEDY: Why?
14	MR. LANDAU: Because this is, again, the
15	lesson of Wheeler. It was uncontested in Wheeler that
16	plenary congressional control over the Indians over
17	the Indian tribes meant that Congress could abrogate
18	Indian sovereign immunity with the stroke of a pen, and
19	even abrogate the tribes and derecognize the tribes.
20	But that didn't mean that the existing tribal laws at
21	the time were not considered the laws of the separate
22	tribes
23	JUSTICE KENNEDY: Are there you know,
24	"sovereignty" is a slippery word. That's why the
25	framers didn't use it in the constitution.

Alderson Reporting Company

1	Are you suggesting there's kind of a second
2	class sovereignty and a first class sovereignty?
3	MR. LANDAU: Well, Your Honor, I I
4	couldn't agree more with your insight, that
5	"sovereignty" is a slippery word. If you got 12
6	political philosophers, they would all give you a
7	different answer as to what "sovereignty" means. And I
8	think that is precisely why Wheeler said we can't have
9	judges and courts trying to decide double jeopardy
10	questions by asking abstract questions of sovereignty,
11	because, you know, even the State sovereignty is
12	different than the sovereignty of the independent
13	nations. They don't have ambassadors, et cetera. So
14	what this Court has made clear is that the test in the
15	double jeopardy context is all about the source of
16	authority for the laws.
17	And going back to Justice Kagan's question,

d going back to Justice Kagan's question, 18 which I think cuts to the heart of the case, in this 19 particular case Congress said, we -- and this is 20 pursuant to demands for -- by the people of Puerto Rico 21 for government by consent. The people of Puerto Rico 22 said, we are tired of being a colony. We want to create 23 our own government. And so the Constitution of Puerto 24 Rico could not be more explicit on this score, that it 25 says, "The political power of the Commonwealth emanates

Alderson Reporting Company

from the people." That document was submitted to the Puerto Rico voters. So you're a Puerto Rico voter and you say this is what I'm voting for. It was submitted to the President of the United States and Congress, who approved that particular --

6 JUSTICE GINSBURG: Mr. Landau, we have a 7 situation as a result of the decision of the Supreme Court of Puerto Rico. I think it was two of the 8 9 justices who said we're not going to get into this 10 business about the Constitution. We think, interpreting our own double jeopardy provision, somebody should not 11 12 be tried a second time. So that's going to be the law 13 of Puerto Rico. That's -- if the Puerto Rico Supreme 14 Court said that, then we would have the situation that 15 has led us to grant cert in this case. That is, if you 16 have a prosecution first in the Federal government, then 17 Puerto Rico will not have a second prosecution. You have it first in Puerto Rico. The Federal government is 18 free to institute a second prosecution. 19

20 MR. LANDAU: You're absolutely -- you're 21 absolutely right, Your Honor. And that was the position 22 of two of the nine justices on the Supreme Court of 23 Puerto Rico. That position did not command a majority, 24 which is why there's no adequate and independent State 25 ground here. The majority was very explicit --

1	JUSTICE GINSBURG: And they could. They
2	could. If if the if we told the majority you're
3	wrong, nothing would prevent them from agreeing with
4	those two justices, right?
5	MR. LANDAU: No, that's absolutely right.
6	And and about 21
7	JUSTICE GINSBURG: Then there's no way you
8	could break that situation of having it depends on
9	which which jurisdiction goes first.
10	MR. LANDAU: That's correct, Your Honor.
11	And that that is true in about 21 states, that as a
12	matter of State law, either statutory or constitutional,
13	do not allow a subsequent prosecution.
14	But again, that doesn't change the point.
15	What what made a cert grant appropriate and
16	intolerable was that the Federal was the difference
17	between the Federal and State courts in Puerto Rico on
18	the federal constitutional question. It was not if one
19	were Federal and one were State.
20	JUSTICE SOTOMAYOR: Mr. Landau, there's
21	something you said that resonates with me, 'cause I've
22	been trying to find a definition of "sovereignty." And
23	one has been created in the briefing by saying that
24	states are sovereign; yet if you look at international
25	usage, they wouldn't consider states necessarily

1 sovereign because they can't order their foreign 2 affairs. They can't print money. They can't do lots of 3 things that others would consider them sovereign for. 4 So I quess the Constitution does something else with that word. What is it -- what are the 5 6 elements of sovereignty with respect to the Double 7 Jeopardy Clause that you think are commanded by our case law? There -- there's more than just the Puerto Rican 8 9 people say. 10 MR. LANDAU: Absolutely. 11 JUSTICE SOTOMAYOR: And it can't be that 12 it's the compact alone. So what is it? What are the 13 principles --14 MR. LANDAU: Absolutely. 15 JUSTICE SOTOMAYOR: -- that you meet that 16 would create sovereignty in the Double Jeopardy sense? 17 MR. LANDAU: To -- to take your -- your 18 question in turn, Your Honor, this Court has made it clear in a series of cases starting in Wheeler in 1978 19 20 that really tries to synthesize what the Court has been saying with respect to the dual sovereignty doctrine 21 22 over a century. 23 And what the Court said is, in the Double 24 Jeopardy context, we are trying to decide whether two offenses from different entities are the same offense. 25

Alderson Reporting Company

1	That has traditionally been called "dual sovereignty."
2	But what we mean by "dual sovereignty" in
3	this context doesn't require this broader let's
4	say I'll call it "sovereignty with a capital S"
5	inquiry. It is a much more targeted and narrow inquiry
6	into is the the source of authority for each
7	offense.
8	JUSTICE SOTOMAYOR: Now, I'm looking at
9	Lanza, and it says I think Lanza says, and it's a
10	Double Jeopardy
11	JUSTICE KAGAN: Right.
12	JUSTICE SOTOMAYOR: Clause, that for
13	Double Jeopardy Clause purposes, sovereignty means, one,
14	that the separate entity possesses the authority to
15	determine what shall be an an offense against their
16	peace and dignity; two, can enact laws without the
17	interference of the other; and, three, draws authorities
18	to punish the offender and this is the one that
19	you've been arguing from a distinct source of power
20	from the other sovereign.
21	MR. LANDAU: Right.
22	JUSTICE SOTOMAYOR: And and you keep
23	saying it's the Constitution. It's the "We the People."
24	It sounds a a bit histrionic to me. It there's
25	something else. What is meant

1 MR. LANDAU: It is, Your Honor. And I --2 and I --3 JUSTICE SOTOMAYOR: -- by this distinct 4 source of power? 5 MR. LANDAU: If -- if could just say -- make 6 two quick points in response to that. 7 First, Lanza is not the last word on this because Wheeler, in the '70s, clarified what Lanza meant 8 9 because, for instance, the Ninth Circuit in Wheeler said, well, the Indian Tribes don't fit the Lanza 10 11 definition because Congress has plenary authority to 12 overrule at any time. So that goes to the first part of 13 your question. 14 To the second part of your question, it is 15 Congress acting in tandem with the people of Puerto Rico that's critical. In other words, it is certainly not 16 17 the people of Puerto Rico that could unilaterally and without reference to Congress just say, guess what? We 18 are the source of authority of our own laws. And -- and 19 20 that would be the end of the story. 21 JUSTICE GINSBURG: Mr. Landau, I thought 22 that, in the -- in the case of the Indian Tribes, 23 what -- what the Court said is they were once sovereign 24 before we got here and we took some of that sovereignty 25 away.

15

1 That's not the case with Puerto Rico. 2 MR. LANDAU: Yes. We are certainly not 3 saying that we are absolutely on all fours with the 4 Indian Tribes. There are -- what Your Honor said is 5 true. Although one thing to keep in mind, of course, is 6 that not all tribes proceeded the -- the -- the creation 7 of the United States. In fact, if Congress can 8 recognize Indian Tribes to this day, the standard is 9 under 25 C.F.R. 83.7. And an entity that existed as 10 recently at 1900 can still be considered an Indian 11 tribe. So --12 JUSTICE GINSBURG: But the rationale was 13 that the tribes had this sovereignty, and that's what 14 was being respected. 15 MR. LANDAU: That -- that -- that is 16 correct, Your Honor. The -- the -- the tribes had an 17 inherent sovereignty. But I think the point for Double Jeopardy purposes doesn't require the inherency. It 18 19 just requires a -- a recognition by Congress of an 20 exercise of sovereignty. And that goes, I think --JUSTICE BREYER: Well, what is it? That is, 21 22 look. If we simply write an opinion and it says, Puerto 23 Rico is sovereign, that has enormous implications. 24 MR. LANDAU: It does. 25 JUSTICE BREYER: The insular cases are

Alderson Reporting Company

1 totally changed in their applications. 2 MR. LANDAU: Right. 3 JUSTICE BREYER: The political implications 4 I'll just stay away from. 5 On the other hand, if we write an opinion 6 that says it's just a territory, that has tremendous 7 implications. 8 MR. LANDAU: Correct. 9 JUSTICE BREYER: How did we tell the UN it 10 wasn't a colony? Why are we not reporting on this colony every year? 11 12 MR. LANDAU: Correct. 13 JUSTICE BREYER: So either way, between 14 those two, the implications in law and in politics and 15 everything else are overwhelming. 16 Therefore, you argue a third and middle position. Your position pointing to four cases in this 17 18 Court, so you have very good authority. It's for Double Jeopardy purposes. There is a different question. 19 The 20 question is what are the sources of the law? And then I find four cases that say just what you said. Okay? 21 22 Now, you say the sources of the law, the 23 sources of criminal law here are different. Okay. What 24 I think Justice Sotomayor wanted you to say is explain 25 that.

Alderson Reporting Company

1 MR. LANDAU: Yes. 2 JUSTICE BREYER: Take a little time, if you 3 like. In what way are they different? MR. LANDAU: Absolutely, Your Honor. 4 5 They are different, Your Honor, because 6 Congress invited -- in Public Law 600, Congress said, we 7 recognize the principle of government by consent. That is something that we, as Congress rightly --8 9 JUSTICE SOTOMAYOR: Going back to the political issues. And -- and -- and that's what I think 10 11 Justice Breyer is trying to stay away from. 12 This is a very simple question. 13 MR. LANDAU: Okay. 14 JUSTICE SOTOMAYOR: All right? Can the 15 Federal government override a Puerto Rican law? MR. LANDAU: Your Honor --16 17 JUSTICE SOTOMAYOR: Can they --18 MR. LANDAU: This goes to --19 JUSTICE SOTOMAYOR: Can they veto a Puerto 20 Rican law? 21 MR. LANDAU: No, absolutely not. 22 JUSTICE SOTOMAYOR: All right. 23 MR. LANDAU: They cannot. 24 JUSTICE SOTOMAYOR: Who makes these laws? 25 MR. LANDAU: The people of Puerto Rico --

1 well, the legislative assembly, the -- the -- the
2 legislative powers of which were vested by the people of
3 Puerto Rico in the legislative assembly. In other
4 words, the Puerto Rico Constitution could not be more
5 specific in saying "We, the people of Puerto Rico, in
6 exercise of our" --

JUSTICE SOTOMAYOR: The laws were made by8 Puerto Rico's comparable Congress.

9 MR. LANDAU: That is correct, Your Honor. And -- and this is the -- I think the point I'd really 10 like to underscore, because I think it's critical here, 11 12 is this arrangement was not something that Puerto Rico 13 did as a roque usurpation of authority. This was 14 pursuant to the invitation of Congress and with the 15 blessing of Congress. That was submitted to the 16 Congress. The Congress saw that language.

JUSTICE KAGAN: Even in saying that,
Mr. Landau, you're putting Congress in the driver's seat
here: It was done at the invitation of Congress.
Congress approved it. Presumably Congress can unapprove

21 it if Congress ever wished to.

22 So if Congress is in the driver's seat, why 23 isn't Congress the source of authority for the purposes 24 of our Double Jeopardy jurisprudence --

25 MR. LANDAU: Because --

Alderson Reporting Company

1	JUSTICE KAGAN: which seems to make that
2	the issue? I mean, you can imagine a different Double
3	Jeopardy jurisprudence where the issue was who just
4	exercises authority in the real world? But that seems
5	not to be what we ask.
6	MR. LANDAU: That's that's correct.
7	That's correct. And I think that that the key point
8	that I'd like to make, Your Honor, is that you have to
9	look at Congress has plenary authority over the
10	territories under the Territorial Clause. Our position
11	is that Congress is not the prisoner of its plenary
12	authority; it is the master of plenary authority.
13	And therefore, when Congress can decide
14	that, for the long-term future of Puerto Rico, it does
15	not think it is appropriate or good for for Puerto
16	Rico or the United States to have direct or delegated
17	Federal power in Puerto Rico. It says we accede to
18	the the request of the Puerto Rican people to create
19	their own government and to be the source of authority
20	of their own law.
21	So that's what Congress invites. The people
22	of Puerto Rico accept the invitation. They enact a
23	Constitution that is entirely explicit saying the
24	political power of the Commonwealth creates the
25	structure, creates a legislative authority, vests the

1 courts of Puerto Rico with judicial authority --2 JUSTICE KENNEDY: Let -- let's call this --3 this theory of yours interim sovereignty. Are there any 4 examples in international law of interim sovereignty? 5 Are there any examples in international law 6 or in the United States' experience of a dichotomy such as you suggest? 7 MR. LANDAU: Your Honor, again, I think --8 9 JUSTICE KENNEDY: I -- I -- I just don't 10 know the answer to that. 11 MR. LANDAU: I think that -- that -- that, in a sense, the danger of that is that's already going 12 13 back to asking about concepts of sovereignty. And I 14 think the more one asks those more abstract questions, it gets away from what is a much simpler question, which 15 is -- I think this goes back to Justice Sotomayor's 16 point, which is what is -- we have before us here --17 we -- this is a specific case or controversy. 18 19 Nobody's asking the Court to make a broad 20 political statement. All we want to know is may Puerto 21 Rico, may the Commonwealth prosecutors prosecute these 22 particular Puerto Rico Commonwealth gun charges or --23 and ammunition charges? Okay? 24 The -- the source of authority for these particular laws is the legislature of Puerto Rico, and 25

that legislative authority does not come from delegated 1 2 power from Congress. 3 CHIEF JUSTICE ROBERTS: Why does that --4 MR. LANDAU: That's what distinguishes this 5 from municipalities -- I'm sorry. 6 CHIEF JUSTICE ROBERTS: Why does -- why does 7 the Commonwealth of Puerto Rico have that authority? Where did it come from? 8 9 MR. LANDAU: The -- Congress can recognize 10 and invite an exercise of sovereignty, just like this 11 Court recognized in Lara. 12 CHIEF JUSTICE ROBERTS: But it had complete 13 authority under the Territorial Clause whether to do 14 that or not, right? 15 MR. LANDAU: That's correct. And that is 16 exactly --CHIEF JUSTICE ROBERTS: So that would --17 I -- it would seem to me, then, that the authority to do 18 it came from Congress when they passed the --19 20 MR. LANDAU: But --CHIEF JUSTICE ROBERTS: -- the law 21 22 authorizing Puerto Rico to adopt a Constitution of its 23 own. 24 MR. LANDAU: But -- but this -- you just said authorizing. I think the key point is it invited 25

Puerto Rico. And -- and what it did is the Constitution that Puerto Rico adopted and that Congress then accepted specifically says political power emanates from the people. So Your Honor, I think --CHIEF JUSTICE ROBERTS: Why is -- I mean,

6 you seem to fix on invited as somehow different than 7 authorized.

8 MR. LANDAU: Well, even if you said -- I 9 guess the point is authorized sounds like a delegation 10 of authority.

11 I think the point is Congress said, look, you go adopt your own constitution. That in and of 12 13 itself doesn't necessarily answer the question of where 14 the authority from that constitution comes from. But 15 again, when it says fully recognizing the principal of 16 government by consent, this is what the people of 17 Puerto Rico wanted. They wanted to -- to create their own government. They didn't want to have another 18 19 Organic Act. 20 JUSTICE SCALIA: Aren't there territorial 21 legislatures?

22 MR. LANDAU: There are indeed, Your Honor. 23 In -- in --

24JUSTICE SCALIA: What's the difference?25MR. LANDAU: The difference is --

JUSTICE SCALIA: Why -- why can't you say the laws they enact have as their source the -- the people of the territory?

MR. LANDAU: You could. And in fact, that was the tradition in the 19th century. We cited a number of cases -- of course there weren't a lot of these kind of cases in the 19th century because the Federal government had very, very limited criminal power. So these come up in things like counterfeiting money and selling liquor to the Indians.

11 But -- but so -- so the --

JUSTICE GINSBURG: May I just ask you a question about that? I don't quite understand because this -- this whole issue is a result of a five-to-four decision of this Court in the 1950s, right? Bartkus. JUSTICE SCALIA: Bartkus.

MR. LANDAU: But yeah, I mean, certainly --JUSTICE GINSBURG: So -- so talking about cases before that, there was just -- there was no issue before that.

21 MR. LANDAU: Well, Your Honor, certainly 22 the -- the principle of dual sovereignty had been 23 recognized by this Court as early as the 1840s; in other 24 words, that -- that two offenses for Double Jeopardy 25 purposes were not the same if -- if they were created by

24

1 different entities with something that this Court had 2 recognized, albeit in --3 JUSTICE GINSBURG: Recognized how, because 4 this was -- it was a very close case, as you know. 5 MR. LANDAU: Absolutely. Absolutely. And 6 again --7 JUSTICE GINSBURG: And so I don't think it was settled before then. 8 9 MR. LANDAU: Well, but it -- it was 10 something that -- it has been an issue that had divided 11 people in the Court. In the more recent cases since the 12 1950s, it has not been a particularly divisive issue. 13 And just to be clear in this case, there is no call by 14 the other side to overrule --15 JUSTICE GINSBURG: I'm questioning you 16 looking back before the Bartkus case, for precedent. MR. LANDAU: Right. But Bartkus didn't come 17 out of the blue, Your Honor. Bartkus has antecedents. 18 19 Lanza was the first case in 1922 when 20 prohibition is what really suddenly had federal criminal laws that were quite widespread throughout the country. 21 22 And Lanza is, I think, the first case you can 23 characterize as a square holding of this case on the 24 dual sovereignty doctrine. It continued to be a somewhat controversial 25

Alderson Reporting Company

1 doctrine up until the 1950s, and then it's been, I
2 think, settled since then. And it's not been challenged
3 in this case.

JUSTICE SCALIA: Mr. Landau, I'm not sure you answered my question about why territorial legislatures are different.

7 MR. LANDAU: They are different because 8 those -- the other ones are Home Rule legislatures. In 9 other words, there's a Virgin Islands Organic Act, 10 there's a Guam Organic Act. So Congress -- and a D.C. 11 Home Rule Act.

12 Congress created that government structure 13 and endowed it with authority. Pursuant to what 14 Congress did, the people have a certain degree of 15 autonomy. They elect their legislators. D.C. has D.C. 16 laws. The Virgin Islands has Virgin Islands law. You 17 know, to some extent or other those can be vetoed, 18 maybe, by Congress.

JUSTICE SCALIA: If you say that the issue is the source of the law in question, it seems to me that the territorial legislature is as much the source of a law as is the legislature of Puerto Rico.

23 MR. LANDAU: The question, Your Honor, is 24 the ultimate source of authority for the law. So when 25 you have a Home Rule jurisdiction -- again, this is --

Alderson Reporting Company

1 I'm not saying that this is what this Court has held, 2 that when you have a Home Rule jurisdiction -- this is 3 the Waller case, for instance, where it's a 4 municipality, was clearly -- the city council was the 5 source of the law. But the ultimate source of the law 6 was delegated power from the State. 7 The critical point here is that the 8 Commonwealth of Puerto Rico, the legislative assembly of 9 Puerto Rico -- this goes back to Justice Sotomayor's 10 point and Justice Kagan's point -- is not exercising 11 power delegated by Congress --12 JUSTICE KENNEDY: I see your -- I see your 13 time is getting up. It seemed to me that in a way, if 14 you answered Justice Scalia's question, well, yes, it 15 is -- it is true that local legislature is the source of 16 the law, and there is Double Jeopardy there too. Yes. 17 MR. LANDAU: Well, you -- again, that would be another way of looking at the -- at the issue. And 18 that, frankly, was the historical way of looking at it. 19 20 If you go back to the 1850s cases, they said territories, which at that time were creatures of 21 22 Congress, that was considered to be a separate sovereign 23 for Double Jeopardy. That's the historical antecedent. 24 But in the 20th century, particularly in Wheeler and the more recent cases, the Court has said the question is 25

Alderson Reporting Company

1 the ultimate source of authority. 2 The ultimate source of authority for the 3 laws of Puerto Rico, unlike the ultimate source of 4 authority for the laws of the Virgin Islands, is the 5 people of Puerto Rico, not Congress. 6 I'd like to reserve the balance of my time. 7 CHIEF JUSTICE ROBERTS: Thank you, counsel. 8 Mr. Unikowsky. 9 ORAL ARGUMENT OF ADAM G. UNIKOWSKY 10 ON BEHALF OF THE RESPONDENTS 11 MR. UNIKOWSKY: Mr. Chief Justice, and may it please the Court: 12 13 Under our Constitution, States are sovereign 14 and territories are not. 15 Although Puerto Rico has indisputedly achieved a historic degree of autonomy, it remains a 16 territory under Article IV. As such, it cannot be 17 18 considered sovereign for Double Jeopardy purposes. 19 An unbroken line of this Court's Double 20 Jeopardy cases has stated, both before and after the enactment of the 1952 constitution of Puerto Rico, that 21 22 territories are not sovereign for Double Jeopardy 23 purposes. 24 JUSTICE KAGAN: It does seem, Mr. Unikowsky, as if Congress has given Puerto Rico as much authority 25

1 as it possibly could have short of making it a State 2 itself. Do you disagree with that? 3 MR. UNIKOWSKY: Well, two responses. One, 4 yes, I disagree with that. And two, even if I agreed with that, we do think that there is a sharp dividing 5 6 line between States and territories for constitutional 7 purposes. 8 JUSTICE BREYER: What kind of territory is 9 it? 10 MR. UNIKOWSKY: It is a -- we think there's 11 only one type of territory --12 JUSTICE BREYER: There is. The -- the 13 insular cases have at least two. 14 MR. UNIKOWSKY: Well, yes. The insular cases that hold that it is considered an unincorporated 15 16 territory. That is true. 17 JUSTICE BREYER: Okay. So it's that kind. 18 MR. UNIKOWSKY: Yes. 19 JUSTICE BREYER: Now, what is Estado Libre 20 Asociado? MR. UNIKOWSKY: Your Honor, I believe that's 21 22 a case that just construed a Federal statute to hold --23 JUSTICE BREYER: No, no. I just wonder as 24 it appears in the Constitution of Puerto Rico. 25 MR. UNIKOWSKY: Well --

Alderson Reporting Company

1 JUSTICE BREYER: The alternative of the word 2 Commonwealth. 3 MR. UNIKOWSKY: Well, Your Honor --4 JUSTICE BREYER: I just wonder what it is. 5 MR. UNIKOWSKY: We believe that the 6 Constitution does not include that as a constitutional 7 category, just as it doesn't --8 JUSTICE BREYER: Where does it say in the 9 Constitution that Congress cannot? After all, Congress can admit a State. It says that specifically. 10 11 MR. UNIKOWSKY: It certainly does --12 JUSTICE BREYER: Talks about territories. 13 So you're saying Congress and the President too do not 14 have the authority to associate with some other entity under the form of Estado Libre Asociado? 15 16 MR. UNIKOWSKY: That is correct, Your Honor. JUSTICE BREYER: Where does it say that in 17 18 any of our cases? 19 MR. UNIKOWSKY: Well, I think the Yankton 20 case very clearly says that if a portion of land is not in a State, then it has to be under a territory. 21 22 JUSTICE BREYER: And what are the Indians? 23 MR. UNIKOWSKY: Your Honor, the Indian 24 tribes are a sui generis category explicitly recognized in the Constitution --25

30

1	JUSTICE BREYER: Because because we do
2	not recognize explicitly in the Constitution
3	"Commonwealth," therefore there is no Commonwealth? Is
4	that what you want us to say?
5	MR. UNIKOWSKY: I want you to say that this
6	Court has already held in the Harris case that
7	Puerto Rico is a territory. And not only that, that
8	JUSTICE BREYER: With some purposes. But
9	the the issue here, as I see it which maybe will
10	take a second is there are four cases that say we
11	don't have to reach these grand questions. All we have
12	to do is decide what the source of power is.
13	Now their argument is that even if you go
14	back to the Foraker Act, which indeed did have the
15	people of Puerto Rico making laws, and if you then add
16	the Resolution 600 which delegated the authority to make
17	the Constitution, the Constitution itself which speaks
18	of "We the People" of Puerto Rico making a law, the fact
19	that later Congress and the President said Puerto Rico
20	has a Republican form of government, the fact that
21	subsequent to that we went to the United Nations and had
22	them withdraw the requirement to report on a colony
23	because Puerto Rico is not a colony and you know
24	the words as well as I, and they sure sound like
25	"sovereign."

1	And in Valle, which no one mentions,
2	Trias Monge wrote that in fact all these laws and he
3	was talking about civil, but I suppose it applies to
4	Commonwealth too are to be interpreted in light of
5	the civil code tradition of Europe, which was the
6	tradition that applied prior to 1900, and not the common
7	law.
8	I don't see, when you put all those things
9	together, if you're looking at the facts of what the law
10	of Puerto Rico is in the area, it sounds to me like it's
11	civil code coming out of a constitution which I grant
12	you was given by authority of Congress. So there we
13	are.
14	Now five things they've listed there that
15	make it different, not only from anything you can think
16	of but from anything I can think of. So why don't you
17	reply to those five things, if you want.
18	MR. UNIKOWSKY: Your Honor, those five
19	things established
20	JUSTICE SCALIA: Take your time.
21	(Laughter.)
22	MR. UNIKOWSKY: I think those features of
23	Puerto Rico and others established that Puerto Rico has
24	undoubtedly achieved a significant degree of autonomy,
25	but those characteristics are not the characteristics

1 that matter for sovereignty purposes or for Double 2 Jeopardy purposes. The question is the ultimate source 3 of power, and here the ultimate source of power is 4 Congress, which delegated the authority to enact the 5 Puerto Rican Constitution. 6 And I'd also point out that if one 7 looks at the characteristics of sovereignty as defined in the Constitution and this Court's cases, Puerto Rico 8 9 doesn't have them. 10 For instance, in the Alden cases, this Court explained one of the reasons we call States sovereign is 11 12 that one cannot frame their generally -- general police 13 power as the delegation of Federal power because the 14 Federal government doesn't have a general police power 15 in the States, so there's nothing to delegate. That's just not true in Puerto Rico where --16 17 JUSTICE SOTOMAYOR: But that was not true of 18 many of the territories that were admitted as States. 19 They came in to Statehood and were conferred by a -- the 20 sovereignty was conferred by a -- agreement with the Federal government. And States were admitted by 21 22 agreement, and sovereignty were confirmed on them by 23 agreement. 24 And so are you telling me that if -- let's

Alderson Reporting Company

say one of the islands in the Caribbean. I'll make one

up. Okay? 2 Atlantis has been -- never kicked out its 3 foreign colonial status 200 years ago, but it really 4 doesn't have many resources. And it comes to the United States and it says, I want a treaty. You'll take 5 6 care of all of our external affairs. We'll follow 7 whatever you say with respect to external affairs. We're even going to use the American dollar 'cause it's 8 9 convenient, but you can't touch our internal affairs. And Congress approves that treaty. Would that, for 10 Double Jeopardy purposes, not be a sovereign? 11 12 MR. UNIKOWSKY: I think it wouldn't be a 13 sovereign if that was not part of the United States, not 14 subject --15 JUSTICE KENNEDY: I couldn't hear. Would or wouldn't? 16 17 MR. UNIKOWSKY: It wouldn't. So for 18 instance, we can see that Micronesia and Palau, which are not independent countries, I believe in the 19 20 United Nations, are -- are genuinely sovereign, even though there are defense agreements with the 21 22 United States because the United States has foreign 23 allies with whom they have many treaties and 24 relationships, and those foreign allies may be

sovereign, but those aren't territories. They're not --25

Alderson Reporting Company

1 the American flag doesn't fly over them, they're not 2 subject to plenary power of Congress and Federal law. 3 That's the distinction in Puerto Rico, which is, indisputably, a territory --4 5 JUSTICE SOTOMAYOR: But if Congress has that 6 treaty power, why does it have similar power under its 7 Rule and Regulation Clause of the Constitution? There's no limiting principle of what rules and regulations 8 9 Congress can make. MR. UNIKOWSKY: Well, let me refer, Your 10 Honor, both to --11 12 JUSTICE SOTOMAYOR: Under that --13 MR. UNIKOWSKY: I apologize. 14 JUSTICE SOTOMAYOR -- under that 15 constitutional clause, there's no suggestion of how or even what kinds of treaties -- perhaps not in violation 16 of the Constitution, but what kind of treaties Congress 17 18 And it makes an awful large number of them. can make. 19 MR. UNIKOWSKY: It does, Your Honor. But 20 let me refer to both the constitutional text and structure as the basis of our argument. Beginning with 21 22 the text, Article IV characterizes territories as, 23 quote, "belonging to the United States." And we believe 24 that is antithetical to the concept of sovereignty. 25 Congress has the ultimate power to enact a

Alderson Reporting Company

1 wide variety of the governmental forms in the 2 territories, but the sine qua non of a territory is 3 that, in fact, Congress does possess that power. And I'd also refer to the constitutional 4 5 structure. The framers of our Constitution split the 6 atom of sovereignty between the Federal government and 7 the States. And I think that presupposes that the question of what types of sovereigns would exist in the 8 9 United States is a question of constitutional --JUSTICE BREYER: The Indians. What about 10 the Indians? 11 12 JUSTICE KAGAN: Mr. Unikowsky, it sure seems 13 as though in the early 1950s, Congress with respect to 14 Puerto Rico, said we want to give it some sovereign 15 authority. We want to give it an enormous amount of Home Rule authority, basically everything, and we also 16 17 have some idea in our heads that Puerto Rico ought to be a sovereign with all the things sovereigns have like a 18 Constitution and a "We the People" clause. 19 20 And -- and why isn't that something -it's -- it's an unusual idea, to be sure, a -- a 21 22 sovereign territory. But Congress seems to have wanted 23 to do exactly that. 24 MR. UNIKOWSKY: Well, I'd first push back on your premise. I don't think that's what Congress wanted 25

1 to do. I think that the history, the legislative 2 history, and the -- the events, the historical record, 3 show that Congress wanted to delegate autonomy, which is 4 different from creating a sovereign. 5 So first I'd -- I'd turn to the issue of 6 Section 20 in which Congress just unceremoniously 7 stripped a portion of the Puerto Rican Constitution and permanently barred Puerto Ricans from enacting --8 9 reenacting it. That is not consistent with what I think 10 we ordinarily consider a sovereign. 11 And I'd also point to the legislative 12 history and record. I mean, there's testimony from the 13 Secretary of the Interior, from The Resident 14 Commissioner of Puerto Rico, from the Governor of 15 Puerto Rico, in the House report, in the Senate report. All of that seemed to contemplate that the political 16 17 status of Puerto Rico wouldn't change and this was just 18 a delegation. 19 I mean, there was actually a hearing we 20 quote on page 30 of our brief where the chairman of the 21 relevant Senate committee basically tells everybody 22 that, in fact, Congress's powers over Puerto Rico 23 wouldn't be altered at all; that ultimately this was a 24 delegation of power that one -- that was revoked and

25 wouldn't change Congress's ultimate power over

Alderson Reporting Company

1 Puerto Rico.

2 So I actually think it's Petitioner's 3 position that really is fundamentally inconsistent with the historical record as it existed at the time. 4 5 We don't dispute that there's -- this is 6 historic legislation. I mean, it's true. Petitioner's 7 brief characterizes the 1950 to '52 legislation as, 8 quote, "path marking." And we actually agree with that, 9 it was path marking. It was historic legislation that delegated a significant amount of power to the people of 10 Puerto Rico, and it was very historically important, and 11 12 remains important today. 13 But there is a difference, a meaningful 14 constitutional difference between the delegation of 15 power and the conferral of sovereignty. The former occurred in Puerto Rico, as it has occurred in other 16 territories. The latter can only apply to States within 17 18 our union. 19 JUSTICE KENNEDY: And is -- is our argument 20 so abstract that it doesn't acknowledge real practicalities of multiple prosecutions? Of -- of 21 22 course Mr. Landau couldn't come up and say, please 23 forget Heath and Wheeler and Walter and Grafton. Let's 24 do something other than sovereignty. 25 Has there been any suggestion by

Alderson Reporting Company

1 commentators and so forth that this whole inquiry of 2 sovereignty and source of power is a little bit 3 misplaced?

Of course, you have the problem with the cities within its -- within separate -- within one State, which is, it seems, ought to be subject to a single rule. But have there been any commentaries that lead us to another approach altogether? I don't think we're going to overrule four cases, but --

10 MR. UNIKOWSKY: I will acknowledge that 11 there has been some larger articles suggesting that this 12 whole line of cases is wrong and the Court should look 13 to something else, to autonomy. But certainly this 14 Court's cases, going back a century, haven't followed 15 that approach at all.

And I actually think the municipality example is a very good one for us because cities regularly enact Home Rule charters through a very similar type of Democratic process that Petitioner describes for Puerto Rico.

The fundamental principle of Petitioner's position here is that the enactment of a -- of a charter of local self-government setting forth the parameters for local self-government in and of itself leads to sovereignty. That's how they distinguish the Shell

Alderson Reporting Company

1 case. But if that's true, the -- there's no limiting 2 principal because municipalities do that all the time. 3 I didn't fully understand --4 JUSTICE KAGAN: Mr. Unikowsky, you -- you 5 said before that Congress didn't mean to confer 6 sovereignty here. Do you think Congress could do that? MR. UNIKOWSKY: No, Your Honor, it could 7 8 not. We think that the Constitution prohibits that, and 9 Congress's exercise of its powers was fully consistent with that constitutional requirement. 10 11 JUSTICE SOTOMAYOR: I'm sorry. You -you're saying to me that Congress can't make Puerto Rico 12 13 independent? 14 MR. UNIKOWSKY: Of course it could, Your 15 Honor. 16 JUSTICE SOTOMAYOR: So if it can do that, 17 why can't it have other arrangements with Puerto Rico the way it has with everybody else? Why are we saying 18 that with respect to territories they don't have that 19 20 power? 21 MR. UNIKOWSKY: Your Honor, I think if 22 Congress -- if Puerto Rico is to remain a territory, 23 which it is under Article IV, as this Court has held, 24 then Congress must retain the ultimate power. I think that follows from the constitutional structure in which 25

Alderson Reporting Company

1 the framers contemplated splitting the assets up --2 JUSTICE BREYER: We need to. I mean, we 3 told the UN, this doesn't sound like we said it was a 4 municipality. 5 MR. UNIKOWSKY: Your Honor --6 JUSTICE BREYER: UN said that Puerto Rico 7 has been invested with the attributes of political sovereignty, which clearly identify the status of 8 9 self-government attained by the Puerto Rican people. JUSTICE SCALIA: Who said this? This is the 10 11 UN? 12 JUSTICE BREYER: This is what we told the 13 UN. We told the UN that --14 (Laughter.) 15 JUSTICE BREYER: And on the basis of that --JUSTICE SCALIA: Who -- who is "we"? 16 17 (Laughter.) 18 JUSTICE BREYER: It's -- what it says 19 here --20 JUSTICE SCALIA: Who's we? JUSTICE BREYER: It consists of the 21 22 President of the United States. 23 JUSTICE SCALIA: The President said that? 24 JUSTICE BREYER: Or his delegate. His delegate. 25

Alderson Reporting Company

1 CHIEF JUSTICE ROBERTS: We need to involve 2 counsel in the dialogue. 3 (Laughter.) JUSTICE BREYER: I -- I have. You've read 4 5 the same thing. There are about ten words such as 6 "republic," "not a colony," "attributes of political 7 sovereignty," repeated in five or six key documents. 8 I do -- not everyone does -- happen to think 9 that what we tell the UN to get it removed from the 10 colony status bears some consideration. I grant you not everyone agrees with that, but that's my view of it. 11 12 Laughter. 13 JUSTICE BREYER: All right. And I guess 14 I -- all right. Forget it. 15 (Laughter.) 16 MR. UNIKOWSKY: Your Honor, we don't see any 17 inconsistency between what the State Department said and 18 our position today --19 JUSTICE BREYER: You said it was like a 20 municipality. I just think that having the attributes of political sovereignty, and being a republic, and 21 22 saying that the Constitution of Puerto Rico is the basic 23 document, whatever the language was there, don't sound 24 like a municipality. 25 MR. UNIKOWSKY: Your Honor, there are

Alderson Reporting Company

1 differences between a municipality and Puerto Rico, such 2 as Puerto Rico has a much more delegated power than the 3 typical municipality. That is undoubtedly true. But the -- there's no --4 5 JUSTICE SOTOMAYOR: You think that doesn't 6 have meaning? In most municipalities, their offenses 7 are treated as criminal offenses and not criminal 8 infractions. They can only pass laws with respect to a 9 very limited amount of issues. 10 The States have control over many, many other things. They are substantially different. Why 11 12 would we have bothered talking about the structure of 13 Florida's system with municipalities in Waller? We went 14 through how the State controlled all of the -- most of 15 the internal affairs of municipalities, and we said they 16 are not separate sovereigns because of this control. 17 All we could have said is what you want us to say now, which is municipalities' ultimate source is the State 18 19 government. 20 But we did something very different in that 21 case. 22 MR. UNIKOWSKY: Your Honor, may I answer? 23 CHIEF JUSTICE ROBERTS: Briefly. 24 MR. UNIKOWSKY: Yes, Your Honor. 25 I think that, already as of Shell, Puerto

Alderson Reporting Company

1	Rico enjoyed that broad police power. That's why
2	Petitioner's argument turns entirely on the existence of
3	the Constitution of Puerto Rico. And our point is that
4	the act of Constitution making, we don't think, can
5	confer sovereignty.
6	CHIEF JUSTICE ROBERTS: Thank you, counsel.
7	Ms. Saharsky.
8	ORAL ARGUMENT OF NICOLE A. SAHARSKY
9	FOR UNITED STATES, AS AMICUS CURIAE,
10	SUPPORTING THE RESPONDENTS
11	MS. SAHARSKY: Mr. Chief Justice, and may it
12	please the Court:
13	I think to respond to some of the questions
14	that have come up, I'd like to go back and address what
15	the Court has said this test is, for dual sovereignty in
16	the Double Jeopardy context, and why it's been using
17	that test.
18	And the test that the Court has consistently
19	used for the past 100 years is by looking to the
20	ultimate source of the authority, the laws for
21	prosecuting and the authority to prosecute. And the
22	reason that the Court has said that it's looked to that
23	ultimate source is because the dual sovereignty doctrine
24	rests on the basic structure of our Federal system.
25	That's what the Court said in Wheeler. And the Court

Alderson Reporting Company

1 has been very careful to quard who is a sovereign under 2 the Constitution and who is not, because, after all, 3 we're talking about a weighty power here, which is the 4 ability of two sovereigns to prosecute a person for an 5 offense with the same elements. 6 So if you trace the history of what this 7 Court has done, it started with Lanza and Grafton. 8 Lanza was a case about the Federal government as opposed 9 to the States. And the Court said should they have this 10 power to dual prosecute? Well, we look to the 11 Constitution, and the unique structure that was put in 12 place: The splitting the atom of sovereignty. And we 13 are in a circumstance where both the States and the 14 Federal government have this sovereign power. They 15 should both be able to prosecute. 16 But then the case -- the Court turned to

17 cases about the territories, which was the Shell case 18 about Puerto Rico, but then also the Grafton case about 19 the Philippines, and it said, no, the territories derive 20 their ultimate power from Congress. That's true by 21 virtue of the Territory Clause.

Now, one thing that the Court has considered in the course of those cases as they've evolved, I think, is the suggestion that Justice Kennedy made, which is maybe we should focus on something else like

Alderson Reporting Company

1 autonomy and the ability to prosecute, and what it looks 2 like practically, or on the ground. 3 And the Court has consistently rejected a test along those lines, and I think that we have three 4 5 data points for that. 6 JUSTICE SOTOMAYOR: I'm sorry. They haven't 7 issued that. 8 In all of those cases, Grafton and all of 9 the ones pre-1952, the Court pointed to the fact that, 10 when these islands pass laws, they could be vetoed by 11 Congress or -- or were -- that was the Organic Act. 12 In all of these places, Congress was 13 appointing their legislature, in part, or they were 14 appointing colonial governors. And we went through, in 15 each one of them, very carefully, what the issues of control that remained, that didn't make them sovereign 16 in any way, that made them classic territories. 17 So it's not that we didn't -- we eschewed 18 19 looking at that. 20 MS. SAHARSKY: I don't think that's right. And I'd like to just look at the specific example of 21 22 Puerto Rico that the Court considered in the Shell case. 23 As you say, by that point, Puerto Rico -- or 24 as you suggested, there had already been significant self-government in Puerto Rico. There were two houses 25

Alderson Reporting Company

1	of the legislature elected. And the Court, when asking
2	this question about whether there could be both Puerto
3	Rico antitrust defenses and Federal antitrust defenses,
4	went through the situation in Puerto Rico and said there
5	is significant self-government in here now. It defined
6	Puerto Rico as having an autonomy similar to that of the
7	States that's in 1937 and said that Congress had
8	given it a sweeping grant of legislative authority.
9	But the Court nonetheless said that under
10	our constitutional system, as a territory of the United
11	States subject to Congress's authority, that Puerto Rico
12	was not a separate sovereign.
13	JUSTICE SOTOMAYOR: But you forget that
14	Congress could veto those laws.
15	MR. SAHARSKY: It
16	JUSTICE SOTOMAYOR: Before 1952, Congress
17	could veto Puerto Rico's laws. It has relinquished that
18	right.
19	MR. SAHARSKY: I don't think that that's
20	right. I don't think that that's right, and to the
21	extent the Petitioner suggests it, it's just not
22	consistent with the Territory Clause of the
23	Constitution, which, after all
24	JUSTICE BREYER: Well, now, this is
25	JUSTICE KENNEDY: gives plenary power to

47

1 Congress.

2 JUSTICE BREYER: This is -- it's very 3 interesting what you're saying.

Remember, though, one of the provisions of
the Puerto Rico Constitution, which Congress approved
and said it was a Republican form of government, is that
criminal actions shall be conducted in the name and by
the authority of the people of Puerto Rico.

9 Now, that sounds like a delegation of 10 authority as to source, to go back to the Spanish system 11 if they want.

Now, if I take your view, then I guess you have to say -- and it has considerable implication -that that doesn't matter because Congress can take back what they gave.

16 Now, is that the position of the government 17 or the executive branch? Because that has tremendous 18 implication.

19 MR. SAHARSKY: Right.

JUSTICE BREYER: Because obviously, there is an argument as to whether what Congress and the President gave in Resolution 600, followed by the Constitution, followed by what happened at the UN, under the authority -- and looking to Felix Frankfurter for guidance, who said that the Constitution provides us

with many forms of possible relationship. That's what
 his view was.

3 And now, is the position of the executive 4 branch -- I mean, you want to take a position on this? 5 That -- that -- that Congress, if it wishes, can take 6 all of that back and Puerto Rico has no more 7 independence than -- in principle, than any of the other places that were territories? 8 9 Now, that's -- that's a big question. But 10 do -- do you -- do you see it's an important question? 11 And I want to know if the government's position rests upon it, because that's -- that's an 12 13 important statement for the executive, in my opinion. 14 MS. SAHARSKY: Well, two -- two responses to 15 that question. 16 The first, I think, is the first part of 17 your guestion, this statement in the Puerto Rico Constitution that the authority to prosecute comes from 18 the people of Puerto Rico and that it's in the name of 19 20 the people of Puerto Rico. That's been true since 1900. 21 That was in the 1900 Organic Act; that was true in 1917. 22 Puerto Rico is not claiming that it was a sovereign 23 then. So I -- I would not rely on that. 24 But the second and, obviously, more weighty question you raised is the question of could -- could 25

Congress revise the arrangements it has with Puerto
 Rico? And we think the answer is yes, and that that
 follows from the structure of the Constitution and its
 history.

5 I want to explain why that's why, but first, 6 I think it's very important for us to say that 7 Congress's position towards Puerto Rico, starting in 1900 through 1917 with the elected legislature --8 9 elected legislators; 1947, the elected governor; and 10 then this act in 1950, has been one of increasing self-government, recognizing the benefits of that to the 11 12 people of Puerto Rico. That's why Congress authorized 13 the enactment of the Constitution. We think that that's 14 a good thing. We have no reason to believe that 15 Congress would revisit that. And we think it's had many benefits for the people of Puerto Rico and the United 16 17 States.

But asking the constitutional question, which is what the Court has asked in its double jeopardy cases, about whether Congress could revise the arrangement with Puerto Rico, the answer is yes. And we think that that follows from its status as a United States territory because of two parts of the Territory Clause.

The first is that territories belong to the

25

Alderson Reporting Company

51

1 United States, meaning that they are under the 2 sovereignty of the United States. 3 And then second, that Congress is the one who makes the rules. 4 5 And if I could just make one more point, 6 which is historically, the fact that Congress was --7 that the United States was the sovereign and the only sovereign in the territories was very important at the 8 9 time that the Constitution was put together. 10 You may recall that the United States had 11 land there through the Northwest Ordinance, but it was 12 trying to figure out what to do with, and there were 13 questions with the States, what would happen. And so 14 that this provision needed to be added to the 15 Constitution to make clear that Congress was the one who was going to make rules for the territories, and that it 16 would be under the sovereignty of the United States. 17 18 JUSTICE BREYER: But there are some 19 things --20 MR. SAHARSKY: -- and in this --21 JUSTICE BREYER: Let's go back to the 22 insular cases right there. There are different kinds of territories. 23 24 It's because of that that Frankfurter says that the Constitution has left the field of invention open. 25 The

1 decisions in the insular cases mean this, if they mean 2 anything: That there's nothing in the Constitution to 3 hamper the responsibility of Congress in working out 4 arrangements.

5 Now, if that's so, why couldn't Congress 6 delegate, without the power to take it back, the 7 authority to Puerto Rico to work out its own criminal 8 code subject to the constraints of the Bill of Rights, 9 et cetera? Why couldn't it? I mean, if Frankfurter is 10 right. Or do you take the opposite position, that it 11 couldn't?

12 MS. SAHARSKY: The insular cases were 13 talking about something different and narrower, which is 14 whether all the protections of the Bill of Rights apply 15 to the territories by their own force. But to answer 16 the broader question that you answered, or asked, we 17 think that it's inconsistent with the grant of authority 18 to Congress in the Constitution for a territory to be a territory but no longer be sovereign, because the 19 20 Territory Clause defines territories of the United States as subject to the authority of the United States. 21 22 JUSTICE KAGAN: Do you think it's not 23 possible, Ms. Saharsky -- I mean, putting aside whether 24 Congress has done it here, but you think it's simply not 25 possible for Congress to confer sovereignty in the sense

Alderson Reporting Company

1 that would matter for the Double Jeopardy Clause? 2 MS. SAHARSKY: Well, it certainly could by 3 making it a State --4 JUSTICE KAGAN: Yes. 5 MS. SAHARSKY: -- or by making it 6 independent. 7 JUSTICE KAGAN: But -- but -- but not short of that. 8 9 MS. SAHARSKY: We think that that would just 10 be fundamentally inconsistent with the constitutional 11 design. And if I could just maybe give the -- the last 12 part of my historical answer, because I think it's very 13 important, is: When this provision was put into the 14 Constitution, it was coupled with the New States Clause, 15 and it was understood that the options for sovereignty were statehood. It was not that if this was a 16 17 territory, that the territory was controlled by the 18 United States, and I think it would have been very surprising to the States in the constitutional 19 20 conventions to think that when States were defined as 21 such important things in the Constitution, sharing the 22 sovereignty with the United States, that Congress could 23 somehow create a sovereign territory. We just don't 24 think that's correct.

25 JUSTICE SCALIA: Suppose Congress could also

Alderson Reporting Company

1 say, could it not, that -- in its criminal code, that if 2 a crime has been prosecuted and under Puerto Rican law 3 it will not be -- the same -- the same crime will not be 4 prosecuted under Federal law? 5 MS. SAHARSKY: Well, I think there --6 JUSTICE SCALIA: Couldn't it say that if it 7 wanted to? MS. SAHARSKY: I think there are two 8 9 different options. Congress can define what crimes are 10 and whether they are crimes in Puerto Rico, as opposed to somewhere else. So if that's what you're suggesting, 11 12 yes, I think that's what Congress could do. What we 13 don't think that Congress could do is change the meaning 14 of the Fifth Amendment and the Double Jeopardy Clause, 15 because that's something for this Court. 16 JUSTICE SCALIA: No -- well, but -- no, 17 certainly Congress cannot -- cannot deny double jeopardy effect to something that would be double jeopardy, but 18 I'm talking about a statute that says, even though it 19 20 might have double jeopardy effect, we say -- we say no. 21 MS. SAHARSKY: Well -- right, and what I'm 22 saying is I think Congress' ability is to define crimes 23 and to set out what -- what they are and where they are, 24 but if the question is what the Fifth Amendment permits and doesn't permit, we really think that's up to this 25

54

```
1 Court.
```

JUSTICE SCALIA: Well, it's not a matter of what the Fifth Amendment permits. Congress just says, we will -- the Justice Department will not prosecute a crime that has already been prosecuted in -- in Puerto Rico.

7 MS. SAHARSKY: Right. And the Justice Department can work with Puerto Rico to decide who will 8 9 prosecute what crimes. In fact, we do that as a general matter so that there's usually not any overlap of the 10 kind that occurred in this case. But I think that's 11 12 just a very different thing from suggesting that Puerto 13 Rico is a sovereign under the Double Jeopardy Clause. 14 JUSTICE SCALIA: No, no, I understand that. MS. SAHARSKY: But they're looking at it --15 JUSTICE SCALIA: I'm just saying, if you 16 like that result, it can be done by the statute. 17 MS. SAHARSKY: Right -- I'm sorry if I 18 misunderstood the question. I'm just trying to be extra 19 20 careful, because --21 JUSTICE SCALIA: I'm trying to be helpful. 22 (Laughter.) 23 MS. SAHARSKY: I know. I know. I -- I do 24 understand that now. I just want to make sure that --25 (Laughter.)

Alderson Reporting Company

MS. SAHARSKY: I just want to make sure that I'm being clear, because I think this case does raise a lot of important questions, and I do think that this Court's jurisprudence over the past 100 years has been very careful about what it means to be a double jeopardy sovereign --

JUSTICE GINSBURG: Could you explain before you sit down when and why the United States changed its position on this question? Because as I understand it, in -- in more than one brief, took the position that Puerto Rico, for double jeopardy cases, is -- for the Double Jeopardy Clause is -- is treated like a State.

13 MS. SAHARSKY: That's right. The government 14 took that position in two courts of appeals and defended 15 it in a brief in opposition to this Court, where we also said the issue didn't matter. But since that time, we 16 17 have revisited this issue, given substantial attention to it, both within the Department of Justice and within 18 many agencies of the Federal government, and our 19 20 position as set out in our brief is that it is not a 21 separate sovereign. And we think that that's entirely 22 consistent with the other things we've learned and the 23 testimony that DOJ and others have given to Congress 24 about Puerto Rico's current status and options for the 25 future.

56

1 The end of our brief talks about the task 2 force that the President has put in place, that has 3 issued reports three times over the past decade and a 4 half, which have said this is the constitutional status 5 Puerto Rico has now. To the extent the people of Puerto 6 Rico want to change it, here are the options that are 7 consistent with the Constitution. Tell us what you 8 want, and then Congress will decide where to go from 9 there.

10 So I would not want to suggest that as a 11 result of this case, that Puerto Rico's options are set 12 in stone. We don't think that they are set in stone. 13 We just think that right now Puerto Rico is a territory 14 of the United States, and as a result it's not a 15 separate sovereign under the Double Jeopardy Clause.

16 And just to give the court the three data 17 points where the Court has said we're going to focus on sovereignty under the Constitution and we're not going 18 to focus on autonomy or level of control, you have the 19 20 Puerto Rico v. Shell case which was where the Court said Puerto Rico already has autonomy, but they're still not 21 22 a double jeopardy sovereign. You have Waller, which is 23 about municipalities and the State of Florida trying to 24 basically treat its municipalities as a sovereign, and the Court said, no, no, no, you are not in the same 25

Alderson Reporting Company

1	relationship to your municipalities as the States are to
2	the Federal government; the municipalities are more like
3	the territories, there's a different ultimate source of
4	authority. And then the Court, with respect to the
5	Indian tribes, said even though Congress has the ability
6	to legislate for the tribes, they still have this
7	inherent source of authority that predated the
8	Constitution and was recognized in the Constitution.
9	So for the Court to turn away from that, we
10	think, would really upend that precedent, and not for a
11	good reason, because I think I'd like to conclude, if
12	I can, where I started, which is: This power, this dual
13	sovereignty power, is a weighty power the Court has
14	reserved for those entities that have the ultimate power
15	under our Constitution, defined in our Constitution.
16	And for that reason, Puerto Rico, despite its
17	significant self-government, is not a sovereign under
18	the Constitution.
19	CHIEF JUSTICE ROBERTS: Thank you, counsel.
20	Four minutes, Mr. Landau.
21	REBUTTAL ARGUMENT OF CHRISTOPHER LANDAU
22	ON BEHALF OF THE PETITIONER
23	MR. LANDAU: Thank you, Mr. Chief Justice.
24	If I could very briefly just say that
25	there's two real questions here, as the questioning has

58

1 brought out. First, what happened in 1950 to '52? And 2 B, if so, is that constitutional?

3 There's no question, if you look at the 4 documents of 1950 to '52, that Congress required Puerto Rico to have a Republican form of government, which is a 5 6 government by the people, of the people. This was 7 understood at the time to be a new experiment. This was 8 not just another organic act. And the Constitution of 9 Puerto Rico, which was approved by Congress and the 10 President, says the power, the political power of the 11 Commonwealth emanates from the people. And Congress 12 recognized that. Okay. So that goes to the what 13 happened.

14 Then you go to the real meat of the case, 15 which is the constitutional argument. It is shocking 16 that the Respondents and the United States government in 17 this case are using the Territorial Clause as a restriction on power, a limitation on power of 18 government. This is so ironic, for exactly what Justice 19 20 Breyer was saying: That the insular cases, if they stand for anything, mean that Congress has plenary 21 22 control over the territories. That means that Congress 23 can come up with inventive solutions which are broader 24 than the only menu that they give, which is a colony 25 governed pursuant to direct or delegated Federal power,

Alderson Reporting Company

1 statehood, or independence. Where do they get this view 2 that you can't come up with something inventive like the 3 Commonwealth, or the estado libre asociado, as Justice 4 Breyer said? This is the genius of our system, that it 5 allows us to have these unincorporated territories --6 JUSTICE SOTOMAYOR: Mr. Landau, would you explain what "estado libre asociado" means in Spanish? 7 MR. LANDAU: It means "free associated 8 9 state," literally, and again, I think --10 JUSTICE SOTOMAYOR: Literally. 11 MR. LANDAU: -- it has the concept of free 12 and it has the concept of associated, and state, in 13 estado. 14 JUSTICE SOTOMAYOR: Do you know why they 15 didn't use that phrase in the compact with the United 16 States? 17 MR. LANDAU: I think they thought that -that Commonwealth was the more natural English word. 18 19 I'm not sure, Your Honor. 20 JUSTICE SOTOMAYOR: I believe, because I've seen the Act, that they didn't because States have a 21 22 different meaning in the United States. 23 MR. LANDAU: And again, we are certainly not 24 saying that we are a State. Again, that was the whole genius of the Commonwealth. It allows flexibility by 25

1 Congress to come up with these kind of creative 2 solutions. So --3 JUSTICE SOTOMAYOR: The Solicitor General's 4 office claims that Grafton says that when we're looking 5 at double jeopardy, we're looking at something 6 different. We're looking at territory versus state. Do 7 you agree with that reading of the Shell case and of Grafton? 8 9 MR. LANDAU: Absolutely do not agree that 10 Grafton said that in any and all contexts, that regardless of any kind of territory, it is invariably 11 12 going to have that political relationship. Grafton was 13 describing the particular relationship there, where the 14 Governor of Puerto -- of the Philippines was appointed 15 by the President. He --JUSTICE SOTOMAYOR: And how about Shell? 16 17 MR. LANDAU: Just to finish that one point, Your Honor, Grafton -- it was called Grafton v. 18 United States because the Phillipine prosecution was 19 20 brought in the name of the United States. 21 Shell is exactly the same thing. The Shell 22 case said that was pursuant to an Organic Act, but 23 things changed in the 50s fundamentally. 24 I'm not just saying this. This court recognized in the whole series of decisions in the '70s 25

Alderson Reporting Company

1	that there was a fundamental transformation and that
2	Puerto Rico represents a very unique constitutional
3	experiment in our history, about how we have an
4	unincorporated territory that exists in long-term
5	association with the United States, but being the
6	creator of its own government, which is very important
7	to the people of of the of the government.
8	If there's one thing you read, please, in
9	our reply brief, read that Frankfurter memo because he,
10	as the law officer in the Department of War, addressed
11	exactly this issue. And please do not take the
12	Constitution of Puerto Rico away from the people of
13	Puerto Rico.
14	CHIEF JUSTICE ROBERTS: Thank you, counsel.
15	The case is submitted.
16	(Whereupon, at 12:08 p.m., the case in the
17	above-entitled matter was submitted.)
