**PETITION OF THE STATE OF IOWA, INTERVENING  
DEFENDANT, IN SUPPORT OF THE PETITION OF  
THE STATE OF ILLINOIS FOR TEMPORARY MODI-  
FICATION OF PARAGRAPH 3 OF DECREE OF  
APRIL 21, 1930.**

To the Honorable

THE CHIEF JUSTICE AND ASSOCIATE JUSTICES OF THE  
SUPREME COURT OF THE UNITED STATES:

The State of Iowa, an intervening defendant in this cause, presents this, its petition, in support of the petition heretofore filed by the State of Illinois, and joins with the State of Illinois in praying for temporary modification of the decree of this Court entered on April 21, 1930, which prohibits diversion of water from the Great Lakes-St. Lawrence system or watershed in excess of 1,500 cubic feet per second, in addition to domestic pumpage, by the State of Illinois or the Sanitary District of Chicago.

That as fully set forth in the petition of the State of Illinois, unprecedented drought conditions in the Midwest and, in particular, in the area which forms a watershed for the Mississippi River, have resulted in a continuing decline of the water level of the Mississippi River to a point where navigation already is impaired and is imminently threatened with further impairment. That as a result of such drought conditions, the water level in the Mississippi River is continuing to decline, and it is apparent that within a matter of weeks navigation on the river, even by shallow draft vessels, will be completely halted unless relief is granted. That riverborne commerce moving to and from the states of the mid-continent is of vital importance to the economy of the states which are dependent, both for industrial and domestic use, upon barge transportation for the movement of bulk commodities such as iron ore, grain, fuel oil, and other items of commerce which must be moved by barge.

That there is no prospect of relief from this condition by natural means and the only means by which the necessary relief can be accomplished in time to avert the emer-

gency conditions which already exist, and which are daily becoming more critical, is through the diversion of water from Lake Michigan via the Chicago Sanitary Canal and the Illinois River as prayed for in the petition of the State of Illinois. That as stated in that petition, the amount of water required to alleviate the present shortage of water in the Mississippi River, would have no appreciable effect upon the water level of Lake Michigan or of the Great Lakes-St. Lawrence system or watershed, and would in no respect impair or obstruct navigation thereon.

WHEREFORE, the State of Iowa respectfully concurs in the petition heretofore filed by the State of Illinois for temporary modification of the decree of this Court of April 21, 1930, to permit a diversion of 10,000 cubic feet of water per second from the Great Lakes-St. Lawrence system or watershed, in addition to domestic pumpage, for a period of one hundred days following the entry of the Court's order authorizing such modification, in order to relieve the critical shortage of water which now exists in the Mississippi River.

Respectfully submitted,

STATE OF IOWA,

By DAYTON COUNTRYMAN,

*Attorney General of Iowa.*

State of Iowa }  
 Polk County } ss.

Dayton Countryman, being first duly sworn, deposes and says he is a duly appointed and acting Attorney General in the State of Iowa; that he has read the foregoing petition; and that the matters and things therein set forth are true in substance and in fact as I verily believe.

.....

Subscribed and sworn to before me this 20th day of November, A. D. 1956.

.....

Notary Public in and for Polk County, Iowa.
